China Stands Up David Scott, 2007-05-21 In 1949 Mao Zedong made the historic proclamation that the Chinese people have stood up This statement was significant undoubtedly reflecting the changing nature not only of China's self perception but also of its relationship with the rest of the world In terms of reducing the imperialist presence of the West and Japan within China and reasserting China's territorial integrity and legal sovereignty to the outside world Mao and China can indeed be seen to have successfully stood up However the development of China's position in the hitherto Western dominated international system has been more ambiguous In China Stands Up David Scott examines the PRC's presence in the international system from 1949 to the present and also looks forward to the future asking How do we define the rise of China How does China see its role in the world What shapes China's role How do international actors view China's role in the international community Has China risen in any real sense Engaging with a rich tapestry of sources and imagery ranging from governmental media academic and popular settings and bridging the divide between history and international relations this book will appeal to students and scholars of both these fields as well as those interested in Chinese politics and foreign

policy

Twentieth-Century China Jeffrey N. Wasserstrom, 2013-10-14 *Twentieth Century China New Approaches* is an important revisionist study of China's recent past. The chapters throw light on a variety of subjects within the field which has recently undergone considerable change. The three major parts of this reader take into account the historical shape of the century, local perspectives on national history and reflections on cultural history. The chapters in this volume reflect a move away from a Western-centred analysis of Chinese history as well as the new wealth of archival material made accessible over the last decade. They highlight in challenging ways important topics that have generated considerable excitement among historians. Subjects discussed include the watershed date of 1949, feminism, the revolutions, the discourse of the communist party and political theatre in modern China.

Mandelbaum's selective principle is a combination of novelty, political power, geopolitical importance and long-term influence. For better or worse, these are the men who did more than anyone else to shape the world that we live in today. Through their lives, this book provides a unique window into the political forces that shaped the twentieth century and laid the groundwork for the twenty-first.

A New Economic History of Colonial India Latika Chaudhary, Bishnupriya Gupta, Tirthankar Roy, Anand V. Swamy, 2015-08-20 *A New Economic History of Colonial India* provides a new perspective on Indian economic history. Using economic theory and quantitative methods, it shows how the discipline is being redefined and how new scholarship on India is beginning to embrace and make use of concepts from the larger field of global economic history and economics. The book discusses the impact of property rights, the standard of living, the labour market and the aftermath of the Partition. It also addresses how education and work changed and provides a rethinking of traditional topics including de-industrialization, industrialization, railways, balance of payments and the East India Company. Written in an accessible way, the contributors—all leading experts in their fields—firmly place Indian history in the context of world history. An up-to-date critical survey and novel resource on Indian Economic History, this book will be useful for undergraduate and postgraduate courses on Economic History, Indian and South Asian Studies, Economics and Comparative and Global History.

Korea, 1876-1945 Dennis McNamara, 2019-05-20 Exploring the interaction among system state and society this book illuminates the social and economic history of late nineteenth and early twentieth century colonial Korea Dennis McNamara argues that transformation within and trade abroad led by rice exports spurred Korea's shift from isolation to inclusion in a modern regional system In his *Contending with Contradictions* Mercy Kuo, 2001-01-01 A long overdue contribution to the study of Cold War history and Chinese foreign policy *Contending with Contradictions* provides an incisive interpretation of China's relations with Poland and its irreversible impact on the communist world Mercy A Kuo provides a unique contribution to the miniscule corpus of literature on the subject Her approach is threefold Kuo offers a comprehensive interpretation of the historical relevance of the PRC's policy towards Soviet Eastern Europe during this era she sheds new light on the intentions of the Chinese Communist Party and finally her research for the book was based on an archival approach utilizing post 1989 declassified sources Because this area of Cold War history has long been understudied and certainly without the benefit of newly available archival materials Kuo's study is the first of its kind **The Pattern of Imperialism** Tony Smith, 1981-10-30 The principal ambition of this book is to provide an avowedly eclectic although largely political explanation of American and British imperialism as comprehensive and ultimately as unified as that offered by Marxist interpretations Geopolitical considerations are assumed to be basic but not exclusive concerns of foreign policy elites in Britain and the United States and the ability of people in Latin America Africa and Asia to coordinate their activities that is to act politically is assumed to be the central but not sole feature determining the character of their response to Western imperialism The book provides profiles of various southern political regimes and categorises their different reactions to the impact of imperialism in the nineteenth century and to the impetus for decolonisation after 1945 The author concludes by considering the dilemma of American policy toward the Third World in the early 1980s when traditional modes of conduct can no longer prescribe a clear plan of action *Subject Catalog* Library of Congress, 1982 [Library of Congress Catalogs](#) Library of Congress, 1983
