Bester,2021-12-30 This book offers a novel theory of childhood well being as a social good It re-examines our fundamental assumptions about parenting parental authority and a liberal society's role in the raising of children The author defends the idea that the good of a child is inexorably linked to the good of society He identifies and critiques the problematic assumption that parenting is an extension of individual liberty and shows how we run into problems in medical decision making for children because of this assumption He develops an objective conception of what is good for a child in a liberal society drawing on the assumptions of liberty and from here constructs a set of things that society and its members owe children There are ways in which society should support and intervene in parental decisions to guarantee a child's well being Ultimately raising children is a social activity that requires input from society The author then applies this theory of childhood well being to develop a framework for medical decision making for children He also uses practical examples such as vaccinations parental leave and healthcare access to demonstrate the implications of his theory for public policy *The Limits of Parental Authority Childhood Wellbeing as a Social Good* will be of interest to practitioners scholars and advanced students working in bioethics political philosophy and public health policy *Genesis-Judges. 1835* William Jenks,1835 *Woman's World* ,1926 **The Wilted Rose** Kate-Lyn Therkelsen,2011 Based on the harrowing experiences of a real Australian family *The Wilted Rose* tells the story of Sarah an ambitious young woman battling against her family's strict religious beliefs to achieve her dreams Balancing her passions with the traditional path of marriage and children pushes her to the brink of emotional chaos and her husband faces the prospect of living an entire lifetime without the love of his wife Their only daughter Grace grapples to cope with the toll her mother's emotional hardship takes on their family and the normal mother daughter relationship she longs for Passion religion
