Renaissance Discovering The Past:

Ancient Models in the Early Modern Republican Imagination ,2017-10-02 Ancient Models in the Early Modern Republican Imagination edited by Wyger Velema and Arthur Weststeijn approaches the early modern republican political imagination from a fresh perspective While most scholars agree on the importance of the classical world to early modern republican theorists its role is all too often described in rather abstract and general terms such as classical republicanism or the neo roman theory of free states The contributions to this volume propose a different approach and all focus on the specific ways in which ancient republics such as Rome Athens Sparta and the Hebrew Republic served as models for early modern republican thought The result is a novel interpretation of the impact of antiquity on early modern republicanism

The War Against the Past Frank Furedi,2024-08-20 A war is being waged against the Past Whether it s toppling statues decolonising the curriculum or erasing terms from our vocabulary a cultural crusade is underway designed to render the past toxic It is condemned as enemy territory and has become the target of venomous hate What is at stake in provoking such a strong sense of societal shame towards Western history In this book Frank Furedi mounts a fierce defence of the past and calls for a fight back against the delegitimization of its ideals and accomplishments Casting the past as a story of shame has become a taken for granted outlook permeating the educational and cultural life of western society from the top down Its advocates may see it as a cultural imperative but a society that loses touch with its past will face a permanent crisis of identity Squandering the wisdom provided by our historical inheritance means betraying humanity s positive achievements Challenging this great betrayal Furedi argues is one of the most important battles of our time *Medieval Literature* Holly Crocker,D. Vance Smith,2023-05-31 Medieval Literature Criticism and Debates combines classic critical essays alongside new voices and approaches highlighting vibrant debates on medieval literature that will continue to shape critical conversations for the coming decades Holly A Crocker and D Vance Smith present a fascinating collection of essays from leading contemporary scholars of medieval literature and culture examining topics including gender sexuality politics belief language nationhood science and desire The volume sheds light on critical discussions of the medieval period and shows the continuing relevance and vivacity of Medieval English literature in the twenty first century Each section is thoroughly introduced and the essays develop various debates in key areas providing a springboard for readers to establish their own study arguments and opinions Further reading sections make this volume an accessible and important resource for those studying literature from the Medieval period and beyond Contributors Anthony Bale Sarah Beckwith Anke Bernau Glenn Burger Ardis Butterfield Christopher Cannon Christine Chism Lisa H Cooper Susan Crane Holly A Crocker George Edmondson Ruth Evans Sylvia Federico Laurie Finke Aranye Fradenburg Frank Grady Richard Firth Green Patricia Clare Ingham Hannah Johnson Steven Justice David Lawton Robert Mills J Allan Mitchell Nicholas Perkins Tison Pugh Elizabeth Robertson Kellie Robertson Jessica Rosenfeld Sarah Salih Corinne Saunders Martin Shichtman D Vance Smith Emily Steiner

Jennifer Summit Stephanie Trigg Marion Turner David Wallace Angela Jane Weisl Nicolette Zeeman Discovering Religious History in the Modern Age Hans Kippenberg, 2002-03-03 Kippenberg is a fine scholar of real integrity His book is a readable and practical introduction to the rise of the study of religion and culture in Europe as well as an intriguing piece of cultural theorizing It is serious without being pompous intelligent without being at all impenetrable and fresh without being strange Ivan Strenski University of California Riverside **The Invention of Discovery, 1500-1700** Dr James Dougal Fleming, 2013-05-28 The early modern period used to be known as the Age of Discovery More recently it has been troped as an age of invention But was the invention/discovery binary itself invented or discovered This volume investigates the possibility that it was invented through a range of early modern knowledge practices centered on the emergence of modern natural science From Bacon to Galileo from stagecraft to math from martyrology to romance contributors to this interdisciplinary collection examine the period's generation of discovery as an absolute and ostensibly neutral standard of knowledge production They further investigate the hermeneutic implications for the epistemological authority that tends in modernity still to be based on that standard The Invention of Discovery 1500-1700 is a set of attempts to think back behind discovery considered as a decisive trope for modern knowledge *Multiple Antiquities - Multiple Modernities* Gábor Klaniczay, Michael Werner, Otto Gécser, 2011-09-12 Im 19. Jahrhundert war die Antike eine wichtige Bezugsgreife in vielen europäischen Ländern Dabei gab es Unterschiede in der Sicht und Aneignung der griechischen römischen und auch archaischen Antike Im Sinne einer Histoire croisée zeigt der Band wie jede Nation ihre eigene Antike schuf European Images of the Americas and the Classical Tradition Wolfgang Haase, Reinhold Meyer, 2011-08-02 No detailed description available for European Images of the Americas and the Classical Tradition **Antiquarianisms** Benjamin Anderson, Felipe Rojas, 2017-05-31 Antiquarianism and collecting have been associated intimately with European imperial and colonial enterprises although both existed long before the early modern period and both were and continue to be practiced in places other than Europe Scholars have made significant progress in the documentation and analysis of indigenous antiquarian traditions but the clear-cut distinction between indigenous and colonial archaeologies has obscured the intense and dynamic interaction between these seemingly different endeavours This book concerns the divide between local and foreign antiquarianisms focusing on case studies drawn primarily from the Mediterranean and the Americas Both regions host robust pre-modern antiquarian traditions that have continued to develop during periods of colonialism In both regions moreover colonial encounters have been mediated by the antiquarian practices and preferences of European elites The two regions also exhibit salient differences For example Europeans claimed the antiquities of the eastern Mediterranean as part of their own classical heritage whereas they perceived those of the Americas as essentially alien even as they attempted to understand them by analogy to the classical world These basic points of comparison and contrast provide a framework for conjoint analysis of the emergence of hybrid or cross-bred antiquarianisms Rather than assuming that interest in antiquity is

a human universal this book explores the circumstances under which the past itself is produced and transformed through encounters between antiquarian traditions over common objects of interpretation **Companion Encyclopedia of Archaeology** Graeme Barker, 2002-08-13 This comprehensive fully illustrated Companion answers the need for an in depth archaeology reference that provides authoritative coverage of this complex and interdisciplinary field The work brings together the myriad strands and the great temporal and spatial breadth of the field into two thematically organized volumes In twenty six authoritative and clearly written essays this Companion explores the origins aims methods and problems of archaeology Each essay is written by a scholar of international standing and illustrations complement the text

Scott Dixon, 2016-03-24 The years 1450 1650 were a momentous period for the development of Christianity They witnessed the age of Reformation and Counter Reformation perhaps the most important era for the shaping of the faith since its foundation C Scott Dixon explores how the ideas that went into the making of early modern Christianity re oriented the Church to such an extent that they gave rise to new versions of the religion He shows how the varieties and ambivalences of late medieval theology were now replaced by dogmatic certainties where the institutions of Christian churches became more effective and modern staffed by well trained clergy Tracing these changes from the fall of Constantinople to the end of the Thirty Years War and treating the High Renaissance and the Reformation as part of the same overall narrative the author offers an integrated approach to widely different national social and cultural histories Moving beyond Protestant and Catholic conflicts he contrasts Western Christianity with Eastern Orthodoxy and examines the Church s response to fears of Ottoman domination **Leadership and Discovery** G.
