Euro American readers In this innovative analysis Michael Gaudio explains how popular engravings of Native American Indians defined the nature of Western civilization by producing an image of its savage other Going beyond the notion of the savage as an intellectual and ideological construct Gaudio examines how the tools materials and techniques of copperplate engraving shaped Western responses to indigenous peoples Engraving the Savage demonstrates that the early visual critics of the engravings attempted without complete success to open a comfortable space between their own civil image making practices and the savage practices of Native Americans such as tattooing bodily ornamentation picture writing and idol worship The real significance of these ethnographic engravings he contends lies in the traces they leave of a struggle to create meaning from the image of the American Indian The visual culture of engraving and what it shows Gaudio reasons is critical to grasping how America was first understood in the European imagination His interpretations of de Bry's engravings describe a deeply ambivalent pictorial space in between civil and savage a space in which these two organizing concepts of Western culture are revealed in their making Michael Gaudio is assistant professor of art history at the University of Minnesota *Building*, 1915 *The Builder*, 1876 *The Publisher*, 1901 *The New York Times Index*, 1914 *The Publishers' Circular and Booksellers' Record*, 1929 **Ordinance Gazetteer of Scotland** Francis Hindes Groome, 1901
