The Four Lacanian Discourses Jeanne Lorraine Schroeder, 2008-08-18 This book proposes a taxonomy of jurisprudence and legal practice based on the discourse theory of Jacques Lacan In the anglophone academy the positivist jurisprudence of H L A Hart provides the most influential account of law But just as positivism ignores the practice of law by lawyers even within the academy the majority of professors are also not pursuing Hart's positivist project Rather they are engaged in policy oriented scholarship that tries to explain law in terms of society's collective goals or in doctrinal legal scholarship that does not try to describe what law is or to supply justifications for it but which examines the internal logic of law Lacan's discourse theory has the power to differentiate the various roles of the practicing lawyer and the legal scholar It is also able to explain the striking lack of communication between diverse schools of legal scholarship and between legal academia and the legal profession Although extremely influential in Europe and South America Lacanian theory remains largely unexplored in the English speaking world outside of the field of comparative literature In taking up the jurisprudential ramifications of Lacan's work

The Four Lacanian Discourses thus constitutes an original contribution to current theoretical and practical understandings of law **Law and New Media** Christian Delage, 2019-05-03 Will social media lead to social law The force of legal remediation Virtual courts and online judges Paperless trials Electronic discovery All of these novel legal developments impact how we conceive of the practice of law Here international specialists from new and established domains of law media film and virtual studies address the emergence of the jurist in the era of digital transmission From the cinema of the early 20th century to social media this volume explores the multiple intersections of these visual technologies and the law from the theoretical insight they generate to the nature of law to the impact they have on doctrinal development **The Kingdom of**

and approaching our current preoccupations from a Freudian angle she presents a reading of Freudian theory that coincides with and even clarifies new concepts in science and culture Fractals emergence topological modeling and other nonlinearities for example can be understood in light of both Freud's idea of the symptom as a nodal point and Lacan's concept of networks rather than sequential cause and effect that link psychic realities At the same time Flieger suggests how emerging paradigms in science and culture may elucidate Freud's cultural theory Like Slavoj Žižek editor of the Short Circuits series Flieger shifts effortlessly from field to field discussing psychoanalysis millennial culture nonlinear science and the landscape of cyberspace In the first half of the book *Re-siting Oedipus* she draws on the work of Lyotard Žižek Deleuze Virilio Baudrillard Haraway and others to refute the assumption of Freud's outdatedness in the new century Then in *Freud Sitings in Millennial Theory* she recasts oedipal theory siting sighting citing Freud in a twenty first century context Thinking of Oedipus decipherer of enigmas wanderer as a navigator or search engine allows us to see psychoanalysis as a navigation device for the cultural maze of the bimillennial era and Oedipus himself as a circuit of intersubjective processes by which we become human For humanity still needed in the posthuman century is at the core of Freud's theory Reading Freud today Flieger writes reminds us of the complications of the Sphinx's riddle the enigma that Oedipus only thought he solved the question of what it is to be human Psychoanalysis continues to pose that question at the crossroads between instincts and their vicissitudes

Insistence of the Material Christopher Breu, 2014-09-15 *Insistence of the Material* engages with recent theories of materiality and biopolitics to provide a radical reinterpretation of experimental fiction in the second half of the twentieth century In contrast to readings that emphasize the metafictional qualities of these works Christopher Breu examines this literature's focus on the material conditions of everyday life from the body to built environments and from ecosystems to economic production In *Insistence of the Material* Breu rethinks contemporary understandings of biopolitics affirming the importance of forms of materiality that refuse full socialization and resist symbolic manipulation Breu considers a range of novels that reflect questions of materiality in a biopolitical era including William Burroughs's *Naked Lunch* Thomas Pynchon's *V J G* Ballard's *Crash* Dodie Bellamy's *The Letters of Mina Harker* and Leslie Marmon Silko's *Almanac of the Dead* Drawing from accounts of the emergence of immaterial production and biopolitics by Michel Foucault Giorgio Agamben Roberto Esposito and Michael Hardt and Antonio Negri Breu reveals the confrontational dimensions of materiality itself in a world devoted to the idea of its easy malleability and transcendence Taking his analysis beyond the boundaries of literature Breu argues that both materiality and subjectivity form sites of resistance to biopolitical control and that new developments in materialist theory advance a conception of social existence in which materiality rather than language or culture is the central term
