Actions and Objects from Hobbes to Richardson Jonathan Kramnick,2010-08-30 How do minds cause events in the world How does wanting to write a letter cause a person s hands to move across the page Actions and Objects examines the literature and philosophy of action during the late seventeenth and early eighteenth centuries when philosophers novelists poets and scientists were all concerned with the place of the mind in the world They wondered whether belief desire and emotion were part of nature and thus subject to laws of cause and effect or in a special place outside the natural order The book emphasizes writers who tried to make actions compatible with external determination and to blur the boundary between mind and matter This kind of externalism has often been overlooked in the effort to make psychological depth and interiority arise in the eighteenth century Kramnick follows a long tradition of examining the close relation between literary and philosophical writing but he fundamentally revises the terrain situating literature alongside philosophy as jointly interested in discovering how minds work

The Brink of All We Hate Felicity A. Nussbaum,2021-05-11 Is it not monstrous that our Seducers should be our Accusers Will they not employ Fraud nay often Force to gain us What various Arts what Stratagems what Wiles will they use for our Destruction But that once accomplished every opprobrious Term with which our Language so plentifully abounds shall be bestowed on us even by the very Villains who have wronged us Laetitia Pilkington *Memoirs* 1748 In her scandalous *Memoirs* Laetitia

Pilkington spoke out against the English satires of the Restoration and eighteenth century which employed every opprobrious term to chastise women In *The Brink of All We Hate* Felicity Nussbaum documents and groups those opprobrious terms in order to identify the conventions of the satires to demonstrate how those conventions create a myth to provide critical readings of poetic texts in the antifeminist tradition and to draw some conclusions about the basic nature of satire Nussbaum finds that the English tradition of antifeminist satire draws on a background that includes Hesiod Horace Ovid and Juvenal as well as the more modern French tradition of La Bruyere and Boileau and the late seventeenth century English pamphlets by Gould Fige and Ames The tradition was employed by the major figures of the golden age of satire Samuel Butler Dryden Swift Addison and Pope Examining the elements of the tradition of antifeminist satire and exploring its uses from the most routine to the most artful by the various poets Nussbaum reveals a clearer context in which many poems of the Restoration and eighteenth century will be read anew
