Remaking American Values Neil W. Chamberlain,1977 *Remaking American Values* Neil W. Chamberlain,1977

Values, Nature, and Culture in the American Corporation William C. Frederick,1995 In *Values Nature and Culture in the American Corporation* distinguished ethicist William Frederick explores issues of fundamental importance to all who aspire to conduct their business affairs ethically He begins with an examination of the three value systems in business that are basically incompatible and therefore in constant tension The first is the need for managers to efficiently allocate resources for maximum profits The second is the natural tendency for managers in pursuit of the first goal to accumulate power for its own sake The third is the desire for people in the community to create relationships that will perpetuate these communities Frederick brings in a range of ideas and concepts from the social sciences as well as the natural sciences to illuminate his discussion In the final section of the book he explores a range of issues of current concern to managers including corporate culture and technology Labor Literature United States. Cudd Brown,1980 *Corporate Social Responsibility* Andrew Crane,Dirk Matten,2007-09-18 Over the last four decades Corporate Social Responsibility CSR has acquired distinctive organizational status and become the subject of an increasing number of social and environmental policies This development has been reflected by an outpouring of literature that focuses on CSR and constitutes a distinct area of business education and research This major work carefully and constructively brings together seminal articles to provide a comprehensive overview of the burgeoning interdisciplinary and international scholarly writing in the field Papers will cover the following areas Volume I Theories and Concepts of CSR providing a comprehensive grounding in the conceptual and normative CSR literature Volume II Managing and Implementing CSR providing a thorough overview of CSR as a practical phenomenon Volume III CSR in Global Context providing an integrated international perspective on CSR theory and practice *Social Strategy & Corporate Structure* Neil W. Chamberlain,2007-09-10 This new work by Neil W Chamberlain will be of great importance to the business community and to all those charged with defining the role large

corporations play in the affairs of society Social Strategy and Corporate Structure is an objective indepth examination of the organizational requirements of a social role for large scale business The role Neil Chamberlain presents is one of heroic dimensions the political choice of goals the strategic allocation of resources and the tactical operations of the mechanisms of production While there has been much discussion of corporate social responsibility few have investigated the ways its structure will have to change if the corporation is to pursue a strategy that is both economic and social This timely book integrates a large number of issues involving corporate activities and governance that go directly to the heart of this problem In step by step detail Chamberlain analyzes the organizational imperatives of this new age of social responsibility the composition and functions of boards of directors and the relation of their duties to a broad system of national planning the internal social audit changes in the characteristics of corporate social planning and proposals for restructuring ultimate corporate authority either through public or outside directors In addition he examines the potential relevance of federal chartering of corporations and the effects of international economic interdependence on the development of a new corporate social strategy This book is not a detailed blueprint for change Rather it presents a thorough systematic study of available courses of action for improvement based on the principle that conventional notions of corporate independence will have to be modified for any social strategy to work And while not everyone will agree with Neil Chamberlain few can afford to ignore his provocative insights into what corporations must do to function effectively in a changed social environment **Work**
