Remaining Flowers:

Remaining Flowers Daniel Ost, Jean-Pierre Gabriel, 2003 An exquisitely photographed volume of cutting edge floral decorator and Belgian flower shop owner Daniel Ost's innovative floral and leaf branch twig sculptures He brings the reader into a totally new realm of viewing plants and flowers as art and architecture Daniel Ost is one of the European plant flower artists and designers who have made such an impact as art as live material You have to see these photographs and carefully read the inspiring text to understand why you will never again be able to look at plants or flowers the same way Ultimately Daniel Ost explains that though flowers and plants must be cut or separated from life the beauty and architectural integrity of these materials in the hands of a contemporary master can work a miracle of design and transcend everything we know about traditional floral arranging *Bulletin*, 1927
