## **Reluctant Allies Germanjapanese Naval Cooperation During World War II:**

*Reluctant Allies* Hans-Joachim Krug,2001 Often forgotten among the many aspects of World War II is the alliance between Germany and Japan Because of the vast geographical separation between these two Axis nations and because of some of very real philosophical and operational differences the alliance was fraught with difficulty But in the vast middle ground of the Indian Ocean these reluctant allies did come together to conduct naval operations that might well have had disastrous consequences for the Allies but for the intervention of fate and the inevitable friction of war Captain Krug served in U boats in that theater and in the Far East and with the assistance of scholars of both nations he has produced a very readable and meticulously researched account of German and Japanese naval interaction Besides thoroughly covering for the first time this neglected topic the authors provide valuable insight into the faulty mechanism of an alliance between totalitarian powers characterized by suspicion and a reluctance to freely share information and assets They also bring to light the difficulties and ultimate consequences of dealing with the megalomania and criminal intellect of Adolf Hitler which resulted in war crime trials for some of the participants Proving that not every aspect of the world s greatest war has been covered this book is a valuable contribution to the ever expanding lore of the war and will be required reading for those with an interest in naval operations global strategy and international diplomacy during the period *Hitler and His Allies in World War Two* Jonathan Adelman,2020-03-25 In an area where in depth studies of Hitler s relations with Nazi Germany s allies and the failure of Nazi Germany to make more effective use of them during the war are scant this is a survey that looks at the Soviet Union Japan France Italy Spain Romania and Hungary and their relationship to Nazi Germany Using a comparative approach seven case studies examine themes such as co operation and resistance military and economic aid treatment of Jews relations with the enemies and the popular sentiment towards Germany Jonathan Adelman has provided students of the Second World War with a welcome mine of information and a unique perspective on a much studied topic

**The Influence of Airpower Upon History** Robin Higham, Mark P.

Parillo,2013-02 Where will the next generation of farmers come from What will their farms look like Fields of Learning The Student Farm Movement in North America provides a concrete set of answers to these urgent questions describing how at a wide range of colleges and universities across the United States and Canada students faculty and staff have joined together to establish on campus farms as outdoor laboratories for agricultural and cultural education From one acre gardens to five hundred acre crop and livestock farms student farms foster hands on food system literacy in a world where the shortcomings of input intensive conventional agriculture have become increasingly apparent They provide a context in which disciplinary boundaries are bridged intellectual and manual skills are cultivated together and abstract ideas about sustainability are put to the test Editors Laura Sayre and Sean Clark have assembled a volume of essays written by pioneering educators directly involved in the founding and management of fifteen of the most influential student farms in North America Arranged chronologically Fields of Learning illustrates how the student farm movement originated in the nineteenth century gained ground in the 1970s and is flourishing today from the University of California Davis to Yale University from Hampshire College to Central Carolina Community College from the University of Montana to the University of Maine Midway: Dauntless Victory Peter C. Smith,2008-03-25 This is an in depth study of the battle of Midway that reviews the many previous accounts and compares their accuracy and veracity with fresh documentation that has been released recently including new material on the post war analysis made by a US select committee There are new viewpoints on the muddle among the US Admirals the total failure of the USAAF despite elaborate claims fresh thinking on the part played by the US Navy Dauntless dive bombers in the action the mystery of the carrier Saratoga s presence Hollywood s totally wrong take on the battle in all the films since made about it Also included are new eyewitness accounts the author has obtained and information from Japanese sources that has never been previously published The lengthy Appendices will include statistical details of the ships the planes and the men *False Flags* Stephen Robinson,2016-08-01 Hitler's Asian Adventure Horst H. Geerken,2025-06-06 From 1963 to 1981 Horst H Geerken lived in the new born Republic of Indonesia at a time of upheaval after the end of almost 350 years of colonial rule and exploitation by the Netherlands In both his professional and private activities he constantly came across German Japanese and Indonesian eyewitnesses who had lived through the Japanese occupation and the presence of the German navy in Indonesia The relations between the German Reich and what was then the Dutch East Indies were obviously closer and more varied than had been previously assumed Hardly anyone was aware that Hitler was extremely interested in this distant archipelago and that thousands of German officers and seamen were in action in East and South East Asia Who knows that German U boats and auxiliary cruisers penetrated deep into the Pacific and that the German Navy used the Kerguelen Islands in the South Polar Sea as a secret base Or that Hitler gave massive support to the independence movements in Indonesia and India Many of the German naval personnel chose to make Indonesia their home after the war and joined the Indonesian freedom fighters The Second World War heralded the end of

the colonial era in Asia especially in South East Asia The role played in this process by the Third Reich should not be underestimated The collaboration between the Axis powers especially that between German and Japan with all its problems is also investigated There was a lively exchange of new weapons technology There was even the re creation of a German Radar system in Japan under the management of a German engineer Documents from the Third Reich s Foreign Ministry published here for the first time show how brutally and inhumanely the German men women and children in the Dutch internment camps in the East Indies were treated by their captors These documents are supported by evidence from contemporary witnesses The author has encapsulated his many years of research in the two volumes of Hitler s Asian Adventure It is a fascinating documentation of the German Navy s involvement in a theatre of war that has until now been neglected by historians
