China and the Middle East Since World War II Muhamad S. Olimat, 2014-10-27 This book examines Sino Middle Eastern relations on a bilateral level since World War II It highlights the depth of China s involvement in the region with each country on a five dimensional approach energy security trade relations political relations arms sales security cooperation and cultural relations Regarding each of these criteria the Middle East holds a strategic significance to China s national security vital interests territorial integrity sovereignty regime survival and economic prosperity China has been an integral part of the political developments on the Middle Eastern political scene It has supported the region s quest for independence and national liberation exchanged diplomatic recognition with the region and established political partnerships with the Middle East Trade relations are an essential element of China s involvement in the Middle East Their bilateral trade volume exceeds 220 billion annually and is steadily heading toward 500 billion by the end of 2015 The Middle East supplies fifty four percent of China s energy needs and is expected to provide seventy percent of China s imports by 2020 Energy security has become the core of Sino Middle Eastern relations and the main goal of its increasing involvement in the region China has also become a main source of arms sales to the region The Middle East influenced Chinese culture and language immensely simultaneously influenced by Chinese culture traditions and customs Apparently

the peoples of the Middle East are enthusiastic about China's role in the region. However, the American so-called pivoting out and China's imminent pivoting in brings tremendous levels of anxiety in the region. A similar situation occurred a century ago when the people of the region, the social and political movements in the Middle East, and the governments of the region solicited and welcomed the American involvement in the region, something they deeply resent and regret. China seems to be going through the same path, and the people of the region have begun to scrutinize its presence. If Beijing continues its inconsistent policy in the region, its injudicious support to autocracies, it will defiantly mobilize popular resentment against its involvement in the Middle East. Therefore, its presence might not endure in comparison to the American, British, or French presence in the Middle East.

Eye on the Sparrow D. A. Gregory, 2023-07-06 About the Book D. A. Gregory was born and raised in Queens Village on Long Island, N.Y. She and her husband of 54 years lived in Europe, Florida, and Kentucky. After raising two children and working as a church and legal secretary, a preschool teacher, and children's Sunday School leader, she retired and had time for her artistic painting and love of writing. Of her three children's books, the family favorite is on Amazon, entitled *Lillian Rose Wants a Turtle*, based on her granddaughter's childhood wish. This, her first biography, is a poignant memoir vividly recalling the pain and lifelong scars of verbal and physical abuse at the hands of a tyrannical father. The author's struggle with parental rejection and her doubts of self-worth and insecurity send her on a purposeful search for identity and truth. At times, love comes through her mother and other relatives like beams of bright light dispelling the darkness. In young adulthood, a perceptive messenger was sent who saw her need and led her on a faith journey to her loving, caring Heavenly Father. This is a riveting story of overcoming and sensing God's watchful eye on His child that reshaped her destiny and turned years of dysfunction into a life worth living. So step back into the 1950s as the author weaves the culture of that day's innocence, tragedy, and tradition with childhood imagination and humorous relief. Truly, her life is a testimony to God's immeasurable saving grace, love, and protection, asserting His Eye is on the Sparrow.

The Gulf monarchies after the Arab Spring Cinzia Bianco, 2024-01-09 The post-Arab Spring collapse of decades-old regimes inaugurated a decade of reshaping for the geopolitical order in the Middle East and North Africa region. A multipolar disorder ensued, solidified by the COVID-19 pandemic and the Russian invasion of Ukraine in 2022. Amid general bewilderment, the small monarchies of the Gulf Cooperation Council (GCC) spent the decade between 2011 and 2022 trying to reshape regional equilibria as protagonists. This book applies an original theoretical framework to unpack the threat perceptions and strategic calculus driving the behaviour of these new impactful regional players. Six chapters look at the six GCC monarchies individually. The author challenges commonly held narratives and goes beyond attention-grabbing headlines, and thus provides reading keys to the past, present, and future of policy-making in the Gulf monarchies, middle powers destined to play an oversized role in the
