**Remaking Modernity** Julia Adams, Elisabeth S. Clemens, Ann Shola Orloff, 2005-02-01 A sociology collection reviewing the state of historical study in a wide range of areas while showcasing the use of poststructuralist approaches to studying family gender war protest revolution state making social provisions colonialism trans **Symposium on Remaking Modernity** Richard Lachmann, Julia Adams, Elisabeth Stephanie Clemens, Ann Shola Orloff, 2006 **Symposium on Remaking Modernity**, 2006 *The Prospect of Global History* James Belich, John Darwin, Margret Frenz, Chris Wickham, 2016 The Prospect of Global History offers a new approach to the study of history looking at the subject across a greater chronological range and seeking perspectives from sources beyond conventional European narratives *Black Scholarly Activism between the Academy and Grassroots* Ornette D. Clennon, 2018-09-26 This book explores the invisible impact whiteness has on the lived black experience in the UK Using education as a philosophical and ethical framework the author interrogates the vision of Black Radicalism proposed by Kehinde Andrews exploring its potential applicability to grassroots activism Clennon uses an interdisciplinary theoretical framework to draw together his previous writings on blackness in effect crystallising the links between commercial urban blackness the pathological structures of whiteness and institutional control Drawing inspiration from Robbie Shilliam's cosmologically related hinterlands as an antidote to the nature of colonial Eurocentric epistemologies the author uses the polemical chapters as gateways to theoretical discussion about the material effects of whiteness felt on the ground This controversial and unflinching volume will be of interest to students and scholars of race studies particularly within education and the lived black experience **Making War on the World** Mark Shirk, 2022-03-01 The state bounds politics it constructs and enforces boundaries that separate what it controls from what lies outside its domain However states face a variety of threats that cross and challenge their geographical and conceptual boundaries Transnational violent actors that transcend these boundaries also defy the state's claims to political authority and legitimacy Mark Shirk examines historical and contemporary state responses to transnational violence to develop a new account of the making of global orders He considers a series of crises that plagued the state system in different eras golden age piracy in the eighteenth century anarchist propagandists of the deed at the turn of the twentieth and al Qaeda in recent years Shirk argues that states redraw conceptual boundaries such as between international and domestic to make sense of and defeat transnational threats In response to forms of political violence that challenged boundaries states developed creative responses that included new forms of control surveillance and rights As a result these responses gradually made and transformed the state and global order Shirk draws on extensive archival research and interviews with policy makers and experts and he explores the implications for understandings of state formation Combining rich detail and theoretical insight Making War on the World reveals the role of pirates anarchists and terrorists in shaping global order International Institutions in World History Laust Schouenborg, 2016-12-08 This book presents a case for a

basic reorientation of International Relations away from the state and towards the study of social institutions in the sense of patterned practices ideas and norms rules IR has always suffered from a parochial occupation with the state and the Western system of state Its main theories revolve around these phenomena and have resulted in the reification of the state it has been turned into an essential actor with certain immutable and fundamental properties that remain constant throughout time A list of these properties usually includes territorial limits centralisation monopolisation of violence and exclusive loyalties International Institutions in World History shows how the state is an inherently modern phenomenon a modern social institution and that foundational concepts in IR should be based on a full appreciation of the wider record of human existence on earth trans historically and cross culturally Schouenborg argues that these social institutions may be captured via a universal functional typology consisting of four categories legitimacy and membership regulating conflicts trade and governance The book will be of interest to scholars and students within IR particularly IR theory anthropology archaeology and sociology and those interested in general social theory The Axial Age and Its Consequences Robert N. Bellah, Hans Joas, 2012-10-31 This book makes the bold claim that intellectual sophistication was born worldwide during the middle centuries of the first millennium bce From Axial Age thinkers we inherited a sense of the world as a place not just to experience but to investigate envision and alter A variety of utopian visions emerged and led to both reform and repression

The SAGE Handbook of Comparative Politics Todd Landman, Neil Robinson, 2009-06-16 The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field The Origins of Canadian and American Political Differences Jason Kaufman, 2009-02-16 Why do the United States and Canada have such divergent political cultures when they share one of the closest economic and cultural relationships in the world Kaufman examines the North American political landscape to draw out the essential historical factors that underlie the countries differences **The Oxford Handbook of Pierre Bourdieu** Thomas Medvetz, Jeffrey J. Sallaz, 2018-04-02 Pierre Bourdieu was one of the most influential social thinkers of the past half century known for both his theoretical and methodological contributions and his wide ranging empirical investigations into colonial power in Algeria the educational system in France the forms of state power and the history of artistic and scientific fields among many other topics Despite the depth and breadth of his influence however Bourdieu s legacy has yet to be assessed in a comprehensive manner The Oxford Handbook of Pierre Bourdieu fills this gap by offering a sweeping overview of Bourdieu s impact on the social sciences and humanities Thomas Medvetz and Jeffrey J Sallaz have gathered a diverse array of leading scholars who place Bourdieu s work in the wider scope of intellectual history trace the development of his thought offer original interpretations and critical engagement and discuss the likely impact of his ideas on future social research The Handbook

highlights Bourdieu's contributions to established areas of research including the study of markets the law cultural production and politics and illustrates how his concepts have generated new fields and objects of study *The Palgrave Handbook of the History of Human Sciences* David McCallum, 2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas concepts and policies within the human sciences Drawn from histories of the social and psychological sciences anthropology the history and philosophy of science and the history of ideas this collection analyses the health and welfare of populations evidence of the changing nature of our local communities cities societies or global movements and studies the way our humanness or human nature undergoes shifts because of broader technological shifts or patterns of living This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields a means of understanding patterns of social change and the conduct of institutions as well as the histories of these ways of knowing probe the contexts circumstances and conditions which underpin continuity and change in the way we count analyse and understand ourselves in our different social worlds It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences and between these and changes and continuities in societies and conducts as 21st century research moves into new intellectual and geographic territories more diverse fields and global problematics

**Militarization and the Global Rise of Paramilitary Culture** Brad West, Thomas Crosbie, 2021-10-12 This edited book demonstrates a new multidimensional comprehension of the relationship between war the military and civil society by exploring the global rise of paramilitary culture Moving beyond binary understandings that inform the militarization of culture thesis and examining various national and cultural contexts the collection outlines ways in which a process of paramilitarization is shaping the world through the promotion of new warrior archetypes It is argued that while the paramilitary hero is associated with military themes their character is in tension with the central principals of modern military organization something that often challenges the state's perceived monopoly on violence As such paramilitization has profound implications for institutional military identity the influence of paramilitary organizations and broadly how organised violence is popularly understood

**Alfred Schutz, Phenomenology, and the Renewal of Interpretive Social Science** Besnik Pula, 2024-04-16 In recent decades the historical social sciences have moved away from deterministic perspectives and increasingly embraced the interpretive analysis of historical process and social and political change This shift has enriched the field but also led to a deadlock regarding the meaning and status of subjective knowledge Cultural interpretivists struggle to incorporate subjective experience and the body into their understanding of social reality In the early twentieth century philosopher Alfred Schutz grappled with this very issue Drawing on Edmund Husserl's phenomenology and Max Weber's historical sociology Schutz pioneered the interpretive analysis of social life from an embodied perspective However the recent interpretivist turn influenced by linguistic philosophies discourse theory and

poststructuralism has overlooked the insights of Schutz and other phenomenologists This book revisits Schutz's phenomenology and social theory positioning them against contemporary problems in social theory and interpretive social science research The book extends Schutz's key concepts of relevance symbol relations theory of language and lifeworld meaning structures It outlines Schutz's critical approach to the social distribution of knowledge and develops his nascent sociology and political economy of knowledge This book will appeal to readers with interests in social theory phenomenology and the methods of interpretive social science including historical sociology cultural sociology science and technology studies political economy and international relations **Comparative Politics** Mark Irving Lichbach, Alan S. Zuckerman, 2009-02-09

This revised edition of Comparative Politics offers an assessment of the past decade of scholarship in comparative politics

Gender Equality Janet C. Gornick, Marcia K. Meyers, 2020-05-05 In the labor market and workplace anti discrimination rules affirmative action policies and pay equity procedures exercise a direct effect on gender relations But what can be done to influence the ways that men and women allocate tasks and responsibilities at home In Gender Equality Volume VI in the Real Utopias series social scientists Janet C Gornick and Marcia K Meyers propose a set of policies paid family leave provisions working time regulations and early childhood education and care designed to foster more egalitarian family divisions of labor by strengthening men's ties at home and women's attachment to paid work Their policy proposal is followed by a series of commentaries both critical and supportive from a group of distinguished scholars and a concluding essay in which Gornick and Meyers respond to a debate that is a timely and valuable contribution to egalitarian politics

Moral Minefields Shai M. Dromi, Samuel D. Stabler, 2023-09 In Moral Minefields Shai M Dromi and Samuel D Stabler take a systematic look at the profound effects moral debates have on sociological research The authors explore five recent controversial topics in sociology about race and genetics secularization theory methodological nationalism the culture of poverty and parenting practices to show how researchers make decisions about what topics to study and how to engage with them They present three broad ways in which sociologists respond to moral criticism of scholarly work while some accept and endorse the criticism others work out new ways to address these topics that would transcend the criticism and still others build on the debates to form new more morally acceptable research Moral Minefields addresses one of the most prominent questions in contemporary sociological theory today how can sociology contribute to the development of a virtuous society Rather than suggesting that sociologists adopt a clear paradigm that can guide their research toward clearly defined moral aims Dromi and Stabler argue that sociologists already largely possess and employ the repertoires to address questions of moral virtue in their research They thus shift the conversation away from attempts to theorize the moral goods sociologists should support and toward questions about how sociologists manage the plurality of moral positions that present themselves in their studies Moral diversity within sociology they show fosters disciplinary progress The book promises to be of interest to sociologists of knowledge production of higher education and especially to sociologists who aim to reach a

wider public      Globalization, Environmental Change, and Social History Peter Boomgaard, Marjolein 't Hart, 2011-02-24  
Throughout all ages the activities of mankind have weighed heavily upon the environment In turn changes in that environment have favoured the rise of certain social groups and limited the actions of others Despite this environmental history has remained a blind spot for most social and economic historians This is to be regretted as the various and unequal effects of environmental change often explain the strengths and weaknesses of certain social groups irrespective of their being defined along the lines of class gender and ethnicity This volume brings together the expertise of social and environmental historians in an effort to assess the extent to which transnational agents changed socioecological space as a consequence of globalization since the Late Middle Ages      **The Oxford History of Historical Writing** Axel Schneider, Daniel Woolf, 2011-05-05 The fifth volume of The Oxford History of Historical Writing offers essays by leading scholars on the writing of history globally since 1945 Divided into two parts part one selects and surveys theoretical and interdisciplinary approaches to history and part two examines select national and regional historiographies throughout the world It aims at once to provide an authoritative survey of the field and to provoke cross cultural comparisons This is chronologically the last of five volumes in a series that explores representations of the past across the globe from the beginning of writing to the present day      **The Oxford History of Historical Writing** Daniel R. Woolf, Andrew Feldherr, Grant Hardy, 2011-05-05 A chronological scholarly survey of the history of historical writing in five volumes Each volume covers a particular period of time from the beginning of writing to the present day and from all over the world
