A Reader's Companion to Augustine's Confessions Kim Paffenroth, Robert Peter Kennedy, 2003-01-01 This book is a tool for teaching and studying the great Christian classic Augustine's Confessions It is a unique venture in which thirteen different scholars look at each of the thirteen books in the Confessions and interpret their chapters in light of that book and in light of the rest of Augustine's work The result is that the richness and ambiguity of Augustine's work shines through as well as the richness and ambiguity of different readings of the Confessions

*Parting Knowledge* James Wetzel, 2013-08-08 There are forms of knowing that seem either to come from a parting or to require one Paradigmatically in Genesis Adam parts from God in order to join in knowledge with his partner the flesh of his flesh and the result is a bereft but not unpromising knowledge looking like a labor of love Saint Augustine famously some would say infamously reads the Genesis paradigm of knowing as a story of original sin where parting is both

damnable and disfiguring and reuniting a matter of incomprehensible grace Roughly half the essays in this collection engage directly with Augustine's theological animus and follow his thinking into self division perversity of will grief conversion and the aspiration for transcendence The remaining ones more concerned with grace than with sin bring an animus more distantly Augustinian to the preemption of forgiveness and the persistence of hell morality and its limits sexual piety strange beauty and a philosophy that takes in confession The common pull of all the essays is towards the imperfection in self knowledge a place of disfigurement perhaps but also a nod to transformation      **Memoirs of a Space Traveller** Stanisław Lem, 1991      The Theology of Christ, from His Own Words Joseph Parrish Thompson, 1870
