The Making of the "Rape of Nanking" Takashi Yoshida, 2009-03-04 On December 13 1937 the Japanese army attacked and captured the Chinese capital city of Nanjing planting the rising sun flag atop the city's outer walls What occurred in the ensuing weeks and months has been the source of a tempestuous debate ever since It is well known that the Japanese military committed wholesale atrocities after the fall of the city massacring large numbers of Chinese during the both the Battle of Nanjing and in its aftermath Yet the exact details of the war crimes how many people were killed during the battle How many after How many women were raped Were prisoners executed How unspeakable were the acts committed are the source of controversy among Japanese Chinese and American historians to this day In *The Making of the Rape of Nanking* Takashi Yoshida examines how views of the Nanjing Massacre have evolved in history writing and public memory in Japan China and the United States For these nations the question of how to treat the legacy of Nanjing whether to deplore it sanitize it rationalize it or even ignore it has aroused passions revolving around ethics nationality and historical identity Drawing on a rich analysis of Chinese Japanese and American history textbooks and newspapers Yoshida traces the evolving and often conflicting understandings of the Nanjing Massacre revealing how changing social and political environments have influenced the debate Yoshida suggests that from the 1970s on the dispute over Nanjing has become more lively more globalized and immeasurably more intense due in part to Japanese revisionist history and a renewed emphasis on patriotic education in China While today it is easy to assume that the Nanjing Massacre has always been viewed as an emblem of Japan's wartime aggression in China the image of the Rape of Nanking is a much more recent icon in public consciousness Takashi Yoshida analyzes the process by which the Nanjing Massacre has become an international symbol and provides a fair and respectful treatment of the politically charged and controversial debate over its history

Mediasphere Shanghai Alexander Des Forges, 2007-07-31 For many in the west Shanghai is the quintessence of East Asian modernity whether imagined as glamorous and exciting corrupt and impoverishing or a complex synthesis of the good the bad and the ugly How did Shanghai acquire this power How did people across China and around the world decide that Shanghai was the place to be *Mediasphere Shanghai* shows that partial answers to these questions can be found in the products of Shanghai's media industry particularly the Shanghai novel a distinctive genre of installment fiction that flourished from the 1890s to the 1930s Shanghai fiction supplies not only the imagery that we now consider typical of the city but more significantly the very forms simultaneity interruption mediation and excess through which the city could be experienced as a business and entertainment center and envisioned as the focal point of a mediasphere with a national and transnational reach Existing paradigms of Shanghai culture tend to explain the city's distinctive literary and visual aesthetics as merely the predictable result of economic conditions and social processes but Alexander Des Forges maintains that literary texts and other cultural products themselves constitute a conceptual foundation for the city and construct the frame through which it is perceived Working from a wide range of sources including installment fiction photographs lithographic illustrations maps guidebooks newspapers and film Des Forges demonstrates the significant social effects of aesthetic forms and practices *Mediasphere Shanghai* offers a new perspective on the cultural history of the city and on the literature and culture of modern China in general

Remote Homeland, Recovered Borderland Shao Dan, 2011-08-31 *Remote Homeland Recovered Borderland* addresses a long ignored issue in the existing studies of community construction How does the past failure of an ethnic people to maintain sovereignty over their homeland influence

their contemporary reconfigurations of ethnic and national identities To answer this question Shao Dan focuses on the Manchu the second largest non Han group in contemporary China whose cultural and historical ancestors the Manchus ruled China from 1644 to 1912 Based on deep and rigorous empirical research Shao analyzes the major forces responsible for the transformation of Manchu identity from the ruling group of the Qing empire to the minority of minorities in China today the de territorialization and provincialization of Manchuria in the late Qing the remaking of national borders and ethnic boundaries during the Sino Japanese contestation over Manchuria and the power of the state to re categorize borderland populations and ascribe ethnic identity in post Qing republican states Within the first half of the twentieth century four regimes the Qing empire under the Manchu royal clan the Republic of China under the Nationalist Party Manchuokuo under the Japanese Kanto Army and the People s Republic of China under the Communist Party each grouped the Manchus into different ethnic and national categories while re positioning Manchuria itself on their political maps in accordance with their differing definitions of statehood During periods of state succession Manchuria was transformed from the Manchu homeland in the Qing dynasty to an East Asian borderland in the early twentieth century before becoming China s territory recovered from the Japanese empire As the transformation of territoriality took place the hard boundaries of the Manchu community were reconfigured its ways of self identification reformed and the space for its identity representations redefined Taking the borderland approach Remote Homeland goes beyond the single country focus and looks instead at regional and cross border perspectives It is a study of China but one that transcends traditional historiographies As such it will be of interest to scholars of modern China Japanese empire and Northeast Asian history as well as to those engaged in the study of borderlands ethnic identity nationalism and imperialism Echoes of Harbin Dan Ben-Canaan,2024-03-06 Echoes of Harbin Reflections on Space and Time of a Vanished Community in Manchuria deals with Harbin a Chinese city that was established by Russians in 1898 and was a home for 38 different national ethnic communities for more than 60 years Among the communities and second in size was the Jewish community This book exposes several areas that have contributed to the Jewish experience in China particularly in Harbin and paints a revealing picture of what a Jewish community in an alien land was and how it functioned in a space that was shared with other communities While it starts with a unique space called Manchuria that had its mark on the town of Harbin it uncovers the active and productive life of a community that wished for a haven but found unrest and hostilities and had to look for it elsewhere *Border of Water and Ice* Joseph A. Seeley,2024-10-15 Border of Water and Ice explores the significance of the Yalu River as a strategic border between Korea and Manchuria Northeast China during a period of Japanese imperial expansion into the region The Yalu s seasonal patterns of freezing thawing and flooding shaped colonial efforts to control who and what could cross the border Joseph A Seeley shows how the unpredictable movements of water ice timber cutters anti Japanese guerrillas smugglers and other borderland actors also spilled outside the bounds set by Japanese colonizers even as imperial border making reinforced Japan s wider

political and economic power Drawing on archival sources in Japanese Korean Chinese and English Seeley tells the story of the river and the imperial border haphazardly imposed on its surface from 1905 to 1945 to show how rivers and other nonhuman actors play an active role in border creation and maintenance Emphasizing the tenuous environmentally contingent nature of imperial border governance *Border of Water and Ice* argues for the importance of understanding history across the different seasons Borderland Memories Martin T. Fromm,2019-03-07 In the 1980s a Chinese state sponsored oral history project led to the publication of local regional and national histories These histories are the basis of this innovative study of ideology formation and political mobilization post Cultural Revolution reconciliation and the recovery of borderland identities in early post Mao China Sovereignty Experiments Alyssa M. Park,2019-03-15 *Sovereignty Experiments* tells the story of how authorities in Korea Russia China and Japan through diplomatic negotiations border regulations legal categorization of subjects and aliens and cultural policies competed to control Korean migrants as they suddenly moved abroad by the thousands in the late nineteenth century Alyssa M Park argues that Korean migrants were essential to the process of establishing sovereignty across four states because they tested the limits of state power over territory and people in a borderland where authority had been long asserted but not necessarily enforced Traveling from place to place Koreans compelled statesmen to take notice of their movement and to experiment with various policies to govern it Ultimately states efforts culminated in drastic measures including the complete removal of Koreans on the Soviet side As Park demonstrates what resulted was the stark border regime that still stands between North Korea Russia and China today Skillfully employing a rich base of archival sources from across the region *Sovereignty Experiments* sets forth a new approach to the transnational history of Northeast Asia By focusing on mobility and governance Park illuminates why this critical intersection of Asia was contested divided and later reimagined as parts of distinct nations and empires The result is a fresh interpretation of migration identity and state making at the crossroads of East Asia and Russia *The Great Manchurian Plague of 1910-1911* William C. Summers,2012-12-11 When plague broke out in Manchuria in 1910 as a result of transmission from marmots to humans it struck a region struggling with the introduction of Western medicine as well as with the interactions of three different national powers Chinese Japanese and Russian In this fascinating case history William Summers relates how this plague killed as many as 60 000 people in less than a year and uses the analysis to examine the actions and interactions of the multinational doctors politicians and ordinary residents who responded to it Summers covers the complex political and economic background of early twentieth century Manchuria and then moves on to the plague itself addressing the various contested stories of the plague s origins development and ecological ties Ultimately Summers shows how because of Manchuria s importance to the world powers of its day the plague brought together resources knowledge and people in ways that enacted in miniature the triumphs and challenges of transnational medical projects such as the World Health Organization Famine Relief in Warlord China Pierre Fuller,2021-03-01 *Famine Relief in Warlord China* is a

reexamination of disaster responses during the greatest ecological crisis of the pre Nationalist Chinese republic In 1920 1921 drought and ensuing famine devastated more than 300 counties in five northern provinces leading to some 500 000 deaths Long credited to international intervention the relief effort Pierre Fuller shows actually began from within Chinese social circles Indigenous action from the household to the national level modeled after Qing era relief protocol sustained the lives of millions of the destitute in Beijing in the surrounding districts of Zhili Hebei Province and along the migrant and refugee trail in Manchuria all before joint foreign Chinese international relief groups became a force of any significance Using district gazetteers stele inscriptions and the era s vibrant Chinese press Fuller reveals how a hybrid civic sphere of military authorities working with the public mobilized aid and coordinated migrant movement within stricken communities and across military domains Ultimately the book s spotlight on disaster governance in northern China in 1920 offers new insights into the social landscape just before the region s descent over the next decade into incessant warfare political struggle and finally the normalization of disaster itself

Indonesia John Bresnan,2005-10-06

Indonesia is in the midst of an epic transition as it moves from decades of authoritarian government to a new era of democratic opening from years of secular government to a time of struggle over the role of Islam in public life and from the breakdown of a miracle economy to a search for resilience in the face of global forces In this timely work leading scholars analyze the causes of the social political and economic crises that erupted in Indonesia in the late 1990s the responses of the elite and civil society and

the prospects for continuing reform In the process they explore such issues as the relevance of the nation state in an age of globalization the role of Islam in politics and violence the strengths and weaknesses of a negotiated route to democratic governance the relationship of corruption and structural reform to economic growth and the prospects for stability in Southeast Asia The first book to grapple with the scale and complexity of this historic transition this work offers a clear and compelling introduction to the Indonesian experience for students with an interest in the problems of post colonial states to scholars in comparative Asian studies and to anyone seeking a serious yet accessible introduction to the world s largest Islamic democracy A Study of the Weatherhead East Asian Institute Columbia University
