**Conspicuous Silences** Ruth Rosaler, 2016 How are a reader's perceptions of a plot impacted by its presentation through textual clues rather than explicit narration and why would an author choose this comparatively indirect mode of narration Conspicuous Silences answers these questions by examining Victorian novels in which pivotal events are left inexplicit for hundreds of pages at a time but are nonetheless evident to the reader The clarity with which readers understand these inexplicit plot lines is evidenced by their ability to follow the progression of narratives that rely heavily on the inexplicit content being detected without this reader comprehension these narratives would be deemed incoherent In linguistics communications that depend on a hearer's or reader's inference rather than their decoding the explicit content of an utterance are termed implicatures Conspicuous Silences explores the impact that central sustained implicatures have on a reader's experience of a novel It also discusses how authors may generate those implicatures by exploiting the reader's assumption of narratorial omniscience and the correlated reader assumption of a narrative's fictionality Reliance on such sustained fictionality related implicatures is fairly ubiquitous Conspicuous Silences concentrates on texts by Elizabeth Gaskell George Eliot Charles Dickens Frances Trollope Anthony Trollope Wilkie Collins and M E Braddon It examines the use of implicature in communicating impolite topics communicating character psychology and in fashioning a playful narrative

tone This work contributes to Victorian literary scholarship narratological discussions about narratorial omniscience and fictionality and pragmatic stylistic debates about fictionality and the use of implicature **The Treasure of the Poison**
