Library, 1985 *Catalogue* Bernard Quaritch (Firm), 1929 Rembrandt's Roughness Nicola Suthor, 2018-04-03 Roughness is the sensual quality most often associated with Rembrandt's idiosyncratic style It best defines the specific structure of his painterly textures which subtly capture and engage the imagination of the beholder Rembrandt's Roughness examines how the artist's unconventional technique pushed the possibilities of painting into startling and unexpected realms Drawing on the phenomenological insights of Edmund Husserl as well as firsthand accounts by Rembrandt's contemporaries Nicola Suthor provides invaluable new perspectives on many of the painter's best known masterpieces including The Anatomy Lesson of Dr Deyman The Return of the Prodigal Son and Aristotle with a Bust of Homer She focuses on pictorial phenomena such as the thickness of the paint material the visibility of the colored priming and the dramatizing element of chiaroscuro showing how they constitute Rembrandt's most effective tools for extending the representational limits of painting Suthor explores how Rembrandt developed a visually precise handling of his artistic medium that forced his viewers to confront the paint itself as a source of meaning its challenging complexity expressed in the subtlest stroke of his brush A beautifully illustrated meditation on a painter like no other Rembrandt's Roughness reflects deeply on the intellectual challenge that Rembrandt's unrivaled artistry posed to the art theory of his time and its eminent role in the history of art today *Library Catalog of the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.). Totem West's posters and notecards sold by the thousands to the growing generation of hippies, free thinkers, bohemians, and individualists who were thriving in San Francisco and had begun to find themselves all over America. Gendered Frames, Embodied Cameras Cybelle H. McFadden, 2014-05-29 *Gendered Frames Embodied Cameras* Varda, Akerman, Cabrera, Calle, and Ma: when is the first book to link these five filmmakers together through an analysis of the relationship between filming one's own body and the creative body. Through engaged artistic practices, these female filmmakers turn the camera to their bodies as a way to show the process of artistic creation and to produce themselves as filmmakers and artists in their work from 1987-2009. By making visible their bodies, they offer a wider range of representation of women in French film. Through avant-garde form in which tangible corporeal elements are made image, they transform representational content and produce new cinematic bodies with the power to influence signifying practices in contemporary French culture. By rendering visible their artistic practice and praxis and their camera in their work, reflexive practices that also unite these filmmakers, these women also visually claim the role of filmmaker and creative subject. Thus, they establish their authority in a film industry in which women's participation and recognition of their achievements have historically been lower than that of their male counterparts.
