**Rope** Tim Queeney, 2025-08-12 A unique and compelling adventure through the history of rope and its impact on civilization in the vein of single subject bestsellers like *Salt and Cod* Tim Queeney is a sailor who knows more about rope and its importance to humankind than most In *Rope* Queeney takes readers on a ride through the history of rope and the way it weaves itself through the story of civilization From Magellan's world circling ships to the 15th century fleet of Admiral Zheng He to Polynesian multihulls with crab claw sails he shows how without rope none of their adventurous voyages and discoveries would have been possible Time traveling he describes the building of the pyramids the Roman Coliseum Hagia Sofia Notre Dame the Sultan Hasan Mosque the Brooklyn Bridge and countless other constructions that would not have been possible without rope Not content to just look at rope's past Queeney looks at its present and possible future and how the reinvention of rope with synthetic fibers will likely provide the strength for cables to support elevators into space Making the story of rope real for readers Queeney tells remarkable nautical stories of his own reliance on rope at sea *Rope* is history adventure and the story of one of the world's most common tools that has made it possible for humans to advance throughout the centuries

**Beyond the Torrent** Jack McGarr, John McGarr, 2000-06 When Donal the eighteen year old crown prince of Topal finds on the river bank an object with a cryptic message he knows that somehow it has come from across the wide raging river that separates his kingdom from the land on the other side He devises an ingenious and dangerous way to cross the torrent and discovers a culture opposite to his own The women hunt farm herd and rule while the men must care for children keep house and prepare meals He also meets Lacia the most beautiful girl he has ever seen who detests his immodest outfit of doublet and hose the type of costume she wears and insists that he wear a gown while in Lona Donal persuades her to visit Topal but she is so disturbed by what she perceives as injustice that she soon returns to her own country However the brief contact between the two countries leads to social revolution on both sides of the torrent as the members of each oppressed sex resolve to better themselves

**Beyond the Seven Seas** Parshotam Dhaliwal, 2013-12-01 **Star People, Sky Gods and Other Tales of the Native American Indians** G.W. Mullins, 2018-02-05 In Native American history there are many legends about UFOs gods and aliens There has always been a connection between Native Americans and beings from other parts of the universe referred to as Star People Perhaps due to familiarity with celestial fixtures it has been easier for Native Americans to relate events they have experienced on earth with things such as the formation of the Pleiades The experience of tribal individuals with the Pleiades is featured quite prominently in legends across many tribes including Cherokee Onondaga Lakota and others It is not hard to believe they would identify an event with a star being the nature and history of tribes was to exist outdoors The night sky would be paid much more attention by one who did not live indoors Regardless of the tribe or whether the interaction is through a god or star people there is proof that the ancient people of

North America believed they have been visited by unexplainable beings from the heavens The stories in the collection tell of many different tribes and their experiences and the outcome of walking with these beings

**Experimental Archaeology and Neolithic Architecture** John Hill,2024-03-04 Our understanding of the construction processes involved with British Neolithic architecture needs further investigation The people were preliterate and there is no archaeological evidence of written or pictorial information regarding construction So how could they build complex monuments like Stonehenge without a plan This book argues that the Neolithic builders used rudimentary techniques to plan before building their monuments circa 4000 2500 BC essentially using ropes to set out the physical design of any structure they intended to build whilst finger reckoning numeracy dictated how their measured ropes were folded to position the monument s features Finally they used the sun s shadow at midday to achieve orientation To support this premise the book offers both the results of the author s rope experiments and instructions for repeating them Importantly this form of experimental archaeology delivers a unique approach for understanding the nature of complex Neolithic architecture Essentially the book explains the mental processes involved between design and construction

**A Grammar of Teiwa** Marian Klammer,2010-05-27 Teiwa is a non Austronesian Papuan language spoken on the island of Pantar in eastern Indonesia located just north of Timor island It has approx 4 000 speakers and is highly endangered While the non Austronesian languages of the Alor Pantar archipelago are clearly related to each other as indicated by the many apparent cognates and the very similar pronominal paradigms found across the group their genetic relationship to other Papuan languages remains controversial Located some 1 000 km from their putative Papuan neighbors on the New Guinea mainland the Alor Pantar languages are the most distant westerly Papuan outliers A

grammar of Teiwa presents a grammatical description of one of these outlier languages The book is structured as a reference grammar after a general introduction on the language it speakers and the linguistic situation on Alor and Pantar the grammar builds up from a description of the language s phonology and word classes to its larger grammatical constituents and their mutual relations nominal phrases serial verb constructions clauses clause combinations and information structure While many Papuan languages are morphologically complex Teiwa is almost analytic it has only one paradigm of object marking prefixes and one verbal suffix marking realis status Other typologically interesting features of the language include i the presence of uvular fricatives and stops which is atypical for languages of eastern Indonesia ii the absence of trivalent verbs transitive verbs select a single animate or inanimate object while the additional participant is expressed with a separate predicate and iii the absence of morpho syntactically encoded embedded clauses A grammar of Teiwa is based on primary field data collected by the author in 2003 2007 A selection of glossed and translated Teiwa texts of various genres and word lists Teiwa English English Teiwa are included
