*The Armies of Ancient Persia* Kaveh Farrokh, 2014-02-28 Throughout most of the classical period Persia was one of the great superpowers placing a limit on the expansion of Western powers It was the most formidable rival to the Roman empire for centuries until Persia by then under the Sassanians was overwhelmed by the Islamic conquests in the seventh century AD Yet the armies of ancient Persia have received relatively little detailed attention certainly in comparison to those of Rome This work is the first of three volumes that will form the most comprehensive study of ancient Persian armies available The Sassanians the native Iranian dynasty

that ousted their Parthian overlords in AD 226 developed a highly sophisticated army that was able for centuries to hold off all comers. They continued the Parthians' famous winning combination of swift horse archers with heavily armored cataphract cavalry, also making much use of war elephants. But Kaveh Farrokh interestingly demonstrates that their oft-maligned infantry has been much underestimated. The author, born in Athens, Greece, and expert in ancient Persian languages and military history, has been researching the military history and technology of Persia for a quarter of a century. He draws on the latest research and new archaeological evidence focusing on the organization, equipment, and tactics of the armies that dominated the ancient Middle East for so long. Ibss: Anthropology: 1975 International Committee for Social Science, 1978-08-24. First published in 1978. Routledge is an imprint of Taylor & Francis, an informal company. **Warfare in China to 1600** Peter Lorge, 2017-05-15. Chinese military history has emerged as one of the most promising and radical fields of Chinese studies. China's rapidly increasing military power makes understanding the place of war in Chinese culture, as well as the role of the military and Chinese strategic thought, vital to dealing with this possible threat. The recent flourishing of scholarship in this area has begun to allow an equivalent comparison with western and world military history, leading to a new understanding of war as a historical and cultural phenomenon, as well as revising earlier analyses of the significance of war in Chinese history. Assembled in this volume is a selection of articles that present earlier approaches to Chinese military history, as well as the most recent trends in research. The introductory essay provides an overview of the field of Chinese military history and its significance in the study of China, as well as pointing out encouraging new developments in recent scholarship. **Concise Biographical Companion to Index Islamicus** Wolfgang Behn, 2004-12-01. This third and last of the three volumes. Who's Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia. Taking as a starting point the inventory of authors from the renowned Index Islamicus, the author Wolfgang Behn, Berlin, has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980. This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies. It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author, and thus to place each author in his/her proper perspective. A tremendous achievement and a true must for every library. *Silver Vessels of the Sasanian Period: Royal imagery* Prudence Oliver Harper, 1981. **Essays in Honor of J.M. Rogers** Gülru Necipoğlu, Doris Behrens-Abouseif, Anna Contadini, 2004. **Journal of Asian History**, 1993.
