A Corpus of Rembrandt Paintings VI Ernst van de Wetering, 2014-11-11 A revised survey of Rembrandt's complete painted oeuvre The question of which 17th century paintings in Rembrandt's style were actually painted by Rembrandt himself had already become an issue during his lifetime It is an issue that is still hotly disputed among art historians today The problem arose because Rembrandt had numerous pupils who learned the art of painting by imitating their master or by assisting him with his work as a portrait painter He also left pieces unfinished to be completed by others The question is how to determine which works were from Rembrandt's own hand Can we for example define the criteria of quality that would allow us to distinguish the master's work from that of his followers Do we yet have methods of investigation that would deliver objective evidence of authenticity To what extent do research techniques used in the physical sciences help Or are we after all still dependent on the subjective expert eye of the connoisseur The book provides answers to these questions Prof Ernst van de Wetering the author of our forthcoming book which deals with these questions has been closely involved in all aspects of this research since 1968 the year the renowned Rembrandt Research Project RRP was founded In particular he played an important role in developing new criteria for authentication Van de Wetering was also witness to the way the often overly zealous tendency to doubt the authenticity of Rembrandt's paintings got out of hand In this book he re attributes to the master a substantial number of unjustly rejected Rembrandts He also was closely involved in the re discovery of a considerable number of lost or completely unknown works by Rembrandt The verdicts of earlier specialists including the majority of members of the original RRP up to 1989 were based on connoisseurship the self confidence in one's ability to recognise a specific artist's style and hand Over the years Van de Wetering has carried out seminal research into 17th century studio practice and ideas about art current in Rembrandt's time In this book he demonstrates the fallibility of traditional connoisseurship especially in the case of Rembrandt who was par excellence a searching artist The methodological implications of this critical view are discussed in an introductory chapter which relates the history of the developments in this turbulent field of research Van de Wetering's account of his own involvement in it makes this book a lively and sometimes unexpectedly personal account The catalogue section presents a chronologically ordered survey of Rembrandt's entire painted oeuvre of 336 paintings richly illustrated and annotated For all the paintings re attributed in this

book extensive commentaries have been included that provide a multi faceted new insight into Rembrandt s world and the world of art historical research Rembrandt s Paintings Revisited is the concluding sixth volume of A Corpus of Rembrandt Paintings Volumes I V 1982 1986 1989 2005 2010 It can also be read as a revisionary critique of the first three Volumes published by the old RRP team up till 1989 and of Gerson s influential survey of Rembrandt s painted oeuvre of 1968 69 At the same time the book is designed as an independent overview that can be used on the basis that anyone seeking more detailed information will be referred to the five previous digital versions of the Volumes and the detailed catalogues published in the meantime by the various museums with collections of Rembrandt paintings This work of art history and art research should belong in the library of every serious art historical institute university or museum

Catalogues of Items for Auction by Messrs. Sotheby, Wilkinson & Hodge, 1850-1880 , Transfiguration Stephen Cheeke, 2016 Transfiguration explores the work of John Ruskin Robert Browning Dante Gabriel Rossetti and Walter Pater treating in particular the ways in which they engaged with the Christian content of their subject and in Pater s case how the art of Christianity was contrasted with classical sculpture Stephen Cheeke examines two related phenomena idolatry a false substitution a sexual betrayal and the poetics of transfiguration to elevate or glorify subject matter not thought of as conventionally poetic to praise Central to the book is the question of the translation of religion into art and aesthetics a process which supposedly undergirds the advent of the museum age and makes possible the idea of a religion of art as a phenomenon of late century Aestheticism Such a phenomenon is prepared for however through the engagement with Christian painting and classical sculpture in the work of these four writers All four thought carefully about the ways in which a particular mimetic impulse of making live in artworks could be connected to religious experience This meant exploring the nature of the link between seeing and believing visualising in order to conceive to verify but also in the sense of being acted upon by the visible All four wrote about the great power of artworks to transfigure the objects of their attention In each case there emerges the possibility of a secret sexual knowledge hiding within or lying on the other side of the sensuous knowledge of aesthesis All four wondered whether this was inherently hostile to Christianity or whether it may finally be an accommodation within it

Calvinism and the Arts Christopher Richard Joby, 2007 It is often thought that the French Reformer John Calvin 1509 1564 had a negative attitude towards the arts particularly visual art However in Calvinism and the Arts A Re assessment Dr Joby argues that in Calvin s writings and in the development of the Reformed tradition more generally it is possible to discern a more positive attitude than has hitherto been recognized He makes a start by examining exactly what type of visual art Calvin rejected and what type he affirmed He goes on to consider how Calvin s epistemology and eschatology can be used to argue for the placing of certain types of art notably histories and landscape paintings within Reformed churches and then devotes separate chapters to reflecting on how music architecture and church decoration within the Reformed tradition provide further arguments for the use of these works of art In the final section he looks at specific

histories and landscapes from the Dutch Golden Age and considers how the form and content of both of these types of art provide us with further ontological and epistemological arguments which inevitably lead to the conclusion that their continued exclusion from Reformed churches is no longer tenable Light as Experience and Imagination from Medieval to Modern Times David S. Herrstrom,2022-11-21 In Light as Experience and Imagination from Medieval to Modern Times David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual s relationship with light rather than the investigation of light s essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light s character No individual experience of light being truer than any other **The Story of Jesus, a Manual for Religious Instruction in the Intermediate Grades** Florence Buck,1917 The Century ,1893 **Going Abroad?** Robert Luce,1898 **Art Studies in the Life of Christ** Albert Edward Bailey,1917 *The Century Illustrated Monthly Magazine* ,1894 **Century Illustrated Monthly Magazine ...** ,1894 *The Children's Book of Celebrated Pictures* Lorinda Munson Bryant,2019-12-12 In *The Children s Book of Celebrated Pictures* Lorinda Munson Bryant masterfully presents a curated selection of classic art pieces transforming renowned paintings into a visual narrative designed for young readers This engaging volume utilizes a playful yet informative literary style combining vivid descriptions with imaginative storytelling that invites children to explore the emotional and historical significance behind celebrated artworks Set against the backdrop of an emerging interest in childhood education during the early 20th century Bryant s book serves not only as an introduction to art but also as a reflection of the broader cultural appreciation for fine arts in American society Lorinda Munson Bryant a notable figure in American children s literature drew from her extensive experience as an educator and her passion for the arts to create this unique work Her background in teaching inspired her to develop resources that fostered creativity and understanding among children bridging the gap between literature and visual art With her keen insight into child psychology Bryant aimed to nurture a generation s appreciation for beauty and expression through an accessible and engaging format This delightful book is highly recommended for parents educators and young art enthusiasts alike It not only enhances children s cultural literacy but also instills a sense of wonder and curiosity about the world of art *The Children s Book of Celebrated Pictures* is a timeless resource that encourages exploration and discussion making it an essential addition to any child s library The Children's Book of Celebrated Pictures Lorinda Bryant,2021-12-02 *The Children s Book of Celebrated Pictures* by Lorinda Munson Bryant Published by Good Press Good Press publishes a wide range of titles that encompasses every genre From well known classics literary fiction and non fiction to forgotten or yet undiscovered gems of world literature we issue the books that need
