Mentalligence Kristen Lee,2018-02-06 One of the greatest gifts we can give to ourselves is rethinking what we ve been taught because thoughts become behaviors The same mind that gets us stuck is the same one that can set us free It s time to rip up the script society hands us breathe deep and reclaim a healthy definition of success that doesn t compartmentalize your mind body and soul We need a new organizing framework that allows more flexibility and moral grounding one that lets science emotion and spirit to fuse Too often life s disorienting moments can leave us tumbling into messy downward spirals We lose clarity and are held hostage by

blind spots that keep us from thriving We fall into common mindless behavioral traps which lead to perpetual patterns of shutting down numbing out binding up and staying stuck In this uniquely liberating book Dr Kristen Lee teaches us how to apply a process of behavioral change using a series of different lenses to steer our brains to overcome blind spots and cultivate Upward Spiral habits A leading expert on resilience and behavioral science Dr Kristen Lee developed this new psychology of thinking model from over twenty years of clinical practice the latest neuroscience and her own research findings *Mentalligence* men tel i juh ns is a sage guide that will help you build meta awareness by emphasizing an impact driven rather than a performance obsessed mindset and adopt a model of collective efficacy that is less I focused and more we focused to facilitate positive social impact at a time when it s desperately needed This is what psychologists call The Good Life living mindfully and consciously Rather than falling for predominant definitions of success that leave us boxed in depleted and oblivious to ways we can work together *Mentalligence* helps us find the thinking and behavioral agility to work towards better outcomes for all

Rebirth from Anxious Ashes Yasmeen Amer,2021-01-05 Writing is my emotional outlet When my walls are closing in on me so much that I can t breathe anymore I grab my pen and start putting everything in words Writing about my feelings and thoughts to me makes them real and thus helps me identify them address them talk about them and sometimes even accept them Although I am aided majorly by therapy and proper medication I firmly believe that writing is as significant to my stability and high functionality as they are It makes me feel in control of my monsters even if temporarily This is basically why I am releasing this book into the universe I ve always kept my writings private and rarely shared then with anyone but I decided I want others similar to or different from myself to connect to it and benefit from it If I can help one person feel less alone or more encouraged after reading any of my pieces then I can honestly and happily declare that this book has served its purpose in full If I am able through my writing to help one person reach out to someone who has mental difficulties and genuinely try to help them have an easier life then I can confidently say that all the pain that ensued from the process is definitely totally and utterly worth it Whoever and wherever you are I do not pray that you find your passion but that you find what can help you keep your demons tame and quiet for as long as possible
