Rutkowski, Andrew Hock Soon Ng, 2025-01-09 Examining film literature and art produced during and after the Malayan Emergency the guerrilla war fought between the Malayan National Liberation Army and the military forces of the British Commonwealth this collection demonstrates how art functions as a record of cultural memory that both reinforces and challenges official histories Beyond that it also brings new understandings of the Malayan Emergency itself and Malaysia s subsequent development as a postcolonial nation The first section of the book focuses on films and writings produced during the period of the Emergency to capture the socio political circumstances of the time and understand its effect on the people The second section goes on to explore representations of the Emergency generated after the event highlighting how it was reimagined or reevaluated by later artists and what ideological ends they served Offering a comparative methodological approach it investigates works that account for a range of perspectives including British Communist and Malayan Malaysian Bringing together the personal and political within individual and

collective histories this collection offers a new understanding of how the Emergency contributed to the formation of postcolonial Malaysia and demonstrates the central role that film literature and art play in the creation of cultural memory

Insect Resistance Management David W. Onstad, 2013-10-08 Neither pest management nor resistance management can occur with only an understanding of pest biology For years entomologists have understood with their use of economic thresholds that at least a minimal use of economics was necessary for proper integrated pest management IRM is even more complicated and dependent on understanding and using socioeconomic factors The new edition of Insect Resistance Management addresses these issues and much more Many new ideas facts and case studies have been developed since the previous edition of Insect Resistance Management published With a new chapter focusing on Resistance Mechanisms Related to Plant incorporated Toxins and heavily expanded revisions of several existing chapters this new volume will be an invaluable resource for IRM researchers practitioners professors and advanced students Authors in this edition include professors at major universities leaders in the chemical and seed industry evolutionary biologists and active IRM practitioners This revision also contains more information about IRM outside North America and a modeling chapter contains a large new section on uncertainty analysis a subject recently emphasized by the U S Environmental Protection Agency The final chapter contains a section on insecticidal seed treatments No other book has the breadth of coverage of Insect Resistance Management 2e It not only covers molecular to economic issues but also transgenic crops seed treatments and other pest management tactics such as crop rotation Major themes continuing from the first edition include the importance of using IRM in the integrated pest management paradigm the need to study and account for pest behavior and the influence of human behavior and decision making in IRM Provides insights from the history of insect resistance management IRM to the latest science Includes contributions from experts on ecological aspects of IRM molecular and population genetics economics and IRM social issues Offers biochemistry and molecular genetics of insecticides presented with an emphasis on recent research Encourages scientists and stakeholders to implement and coordinate strategies based on local social conditions
