Remember This Dakota Decolonization And The Eli Taylor Narratives:

Remember This! Angela Cavender Wilson, Eli Taylor, 2005-01-01 Situating Dakota language and oral tradition within the framework of decolonization Remember This Dakota Decolonization and the Eli Taylor Narratives makes a radical departure from other works in Indigenous history because it relies solely on Indigenous oral tradition for its primary sources and privileges Dakota language in the text Waziyatawin Angela Wilson both a historian and a member of the Dakota Nation demonstrates the value of oral history in this bilingual presentation and skillful analysis of the stories told by the Dakota elder Eli Taylor 1908-99 Taylor lived on the Sioux Valley Reserve in Manitoba Canada and was adopted into Wilson's family in 1988 He agreed to tell her his story and to share his accounts of the origins history and life ways of the Dakotas In these pages he tells of Dakota history the United States Dakota Conflict of 1862 Dakota values and the mysterious powers of the world Wilson gracefully contextualizes and complements Taylor's stories with a careful analysis and distillation of the narratives Additionally she provides an overview of Dakota history and a substantial critique of the use of oral accounts by mainstream historians By placing Dakota oral tradition within the academic discipline of history this powerful book illuminates the essential connections among Dakota language history and contemporary identity Waziyatawin Angela Wilson is an assistant professor of American Indian history at Arizona State University She is a coeditor of *Indigenizing the Academy: Transforming Scholarship and Empowering Communities* Wahpetunwin Carolyn Schommer is a well-known Dakota language speaker and teacher who taught for more than two decades in the Dakota language program at the University of Minnesota She has co-produced an extensive array of Dakota language curriculum materials and has served as a consultant on numerous language projects *Encounter on the Great Plains* Karen Hansen, 2013-11 When Scandinavian immigrants and Dakota Indians lived side by side on a turn-of-the-century reservation each struggled independently to preserve their language and culture Despite this shared struggle European settlers expanded their land ownership throughout the period while Native Americans were marginalized on the reservations intended for them Karen Hansen captures this moment through distinctive uniquely American voices *Surviving Wounded Knee* David W. Grua, 2016 A study of the massacre at Wounded Knee in history and memory *Indigenuity* Caroline Wigginton, 2022-10-06 For hundreds of years American artisanship and American authorship were entangled practices rather than distinct disciplines Books like other objects were multisensory items all North American communities and cultures including Native and settler colonial ones regularly made and used All cultures and communities narrated and documented their histories and imaginations through a variety of media All created objects for domestic sacred curative and collective purposes In this innovative work at the intersection of Indigenous studies literary studies book history and material culture studies Caroline Wigginton tells a story of the interweavings of Native craftwork and American literatures from their ancient roots to the present Focused primarily on North America especially the colonized lands and waters now claimed by the United States this book argues for the

foundational but often hidden aesthetic orientation of American literary history toward Native craftwork Wigginton knits this narrative to another of Indigenous aesthetic repatriation through the making and using of books and works of material expression Ultimately she reveals that Native craftwork is by turns the warp and weft of American literature interwoven throughout its long history

Welcome to the Oglala Nation Akim D. Reinhardt, 2015-09-01 Popular culture largely perceives the tragedy at Wounded Knee in 1890 as the end of Native American resistance in the West and for many years historians viewed this event as the end of Indian history altogether The Dawes Act of 1887 and the reservation system dramatically changed daily life and political dynamics particularly for the Oglala Lakotas As Akim D Reinhardt demonstrates in this volume however the twentieth century continued to be politically dynamic Even today as life continues for the Oglalas on the Pine Ridge Reservation in southwestern South Dakota politics remain an integral component of the Lakota past and future Reinhardt charts the political history of the Oglala Lakota people from the fifteenth century to the present with this edited collection of primary documents a historical narrative and a contemporary bibliographic essay Throughout the twentieth century residents on Pine Ridge and other reservations confronted resisted and adapted to the continuing effects of U S colonialism During the modern reservation era reservation councils grassroots and national political movements courtroom victories and losses and cultural battles have shaped indigenous populations Both a documentary reader and a Lakota history Welcome to the Oglala Nation is an indispensable volume on Lakota politics

California through Native Eyes William J. Bauer, Jr., Jr., 2016-06-01 Bauer tells California history strictly through Native perspectives Most California histories begin with the arrival of the Spanish missionaries in the late eighteenth century and conveniently skip to the Gold Rush of 1849 Noticeably absent from these stories are the perspectives and experiences of the people who lived on the land long before European settlers arrived Historian William Bauer seeks to correct that oversight through an innovative approach that tells California history strictly through Native perspectives Using oral histories of Concow Pomo and Paiute workers taken as part of a New Deal federal works project Bauer reveals how Native peoples have experienced and interpreted the history of the land we now call California Combining these oral histories with creation myths and other oral traditions he demonstrates the importance of sacred landscapes and animals and other nonhuman actors to the formation of place and identity He also

examines tribal stories of ancestors who prophesied the coming of white settlers and uses their recollections of the California Indian Wars to push back against popular narratives that seek to downplay Native resistance. The result both challenges the California story and enriches it with new voices and important points of view serving as a model for understanding Native historical perspectives in other regions. *The Political Arrays of American Indian Literary History* James H. Cox, 2019-09-17

Bringing fresh insight to a century of writing by Native Americans, *The Political Arrays of American Indian Literary History* challenges conventional views of the past one hundred years of Native American writing, bringing Native American Renaissance and post-Renaissance writers into conversation with their predecessors. Addressing the political positions such writers have adopted, explored, and debated in their work, James H. Cox counters what he considers a flattening of the politics of American Indian literary expression and sets forth a new method of reading Native literature in a vexingly politicized context. Examining both canonical and lesser-known writers, Cox proposes that scholars approach these texts as political arrays, confounding but also generative collisions of conservative, moderate, and progressive ideas that together constitute the rich political landscape of American Indian literary history. Reviewing a broad range of genres including journalism, short fiction, drama, screenplays, personal letters, and detective fiction by Lynn Riggs, Will Rogers, Sherman Alexie, Thomas King, Leslie Marmon Silko, Louise Erdrich, Winona LaDuke, Carole LaFavor, and N. Scott Momaday, he demonstrates that Native texts resist efforts to be read as advocating a particular set of politics. Meticulously researched, *The Political Arrays of American Indian Literary History* represents a compelling case for reconceptualizing the Native American Renaissance as a literary historical constellation. By focusing on post-1968 Native writers and texts, argues Cox, critics have often missed how earlier writers were similarly entangled, hopeful, frustrated, contradictory, and unpredictable in their political engagements.

Creating the Third Force Maureen P. Flaherty, Hamdesa Tusso, 2016-11-21

The profession of peacemaking has been practiced by indigenous communities around the world for many centuries; however, the ethnocentric world view of the West, which dominated the world of ideas for the last five centuries, dismissed indigenous forms of peacemaking as irrelevant and backward tribal rituals. Neither did indigenous forms of peacemaking fit the conception of modernization and development of the new ruling elites who inherited the postcolonial state. The new profession of Alternative Dispute Resolution (ADR), which emerged in the West as a new profession during the 1970s, neglected the tradition and practice of indigenous forms of peacemaking. The scant literature which has appeared on this critical subject tends to focus on the ritual aspect of the indigenous practices of peacemaking. The goal of this book is to fill this lacuna in scholarship. More specifically, this work focuses on the process of peacemaking, exploring the major steps of the process of peacemaking which the peacemakers follow in dislodging antagonists from the stage of hostile confrontation to peaceful resolution of disputes and eventual reconciliation. The book commences with a critique of ADR for neglecting indigenous processes of peacemaking and then utilizes case studies from different communities around the world to focus on the following major themes: the basic structure of

peacemaking process change and continuity in the traditions of peacemaking the role of indigenous women in peacemaking the nature of the tools peacemakers deploy common features found in indigenous processes of peacemaking and the overarching goals of peacemaking activities in indigenous communities *Spaces Between Us* Scott Lauria

Indigenizing the Academy Devon Abbott Mihesuah, Angela Cavender Wilson, 2004-01-01 Native American scholars reflect on issues related to academic study by students drawn from the indigenous peoples of America Topics range from problems of racism and ethnic fraud in academic hiring to how indigenous values and perspectives can be integrated into research methodologies and interpretive theories
