Saving The Ranch Conservation Easement Design In The American West:

Saving the Ranch Anthony Anella, John Burghardt Wright, 2004 Saving the ranch is a concise guide to conservation easements for ranchers conservationists and developers concerned with protecting the natural and scenic values of ranch lands in the western United States The book shows how ranchers can reduce estate taxes generate and shelter income and combine land conservation with estate planning Case studies explore how conservation easements have been used helping readers to understand the variety of circumstances under which easements can be effective Throughout the book photographs maps and color illustrations bring to life the examples presented and the situations described **America's Natural Places: Pacific and West** Methea K. Sapp, 2009-11-25 From Alaska's Arctic National Wildlife Refuge to the Milnesand Prairie Preserve of New Mexico this volume provides a snapshot of the most spectacular and important natural places in the western United States America's Natural Places Pacific and West examines over 50 of the most spectacular and important areas of this region with each entry describing the importance of the area the flora and fauna that it supports threats to the survival of the region and what is being done to protect it Organized by state within the volume this work informs readers about the wide variety of natural areas across the western part of the United States and identifies places that may be near them that demonstrate the importance of preserving such regions **The Gardens of Los Poblanos** Judith Phillips, 2023-10-01 In The Gardens of Los Poblanos landscape designer and garden writer Judith Phillips recounts the history of these world renowned gardens and demonstrates the ways in which the farm's owners designers and gardeners have influenced the evolution of this unique landscape Phillips showcases how the changes in landscape style and content are driven by cultural expectations and climatic realities and she discusses how the gardens of Los Poblanos have helped preserve the deep agrarian roots of the village of Los Ranchos de Albuquerque Although plants are always a focus for Phillips she demonstrates how gardens are more than plants and how plants are much more than mere fillers of garden space **Grand Canyon to Hearst Ranch** Elizabeth Austin, 2020-02-21 Finalist for the 2020 WILLA Literary Award Creative Nonfiction Inspired by her first breathtaking trip in the Grand Canyon Harriet Hunt Burgess dedicated her life to saving land for future generations Beginning in the 1970s she persevered through four decades overcoming daunting obstacles and taking extraordinary risks to conserve hundreds of thousands of acres of land in the American West Without Burgess iconic and irreplaceable landscapes like the Lake Tahoe region and the California coast would be much different today As Harriet Burgess once explained The land we save is our legacy It's what we give to our children The Grand Canyon was the catalyst for Harriet's conservation mission and the spark for Grand Canyon to Hearst Ranch Author Elizabeth Austin has interwoven her own exhilarating and life changing dory trip through the depths of the Grand Canyon with the compelling story of Harriet's early life and five of her most significant conservation achievements as founder president of the American Land Conservancy *The Routledge Companion to Rural Planning* Mark Scott, Nick Gallent, Menelaos Gkartzios, 2019-01-28 The

Routledge Companion to Rural Planning provides a critical account and state of the art review of rural planning in the early years of the twenty first century Looking across different international experiences from Europe North America and Australasia to the transition and emerging economies including BRIC and former communist states it aims to develop new conceptual propositions and theoretical insights supported by detailed case studies and reviews of available data The Companion gives coverage to emerging topics in the field and seeks to position rural planning in the broader context of global challenges climate change the loss of biodiversity food and energy security and low carbon futures It also looks at old established questions in new ways at social and spatial justice place shaping economic development and environmental and landscape management Planning in the twenty first century must grapple not only with the challenges presented by cities and urban concentration but also grasp the opportunities and understand the risks arising from rural change and restructuring Rural areas are diverse and dynamic This Companion attempts to capture and analyse at least some of this diversity fostering a dialogue on likely and possible rural futures between a global community of rural planning researchers Primarily intended for scholars and graduate students across a range of disciplines such as planning rural geography rural sociology agricultural studies development studies environmental studies and countryside management this book will prove to be an invaluable and up to date resource

The Orphaned Land V. B. Price, 2011-11-16 Although most people prefer not to think about them hazardous wastes munitions testing radioactive emissions and a variety of other issues affect the quality of land water and air in the Land of Enchantment as they do all over the world In this book veteran New Mexico journalist V B Price assembles a vast amount of information on more than fifty years of deterioration of the state s environment most of it hitherto available only in scattered newspaper articles and government reports Viewing New Mexico as a microcosm of global ecological degradation Price s is the first book to give the general public a realistic perspective on the problems surrounding New Mexico s environmental health and resources

Bargaining for Eden Stephen Trimble, 2008-07-28 While open spaces in America are rapidly being destroyed as a result of greed hubris and neglect Stephen Trimble s *Bargaining for Eden* is a powerful call for us to more earnestly consider our solemn obligations as stewards of the Earth Combining remarkable investigative research with his skills as a poignant essayist Trimble has favored us with an extraordinary account that inspires as it challenges our values our commitment to action and our sense of connection with place community and the essence of who we are as inhabitants of this wondrous planet Rocky Anderson Former Mayor of Salt Lake City From Hetch Hetchy to Glen Canyon we mourn the sacred places in the west that have been bargained away for the American dream Stephen Trimble eloquently shows that these are not just conflicts over land but choices over which American dream we pursue as a nation What moves us to act What do we really value How shall we live together In this mature and poignant book Trimble urges passion and self awareness and reminds us that no conflict arises totally outside of oneself all of the things we fear in others may be possible

in ourselves Peter Forbes Director Center for Whole Communities With this masterwork Stephen Trimble has given us the most reasoned and moving account of how and why the West becomes developed and its lands fragmented Rather than merely pointing the finger at developers or passive staffers in federal agencies he places the development issue in a larger cultural context asking us all to be full participants in the choices about how our lands and waters are ultimately managed As wise as it is heartbreaking Trimble s story challenges us to sign on to supporting a new ethics of land use in the West that will keep such tragedies from occurring so frequently in the future Gary Nabhan author of *Renewing America s Food Traditions and Cultures of Habitat With Bargaining for Eden* Stephen Trimble has given us both a piece of dogged investigative journalism and a soul searching confessional The shocking largely unreported story of Earl Holding and the Snowbasin land swap becomes in Trimble s heartfelt prose a metaphor for the way land is used and abused in the West But Stephen doesn t stop with the expos He weaves it into a thoughtful and thought provoking reverie on man s place in an increasingly threatened landscape We are all part of the problem And he writes hopefully we can with honest effort become part of the solution Peter Shelton author of *Climb to Conquer The Untold Story of WWII s 10th Mountain Division Ski Troops* Make no mistake *Bargaining for Eden* is a brave and important book It s a page turner of a story about powerful men unspeakable wealth and Olympic gold medal mountains But it s also a *Jungle* in the tradition of Upton Sinclair a disturbing story of how politics and capitalism worked hand in hand against the common good and our commonweal of wildlands If we are ever to learn how to live on the land and at the same time protect its heart maybe we can start here in Trimble s beloved Utah mountains Kathleen Dean Moore author of *The Pine Island Paradox* [Imagine a City That Remembers](#) Anthony Anella, Mark C. Childs, 2018-10-01 *Imagine a City That Remembers* grew out of a series of articles and photographs published in the Albuquerque Tribune in 1998 and 1999 This expanded and updated collection revisits Albuquerque nearly twenty years after the original articles were written It juxtaposes historic and contemporary photographs of Albuquerque to show diverse moments in the city s history and development The authors ardent defenders of the vitality of Albuquerque s past contend that the city is still small enough to be in touch with its history and argue that what makes Albuquerque a great place is the continued presence of its strong traditions They further believe that preserving Albuquerque s natural and cultural heritage is critical to the city s future Throughout both express a deep understanding for this complicated beautiful and often misunderstood place [Reinventing Conservation Easements](#) Jeff Pidot, 2005 No recent happening in land conservation rivals the rapid expansion of conservation easements and the related growth in the number of land trusts over the past 15 years Among the forces driving this phenomenon are tax and other public subsidies and the view that the conservation easement is a win win strategy in land protection The thesis of this policy focus report is that conservation easements are a valuable land protection tool complementing regulation land acquisition and tax policies but that reforms are needed in tax and other laws and conventions governing easements lest we risk losing the public benefits for which the easements were

established **Stitching the West Back Together** Susan Charnley, Thomas E. Sheridan, Gary P. Nabhan, 2014-09-10 News headlines would often have us believe that conservationists are inevitably locked in conflict with the people who live and work on the lands they seek to protect Not so Across the western expanses of the United States conservationists ranchers and forest workers are bucking preconceptions to establish common ground As they join together to protect the wide open spaces diverse habitats and working landscapes upon which people plants and animals depend a new vision of management is emerging in which the conservation of biodiversity ecosystem integrity and sustainable resource use are seen not as antithetical but as compatible even symbiotic goals Featuring contributions from an impressive array of scientists conservationists scholars ranchers and foresters *Stitching the West Back Together* explores that expanded inclusive vision of environmentalism as it delves into the history and evolution of Western land use policy and of the working landscapes themselves Chapters include detailed case studies of efforts to promote both environmental and economic sustainability with lessons learned descriptions of emerging institutional frameworks for conserving Western working landscapes and implications for best practices and policies crucial to the future of the West s working forests and rangelands As economic and demographic forces threaten these lands with fragmentation and destruction this book encourages a hopeful balance between production and conservation on the large interconnected landscapes required for maintaining cultural and biological diversity over the longterm *Aesthetic Sustainability* Norman Lowe, 2010-10-05 **Conservation Easement Outcomes at Multiple Scales** Adena Ruth Rissman, 2008 *The Intersection of Economics and Ecology* Gurudas Nulkar, 2024-11-25 p This book is a machine generated literature overview highlighting the importance of natural capital while studying the economics of ecology It puts together available literature on this theme exploring it through the lens of sustainable development While the main content is machine generated each chapter contains curated published content overview and an introduction by the editor highlighting important areas and literature gaps describing the connection of the topic with human economy and examples of negative externalities The topics seek out research articles that show a connection with mainstream economy or rural livelihoods The connection between natural capital and human economy is well known but many of these negative externalities are complex problems to solve While there is a growing awareness to capture the value of natural capital in economic decision making there is no universal consensus However assessing the economic value of natural resources and ecosystem services and integrating this information into decision making processes such as cost benefit analysis corporate reporting and government policy making holds a promise of finding long term solutions to these market failures By valuing natural capital decision makers can better understand the economic benefits and costs of different activities and policies and make more informed choices that balance economic social and environmental objectives Containing important introductions by the human editor to plug gaps in literature the book is a great resource for policy makers students of economics and sustainable development non governmental organisations
