As both a scholar in school leadership and a former school leader, I thought I knew just about everything about leadership, but after reading this book, I was delightfully enlightened about the practical application of leadership in varying contexts around the world. Organized in three sections, this book clearly presents the practical application of leadership through an interdisciplinary approach. Alexandra Horton, Former PreK 12 Educator. *The ASTD Leadership Handbook*. Elaine Biech, 2010-10-25. A looming leadership gap faces most organizations over the next 10 years. Has your organization prepared for the imminent lack of leadership? Do you have a pipeline of developed leaders for the future? Leadership is the most important competency for both individual and organizational success and advancement. As Cynthia D. McCauley of the Center for Creative Leadership notes in her overview, leadership is also a tool designed to help with a particular human dilemma: how to get individuals to work together effectively to produce collective outcomes. When you need to learn more about how to drive success in your organization, where do you turn? To the experts. And *The ASTD Leadership Handbook* provides 48 thought leaders, the names you know and have come to trust, to enable you to learn about every facet of leadership. Here you'll find a substantial and practical collection of wisdom, philosophies, and tools from the most respected authorities on the subject. Within this

impressive volume you'll find five major sections addressing the critical aspects of the field: Leadership Competencies, Leadership Development, Attributes of Successful Leaders, Contemporary Leadership Challenges, and Broadening the Leadership Discussion. In each chapter, leaders share their expertise to help you solve your most pressing leadership challenges. Get the complete table of contents [here](#). The lineup includes leading experts from a broad range of organizations in both the public and private sectors and features a number from the Center for Creative Leadership, ranked by the Financial Times as one of the top three leadership development organizations in the world. In Pursuit of Great AND Godly Leadership Mike Bonem, 2011-11-15 Is it possible for church leaders to use biblical and secular leadership concepts in a way that keeps Christ not the marketplace at the center of their mission? Drawing on biblical material and business wisdom, *In Pursuit of Great AND Godly Leadership* explores the critical leadership decisions and practices that shape the success of Christian organizations. These decisions are illustrated in compelling interviews with over forty leaders of churches, universities, denominational bodies, and international ministries. Mike Bonem leverages his background as an MBA-trained manager and an experienced church leader to bridge the gap between the analytical and structured world of business and the faith-driven approach that is essential for healthy churches. Written to offer practical solutions for senior pastors, executive pastors, key laypeople, and leaders of other Christian entities, *In Pursuit of Great AND Godly Leadership* clearly shows the ways that secular practices can be imported into their organizations. Bonem addresses a variety of topics such as planning, finances, personnel management, measurement, team dynamics, and organizational change. In doing so, he points to the AND that every spiritual organization should strive to achieve.

Leadership, Institutions and Enforcement Slobodan Tomić, 2019-03-08 This book presents an analysis of five anticorruption agencies (ACAs) from Serbia, Macedonia, and Croatia, exploring the impact of organisational factors and leadership on their enforcement patterns during the first decade of the transitional reforms (2001-2012). Contrary to the conventional theory of agency insulation, the analysis reveals that the ACAs' de facto autonomy was not crucially shaped by their statutory independence but rather by the reputational management of their leaders. The book draws on a mixture of qualitative and quantitative analysis to document these reputational strategies and how they shaped the ACAs' de facto autonomy. The findings also suggest that the ACAs' organisational model, defined by the delegated mandate and powers (preventative vs. suppressive), represented a key variable that mediated under which conditions high de facto autonomy can be achieved. The book offers contributions to the study of

anticorruption policy and ethics regulation as well as the wider inquiry into drivers of agency independence particularly in transitional contexts Turnaround Leadership for Higher Education Michael Fullan, Geoff Scott, 2009-03-23 Change leaders at all levels of the university will need to grapple with both the content and the process of change This book tackles the question of how universities can lead change from within *Leadership Competencies for Clinical Managers* Anne M.
