Long Slow Death Of White Australia:

The Long, Slow Death of White Australia Gwenda Tavan, 2005 No Marketing Blurb *Creating White Australia* Jane Carey, Claire McLisky, 2009 The adoption of White Australia as government policy in 1901 demonstrates that whiteness was crucial to the ways in which the new nation of Australia was constituted And yet historians have largely overlooked whiteness in their studies of Australia's racial past *Creating White Australia* takes a fresh approach to the question of race in Australian history It demonstrates that Australia's racial foundations can only be understood by recognising whiteness too as race Including contributions from some of the leading as well as emerging scholars in Australian history it breaks new ground by arguing that whiteness was central to the racial ideologies that created the Australian nation This book pursues the foundations of white Australia across diverse locales It also situates the development of Australian whiteness within broader imperial and global influences As the recent apology to the Stolen Generations the Northern Territory Intervention and controversies over asylum seekers reveal the legacies of these histories are still very much with us today *The Golden Country* Tim Watts, 2019-09-17 A topical and provocative exploration of Australian identity by Federal MP and author Tim Watts *Aborigines & Activism* Jennifer Clark, 2008 In a provocative reappraisal of the 1960s Aborigines Activism recontextualises the history of Aboriginal activism within wider international movements Concurrent to anti war protests women's movements burgeoning civil rights activism in the United States and the struggles of South Africa's anti apartheid freedom fighters dramatic political changes took place in assimilated Australia that challenged its status quo From the early days of grassroots resistance through to Charles Perkins 1965 Freedom Ride the 1967 Referendum Canberra's Tent Embassy and beyond this is the story of the Great Southern Land's racial awakening a time when Aborigines and their white supporters achieved paradigmatic shifts in the search for equality justice and human dignity that still has powerful implications for 21st century Australia This is an engaging study of the stories of racial awakening in Australia that marked the coming of the wind of change Through rigorous research the author shows how supporters of Indigenous Australians and their struggles for equality pushed Australia into the 60s literally and figuratively The book also puts the Australian experience of the 60s into an international perspective portrayed as unique but not in isolation *In the Face of Diversity* Nathan D. Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from

across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities

Global white nationalism Daniel Geary,Camilla Schofield,Jennifer Sutton,2020-09-15 This book offers the first transnational history of white nationalism in Britain the US and the formerly British colonies of Rhodesia South Africa and Australia from the post World War II period to the present It situates contemporary white nationalism in the Anglosphere within the context of major global events since 1945 White nationalism it argues became more global in reaction to the forces of decolonisation civil rights mass migration and the rise of international institutions In this period assumptions of white supremacy that had been widely held by whites throughout the world were challenged and reformulated as western elites professed a commitment to colour blind ideals The decline in legitimacy of overtly racist political expression produced international alliances among white supremacists and new claims of populist legitimization
