Nationalism and the Israeli State Don Handelman,2020-06-11 National festivals Military parades Patriotic memorials Such public events and tributes naturally bring to mind the idea of nationalism But what is the cultural logic behind them How does a country such as Israel facilitate state related public events as enactments of nationalism To answer these questions renowned anthropologist Don Handelman unpacks the meaning of national ritual and symbol in Israel today He argues that public events mirror social order a mirror that reflects to its participants and audiences the message that the designers of such events wish to communicate Handelman considers the meaning of Holocaust and military memorialism and he investigates the role of holiday celebrations especially how they affect young children first learning about their country Analyzing state ceremonies such as Holocaust Remembrance Day for the war dead and Independence Day he notes the absence of minorities and examines their significance in the promotion of a national identity He also looks at how Israel exports powerful symbols of statehood Throughout Handelman develops his theory of bureaucratic logic as the driving force behind expressions of nationalism in the modern state He argues that bureaucratic logic has a much wider cachet than

simply functioning as a way of thinking only about bureaucratic institutions The logic is crucial to how these institutions function but more so it is a dominant force in forming modern state social order Bureaucratic logic is used incessantly to invent and to modify all kinds of systems of classification that often have profound consequences for individuals and for groups and that are ritualized powerfully through a host of state related public events [How I Celebrate](#) Pam Robson,2001-01-01 Describes the holidays and festivals of different faiths cultures and nations around the world
