Looking and Listening Petunia Rose,2023-08-09 For many years I ve known that I was meant to write this book I didn t know the exact reason but I knew that I was meant to tell the story of the asbestos in the cooling towers the importance of righteous leaders and my experiences with the signs and wonders of God Then on June 19 2021 the purpose of this book evolved when God in His Triune Being confirmed to me that yes indeed I was meant to write this book God gave me many prophetic words to include in this book God s Word given to me on 6 21 2021 It is time to enact and react to the changing of the times These are the days of the LORD your God You are to follow my ways and not the ways of the enemy It should be clear for all to see what is going on in the natural world around you When leaders provide wrongdoing and no one is showing outrage that is outrageous Grievous actions have taken place all around this great country and it is time for what has transpired in the past and what is being allowed to currently happen to be revealed and dismantled and those held to justice

The Ethics of Listening Elizabeth S. Parks,2018-11-16 There are ways of being in the world that create a flourishing life and other ways that restrict that life both for ourselves and others Listening is one of these ways of being Listening gives shape to speaking inviting other people into a dialogue that impacts our everyday lives

Our acts of listening like all communication are shaped by our cultural and individual differences Unfortunately as people consider ways to ethically listen they often abide by a set of conversational rules that do not reflect or benefit their own or others unique contexts and communities In this book Parks responds to gaps in scholarship related to listening in communication research and difference in ethics scholarship Rather than imposing a rigid ethical norm that is unresponsive to diverse cultural practices her proposed listening ethic is one that is highly contextualized and pluralistic and yet dares to make normative claims Using discourse research methods that are both qualitative and quantitative Parks goes beyond describing what listening is in a given context to what ethical listening should be Empirical findings about listening from multiple communities that represent diverse ethnic gender and disability orientations are interwoven with insights from communication ethics to develop the first ever dialogic ethics of listening that is empirically based culturally grounded and normative Ten shared values emerge as guidelines for good listening in this ethic be open cultivate understanding practice authenticity engage in critical thinking invest in relationship care for the dialogue focus on what matters be intentionally present remember the ongoing story and be responsive to need These values while shared across cultures may be expressed in a diverse and sometimes conflicting communicative practices Ultimately Parks proposes that ethical listening is best conceptualized as pursuit of sustainable hospitality in our dialogic interactions within and across difference By understanding the ways that different people share listening values yet practice them differently we can learn to trust each other and attest to the hope that ethical dialogue is possible
