Renaissance Man:

Renaissance Man (video), 1994 **Renaissance Man** Ágnes Heller, 2015-07-03 Considering such witnesses of the time as Shakespeare Dante Petrarch Michelangelo Machiavelli Montaigne More and Bacon Agnes Heller looks at both the concept and the image of a Renaissance man The concept was generalised and accepted by all its characteristic features were man as a dynamic being creating and re creating himself throughout his life The images of man however were very different having been formed through the ideas and imagination of artists politicians philosophers scientists and theologians and viewed from the different aspects of work love fate death friendship devotion and the concepts of space and time Renaissance Man thus stood as both as a leading protagonist of his time one who led and formulated the substantial attitudes of his time and as one who stood as a witness on the sidelines of the discussion This book first published in English in 1978 is based on the diverse but equally important sources of autobiographies works of art and literature and the writings of philosophers Although she uses Florence as a starting point Agnes Heller points out that the Renaissance was a social and cultural phenomenon common to all of Western Europe her Renaissance Man is thus a figure to be found throughout Europe **Leonardo Da Vinci** Rachel A. book focuses on the work of the Hungarian philosopher Agnes Heller prominent member of the Budapest School a group of students who studied under the Marxist social theorist György Lukács For both Marx and Heller albeit in different ways dissatisfaction emerges as the inevitable result of the expansion of needs within modernity and as a catalyst for the development of anthropological wealth what Marx refers to as the human being rich in need Ward argues that dissatisfaction and the corresponding category of human wealth as both motif and method is central to grasping Heller's seemingly disparate writings While Marx postulates a radical overcoming of dissatisfaction Heller argues dissatisfaction is integral not only to the ongoing survival of modernity but also to the dynamics of both freedom and individual life In this way Heller's work remains committed to a position that both continually returns and departs is both with and against the philosophy of Marx This book will be of interest to scholars of political philosophy social theory critical theory and sociology **Christian**

Education: Its History and Philosophy Kenneth O. Gangel,Warren S. Benson,2002-03-05 A history of Christian education must not be confused with a record of the achievements of the Sunday School The discipline has advanced well beyond that stage and today's sophisticated students fully understand that no proper concept of the history and philosophy of Christian education can be gained without seeing all the ramifications implications and influences that have affected it from pre-Christian times to the present So Drs Gangel and Benson have written this book a historical flow of philosophical thought from a Christian point of view Its focus is cultural biographical discussing each philosophy in its particular socio-historical setting and giving special attention to significant individuals The format is chronological beginning with education in biblical times working upward through history to arrive at the present and beyond raising questions and issues for the future
