Collection monographique Rodopi en littérature française contemporaine engages by way of a rich variety of critical approaches with today's French writers whose work exhibits a striking originality of vision and breadth of creative endeavour. Written in French or English studies will explore at once the overall significance and the distinctive features of these works whose multifaceted appeal places them at the fore of recent literary production. Critical Survey of Poetry Philip K. Jason, 2003. Presents alphabetized profiles of nearly seven hundred significant poets from around the world providing biographies, primary and secondary bibliographies and analysis of their works.

Dalhousie French Studies, 1987 **Coleridge's Metaphors of Being** Edward Kessler, 2015-03-08. In an original and provocative demonstration that Coleridge's later poetry took on a powerful metaphysical conception, Edward Kessler emphasizes Coleridge's struggle with language as a means of both expressing and creating Being. While many of Coleridge's late poems are generally viewed as fragments that constitute an aesthetic failure, Professor Kessler contends that what at first may appear to reflect Coleridge's inability to finish a poem can otherwise be seen as a deliberate rejection of what the poet came to see as a confining form. Flannery O'Connor and the Language of Apocalypse Edward Kessler, 2017-03-14. Seeing Flannery O'Connor in the company of poets rather than realistic prose writers, this work shows how she uses recurring figures of speech to transform or re-create the external world. Originally published in 1986, The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press. The Skeptic Disposition Eugene Goodheart, 2014-07-14. Eugene Goodheart examines the skeptic disposition that has informed advanced literary discourse over the past generation, arguing that the targets of deconstructive suspicion are fundamental humanistic values. This book is a fair-minded, generous critique of the deconstructionist theories of Jacques Derrida, Paul de Man, and their followers. These writers have argued that language is so inherently slippery it can never express a speaker's intended meaning. The critic's role in their view is to explore the contradictions, subtexts, and metaphorical byways of works that may be most radically deceptive when they appear simple. Critics have castigated this language-centered skepticism as a form of nihilism geared to

multiply numbingly similar readings of already familiar texts Mr Goodheart's objection is more subtle He suggests that the philosophical orientation of deconstructive critics leads them to overemphasize the tricky propositional sense of words at the expense of the broader impact of literature its power to wound thrill or transform us Morris Dickstein The New York Times Book Review Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
