Brian Norman, 2012-11-15 Brian Norman uncovers a curious phenomenon in American literature: dead women who nonetheless talk. These characters appear in works by such classic American writers as Poe, Dickinson, and Faulkner, as well as in more recent works by Alice Walker, Toni Morrison, Tony Kushner, and others. These figures are also emerging in contemporary culture from the film and best-selling novel *The Lovely Bones* to the hit television drama *Desperate Housewives*. *Dead Women Talking* demonstrates that the dead, especially women, have been speaking out in American literature since well before it was fashionable. Norman argues that they voice concerns that a community may wish to consign to the past, raising questions about gender, violence, sexuality, class, racial injustice, and national identity. When these women insert themselves into the story, they do not enter precisely as ghosts but rather as something potentially more disrupting: posthumous citizens. The community must ask itself whether it can or should recognize such a character as one of its own. The prospect of posthumous citizenship bears important implications for debates over the legal rights of the dead, social histories of burial customs and famous cadavers, and the political theory of citizenship and social death. Leonard Cassuto, author of *Hard Boiled Sentimentality: The Secret History of American Crime Stories*. **Making home** Maria Holmgren Troy, Elizabeth Kella, Helena Wahlstrom, 2016-05-16 *Making home* explores the figure of the orphan child in a broad selection of contemporary US novels by popular and critically acclaimed authors: Barbara Kingsolver, Linda Hogan, Leslie Marmon Silko, Marilynne Robinson, Michael Cunningham, Jonathan Safran Foer, John Irving, Kaye Gibbons, Octavia Butler, Jewelle Gomez, and Toni Morrison. The orphan child is a continuous presence in US literature, not only in children's books and nineteenth-century texts but also in a variety of genres of contemporary fiction for adults. *Making home* examines the meanings of this figure in the contexts of American literary history, social history, and ideologies of family, race, and nation. It argues that contemporary orphan characters function as links to literary history and national mythologies, even as they may also serve to critique the limits of literary history as well as the limits of familial and national belonging. **The Psychic Hold of Slavery** Soyica Diggs Colbert, Robert J. Patterson, Aida Levy-Hussen, 2016-07-20 What would it mean to get over slavery? Is such a thing possible? Is it even desirable? Should we perceive the psychic hold of slavery as a set of mental manacles that hold us back from imagining a post-racist America? Or could the psychic hold of slavery be understood as a tool helping us get a grip on the systemic racial inequalities and restricted liberties that persist in the present day? Featuring original essays from an array of established and emerging scholars in the interdisciplinary field of African American studies, *The Psychic Hold of Slavery* offers a nuanced dialogue upon these questions. With a painful awareness that our understanding of the past informs our understanding of the present, and vice versa, the contributors place slavery's historical legacies in conversation with twenty-first-century manifestations of anti-black violence, dehumanization, and social death. Through an exploration of film, drama, fiction, performance art, graphic novels, and philosophical discourse, this volume considers how artists grapple with questions of representation as they ask whether slavery can ever be accurately depicted, trace the scars that slavery has left on a

traumatized body politic or debate how to best convey that black lives matter The *Psychic Hold of Slavery* thus raises provocative questions about how we behold the historically distinct event of African diasporic enslavement and how we might hold off the transhistorical force of antiblack domination *Critical Essays on John Edgar Wideman* Bonnie TuSmith, Keith Eldon Byerman, 2006 This volume is an indispensable study of Wideman's oeuvre covering the full range of his career by addressing the key features of his fiction and nonfiction from 1967 to the present The essays in this book reflect the most advanced thinking on Wideman's prolific extraordinary art The collection features at least one article on each major work and includes the voices of both well established and emerging scholars Though their critical perspectives are diverse the contributors place Wideman squarely at the center of contemporary African American literature as an exemplar of postmodern approaches to literary art Several position Wideman within the context of his predecessors Wright Baldwin Ellison and within a larger cultural context of music and collective history The essays examine Wideman's complex style and his blending of African and Western cosmologies and aesthetics the use of personal narrative and his imaginative revisioning of forgotten historical events These insightful analyses cover virtually every stage of Wideman's career and every genre in which he has written A detailed bibliography of Wideman's work is also included From Amazon.co.uk

**Democracy's Literature** Patrick J. Deneen, Joseph Romance, 2005-07-28 American literature is profoundly almost inescapably political America's most thoughtful authors long ago realized that it was through the novel the novella and the story that philosophic education of America's citizens would best be undertaken In this fascinating new anthology of original essays ten leading scholars explore the ways in which American civic education has been informally advanced through literature Delving into the works of authors ranging from Mark Twain to William Faulkner to Octavia Butler these essays reflect on the close relationship between democracy and literature They convey an understanding that the greatest American literary works are also works of profound philosophical insight Through careful analysis *Democracy's Literature* illustrates that democracy and literature are natural partners forging a relationship that America's greatest authors have long realized in their subtle efforts to craft a democratic public philosophy *The Cambridge Companion to the African American Novel* Maryemma Graham, 2004-04-15 The *Cambridge Companion to the African American Novel* presents new essays covering the one hundred and fifty year history of the African American novel Experts in the field from the US and Europe address some of the major issues in the genre passing the Protest novel the Blues novel and womanism among others The essays are full of fresh insights for students into the symbolic aesthetic and political function of canonical and non canonical fiction Chapters examine works by Ralph Ellison Leon Forrest Toni Morrison Ishmael Reed Alice Walker John Edgar Wideman and many others They reflect a range of critical methods intended to prompt new and experienced readers to consider the African American novel as a cultural and literary act of extraordinary significance This volume including a chronology and guide to further reading is an important resource for students and teachers alike *Twentieth-Century Sentimentalism* Jennifer A.

Williamson,2013-12-15 Today's critical establishment assumes that sentimentalism is an eighteenth and nineteenth century literary mode that all but disappeared by the twentieth century In this book Jennifer Williamson argues that sentimentalism is alive and well in the modern era By examining working class literature that adopts the rhetoric of feeling right in order to promote a proletarian or humanist ideology as well as neo slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families she explores the ways contemporary authors engage with familiar sentimental clichés and ideals Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices considering the proletarian novels of Grace Lumpkin Josephine Johnson and John Steinbeck alongside neo slave narratives written by Margaret Walker Octavia Butler and Toni Morrison Through careful close readings Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo slave novels under discussion She contrasts appropriations that facilitate such cultural work with those that do not including Kathryn Stockett's novel and film *The Help* The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege Sentimentalism is not only alive in the twentieth century It is a flourishing rhetorical practice among a range of twentieth century authors who use sentimental tactics in order to appeal to their readers about a range of social justice issues This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation

*Haunting Capital* Hershini Bhana Young,2006 In *Haunting Capital* Hershini Young sets out to re theorize the African diaspora so that the concept becomes unintelligible without an understanding of gender as a constitutive element Young uses the historically injured bodies of black women as represented in novels by black women to talk about colonialism gender race memory and haunting *Haunting Capital* departs from traditional trauma studies which stress individual wounding and psychotherapeutic models Instead Young explores the notion of injury as a collective wounding resulting from the trauma of capitalistic regimes such as slavery and colonialism She also introduces the idea of the ghost to her discussion of collective injury where it functions not only on theoretical and metaphorical levels but also by invoking African cosmologies in which ghosts are ancestral beings with a real spiritual presence More specifically Young insists on the contemporary reality of African nations and eschews the presentation of Africa as a vague undifferentiated point of origin that characterizes many other studies of the African diaspora Her reading of African contemporary novels by women alongside African American and Caribbean novels works to show the African diaspora as haunted by similar though different issues of gendered and racialized violence

**Bridges to Memory** Maria Rice Bellamy,2015-12-04 Tracing the development of a new genre in contemporary American literature that was engendered in the civil rights feminist and ethnic empowerment struggles of the 1960s and 1970s *Bridges to Memory* shows how these movements authorized African American and ethnic American women writers to reimagine the traumatic histories that form their ancestral inheritance and define their contemporary identities

Drawing on the concept of postmemory a paradigm developed to describe the relationship that children of Holocaust survivors have to their parents traumatic experiences Maria Bellamy examines narrative representations of this inherited form of trauma in the work of contemporary African American and ethnic American women writers Focusing on Gayl Jones's *Corregidora* Octavia Butler's *Kindred* Phyllis Alesia Perry's *Stigmata* Cristina Garc'a's *Dreaming in Cuban* Nora Okja Keller's *Comfort Woman* and Edwidge Danticat's *The Dew Breaker* Bellamy shows how cultural context determines the ways in which traumatic history is remembered and transmitted to future generations Taken together these narratives of postmemory manifest the haunting presence of the past in the present and constitute an archive of textual witness and global relevance that builds cross cultural understanding and ethical engagement with the suffering of others

**Monuments of the Black Atlantic** Joanne M. Braxton, 2004 With Aldon Nielson the editors of this volume agree that the middle passage may be the great repressed signifier of American historical consciousness The essays collected here illustrate that the repressed memory of crossing lives not only in the academy in oral traditions and in the stone walls of slave fortresses but in the liturgy as well as the spiritual and religious practices throughout the African Diaspora Descendants of African slaves living in the wide Diaspora are bearers of an unforgetful strength that endures and endures manifesting itself in every aspect of culture Black writers artists and musicians in the New World have tested the limits of cultural memory finding in it the inspiration to speak the unspeakable

**Worrying the Line** Cheryl A. Wall, 2005 In blues music worrying the line is the technique of breaking up a phrase by changing pitch adding a shout or repeating words in order to emphasize clarify or subvert a moment in a song Cheryl A Wall applies this term to fiction and nonfiction wr
