Roman voice in public life Through a detailed study of how civic authorities derived their sense of legitimacy and how lay subjects maneuvered in informal and disguised ways to block or criticize the papal regime the author advances a new way of conceiving politics under an absolute ruler As Nussdorfer analyzes the complex interactions between the lay administration and Urban VIII and his family the papal administration and Romans of the upper and lower classes she also provides fresh insights into the actual practice of early modern government She takes the plague threat of the early 1630s the War of Castro 1641 1644 and the interregnum following the pope's death as important test cases of the state's power in times of crisis Laurie Nussdorfer is Assistant Professor of History and Letters at Wesleyan University Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Sebastiano del Piombo and the World of Spanish Rome Piers Baker-Bates, 2017-07-05 Sebastiano del Piombo c 1485-1547 was a close associate and rival of the central artistic figures of the High Renaissance notably Michelangelo and Raphael. After the death of Raphael and the departure of Michelangelo from Rome, Sebastiano became the dominant artistic personality in the city. Despite being one of the most significant artistic figures of the period, he remains the last artist of major importance in the western canon about whom no recent work has been published in English. In this study, Piers Baker-Bates approaches Sebastiano's career through analysis of the patrons he attracted following his arrival at Rome. The first half of the book concentrates on Sebastiano's network of patrons, predominantly Italian, who had strong factional ties to the Imperial camp; the second half discusses Sebastiano's relationship with his principal Spanish patrons. Sebastiano is a leading example of a transcultural artist in the sixteenth century, and his relationship with Spain was fundamental to the development of his career. The author investigates the domination of Sebastiano's career by patrons who had geographically different origins but who were all members of a wider network of Imperial loyalties. Thus, Baker-Bates removes Sebastiano from the shadow of his contemporaries, bringing him to life for the reader as an artistic personality in his own right. Baker-Bates' characterization of the Rome in which Sebastiano made his career differs from previous scholarly accounts, and he describes how Sebastiano was ideally suited to flourish in the environment he depicts. **Sebastiano del Piombo and the World of Spanish Rome** thus re-appraises not only Sebastiano's place in the canon of Renaissance art but, using him as a lens, also the cultural worlds of Early Modern Italy and Spain in which he operated.

The Renaissance in Rome Charles L. Stinger, 1998. From the middle of the fifteenth century, a distinctively Roman Renaissance occurred. A shared outlook, a persistent set of intellectual concerns, similar cultural assumptions, and a commitment to common ideological aims bound Roman humanists and artists to a uniquely Roman world, different from Florence, Venice, and other Italian and European centers. This book provides the first comprehensive portrait of the Roman Renaissance world. Charles Stinger probes the basic attitudes, the underlying values, and the core convictions that Rome's intellectuals and artists experienced, lived for, and believed in, from Pope Eugenius IV's reign to the Eternal City in 1443 to the sacking of 1527. He demonstrates that the Roman Renaissance was not the creation of one towering intellectual leader or of a single identifiable group; rather, it embodied the aspirations of dozens of figures active over an eighty-year period. Stinger illuminates the general aims and character of the Roman Renaissance. Remaining mindful of the economic, social, and political context, Rome's retarded economic growth, the papacy's increasing entanglement in Italian politics, papal preoccupation with the crusade against the Ottomans, and the effects of papal fiscal and administrative practices, Stinger nevertheless maintains that these developments recede in importance before the cultural history of the period. Only in the context of the ideological and cultural commitments of Roman humanists, artists, and architects can one fully understand the motivation for papal policies. Reality for Renaissance Romans was intricately bound up with the notion of Rome's mythic destiny. **The Renaissance in Rome** is cultural history at its best. It evokes the moods, myths, images, and symbols

of the Eternal City as they are manifested in the Liturgy ceremony festivals oratory art and architecture of Renaissance Rome Throughout Stinger focuses on a persistent constellation of fundamental themes the image of the city of Rome the restoration of the Roman Church the renewal of the Roman Empire and the fullness of time He describes and analyzes the content meaning origin and implications of these central ideas of Roman Renaissance This book will prove interesting to both Renaissance and Reformation scholars as well as to general readers who may have visited or plan to visit Rome and have become fascinated and affected by this extraordinary city There is no other book like it in any language says Renaissance historian John O Malley It presents a coherent view of Roman culture collects and presents a vast amount of information never before housed under one roof Anyone who teaches the Italian Renaissance O Malley stresses will have to know this book

Electing the Pope in Early Modern Italy, 1450-1700 Miles Pattenden, 2017-07-14 Electing the Pope in Early Modern Italy 1450 1700 offers a radical reassessment of the history of early modern papacy constructed through the first major analytical treatment of papal elections in English Papal elections with their ceremonial pomp and high drama are compelling theatre but until now no one has analysed them on the basis of the problems they created for cardinals how were they to agree rules and enforce them How should they manage the interregnum How did they decide for whom to vote How was the new pope to assert himself over a group of men who until just moments before had been his equals and peers This study traces how the cardinals responses to these problems evolved over the period from Martin V's return to Rome in 1420 to Pius VI's departure from it in 1798 placing them in the context of the papacy's wider institutional developments Miles Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision making and problem solving within an elite political group renovatio urbis Nicholas Temple, 2011-04-25
