Joe Tom's Gift Jerry Alexander,2021-10-18 Who among us hasn t spent hours allowing our minds to fantasize that we have won the lottery or in some way suddenly become wealthy beyond our dreams We appease and excuse ourselves by planning how we would share with our family and somehow make the lives of countless needy people so much better by handing them wads of cash As our daydream finally resolves into reality we know it was just a dream having no basis in the real world However what if we allow our mind to consider for a moment that God who we would agree can do whatever he desires might find an unworthy but available person to receive a gift that would surpass most of us daydreamers wildest imagination This book follows the receiver of the Gift as he is forced to leave his birth home in East Texas with a bullet hole in his side and follows him through many terrible troubles and heartaches including a stint with the U S Marines in Viet Nam that costs him a foot However as he begins to exercise the Gift he transforms from a starving young man eating from garbage cans to the richest man on the planet He faces multiple hardships and abuse and faces his personal fears In the end he overcomes all that and learns to use his wealth to benefit others

The Speed of Perception Tom B. Bacon, 2002-07-17 Until now man s division of the atom so quick and barely detectable has lacked true purpose to create as we were created The frequency of human thought was simply too slow But after the splitting of matter the technology to split time must naturally follow The frequency of human thought is but a singular point between infinite ends With the proper technology one human mind can incorporate others and reside in a thousand skulls Geniuses in every discipline can be subordinated to a single common mind one man thinking and living through others Each man s entirety can be learned his soul probed and upon death the mental sequences that return him to his eternal origins decoded Thus can a host of souls be stolen and stored for the right moment Driven by a high speed processor the frequency of human thought can be altered Its bandwidth can be expanded deepened and accelerated until it takes the form of a white light of consciousness that only gods own From such reference points matter begins to slow its spinning And when the atom is next divided one man can inject his host of souls watch in slow motion and be lord of a new creation Unless of course he can be stopped
