The Judgment of Palaemon Philip Ford, 2013 In Virgil s third Eclogue Palaemon concludes the poetry competition between Menalcas and Damoetas by saying that he cannot choose between them a judgment that is emblematic of the contest between Neo Latin and vernacular poetry in Renaissance France Both forms of poetry draw on similar roots both are equally accomplished and the contest between them is largely amicable The Judgment of Palaement illustrates the almost symbiotic relationship between Renaissance Latin and French poetry while exploring poets motivation for choosing one language over another the different challenges each form of writing involved and the extent of the collaboration between different language communities It focuses on some of the major writers of the period as well as less known ones and on genres specific to humanist poetry It shows that composing in Latin was often considered more natural than writing in the vernacular at a time when many Frenchmen s mother tongue was a non standard French dialect or distinct language Book jacket

Neo-Latin Poetry in the British Isles , 2013-03-14 Investigation of the Latin poetry produced by British poets from the sixteenth century onwards affords an indispensable insight into a dominant strand in the intellectual cultural and educational life of the British Isles during this period At this time the composition of Latin poetry was a regular feature of school curricula and a popular leisure time activity of the educated elite Such examination also sheds light on the poetic principles and practice of major British poets such as Campion Cowley Herbert and Milton who penned a large quantity of neo Latin verse in addition to their better known vernacular works

The Latin Poetry

of English Poets (Routledge Revivals) J. Binns, 2014-02-04 Thomas Campion Milton Crashaw Herbert Bourne Walter Savage Landor all these poets between them spanning the period from the Elizabethan to the Victorian age wrote a substantial body of Latin verse in addition to their better known English poetry representing part of the vast and almost unexplored body of Neo Latin literature which appealed to an international reading public throughout Europe The Latin poetry of these English poets is of particular interest when it is set against the background of their writings in their own tongue this collection examines the extent to which our judgment of a poet is altered by an awareness of his Latin works In some we find prefigured themes which were later treated in their English verse others wrote Latin poetry throughout their lives and give evidence in their Latin poetry of interests which do not find expression in their English compositions This volume is a valuable resource for students of both Latin and English literature **'Johannes Tertius'** Peter Godman,

The Oxford Handbook of Neo-Latin Stefan Tilg, Sarah Knight, 2015 From the dawn of the early modern period around 1400 until the eighteenth century Latin was still the European language and its influence extended as far as Asia and the Americas At the same time the production of Latin writing exploded thanks to book printing and new literary and cultural dynamics Latin also entered into a complex interplay with the rising vernacular languages This Handbook gives an accessible survey of the main genres contexts and regions of Neo Latin as we have come to call Latin writing composed in the wake of Petrarch 1304-74 Its emphasis is on the period of Neo Latin's greatest cultural relevance from the fifteenth to the eighteenth centuries Its chapters written by specialists in the field present individual methodologies and focuses while retaining an introductory character The Handbook will be valuable to all readers wanting to orientate themselves in the immense ocean of Neo Latin literature and culture It will be particularly helpful for those working on early modern languages and literatures as well as to classicists working on the culture of ancient Rome its early modern reception and the shifting characteristics of post classical Latin language and literature Political social cultural and intellectual historians will find much relevant material in the Handbook and it will provide a rich range of material to scholars researching the history of their respective geographical areas of interest **The Latin Poetry of Thomas Gray** Estelle Haan, 2024-11-11 In the first full scale edition of Thomas Gray's Latin poetry the Latin text and facing English translation are complemented by a detailed introduction and comprehensive commentary that situate Gray's Latin verse in relation to his vernacular poetry epistolary correspondence and especially his appropriation of classical and Neo Latin literature This book also traces hitherto unlocated manuscripts of several of his Latin poems and includes an editio princeps of recently discovered Latin verses pertaining to his Neapolitan sojourn Gray's Latin poetry presents an illuminating portrait of the artist as a young man mapping his growth and development from his Etonian days to his undergraduate years at Cambridge University to his continental journey and his return to England Impressively eclectic in its scope and tone it ranges from experimental renderings of English Greek and Italian verse to more strikingly original pieces including poetic reinterpretations of Alexander Pope's Essay on Man and John

Locke's *An Essay Concerning Humane Understanding* Gray looks back to a classical past offering imaginative re-readings of Lucretius, Virgil and Horace. At the same time his Latin verse is firmly rooted in a postclassical world. At its heart is the theme of presences whether sacred, imagined, absent or remembered, conveyed with a linguistic ingenuity that facilitates the encoding of homoeroticism in a Neo-Latin language of sensibility. All of these works appear in English translation for the first time. **Latin Epic and Didactic Poetry** Monica Gale, 2004-12-31. How is it possible for a poet to find his own individual voice when he is writing in a tradition so venerable and so constrained by convention as Roman epic? How do poets working in related genres, particularly didactic, conceptualize their relationship to the main epic tradition? The eleven essays in this volume, by leading scholars in the field of Roman poetry and its post-Classical receptions, consider some of the strategies which writers from Lucretius onwards have employed in negotiating their relationship with their literary forebears and staking out a place for their own work within a tradition stretching back to Hesiod and Homer. **An Anthology of European Neo-Latin Literature** Gesine Manuwald, Daniel Hadas, Lucy R.
