case for quantitative easing our way out of planetary doom Bloomberg Green *Subverting the Empire* Paul Genoni,2004 This paper examines the way in which contemporary Australian novelists use various tropes derived from exploration in order to embellish themes of personal search in their fiction By doing so they have borrowed from the language and myths created by what was essentially an exercise in imperialism and applied them to the quest by individuals in the settler society to find a permanent spiritual home in the new country The exploration imagery proves to be apposite in that just as the empire's hopes were dashed when exploration of the inland was repelled by the barren heart of the continent so too has the metaphysical exploration of the same spaces foundered on uncompromising and withholding landscapes Geography, Urbanisation and Settlement Patterns in the Roman Near East Henry Innes MacAdam,2017-11-01 This title was first published in 2002 This volume focuses on the Roman provinces of Syria and Arabia above all the lands now within Lebanon Syria and Jordan The first articles look at questions of geography cartography and toponymy particularly in Strabo Pliny and Ptolemy The following sections are concerned with settlement patterns and urban development in the region In the Roman and early Byzantine periods the inland areas underwent a gradual transformation from a semi sedentary lightly populated and predominantly rural region to one of large cities and a network of prosperous socially sophisticated villages linked by a network of roads That change is documented by a wealth of epigraphy from both the urban communities and their outlying settlements the subject of several articles By the 4th century too Christianity had become the dominant religion and remained such until the arrival of Islam *Suffolk Coast and Heath Walks* Laurence Mitchell,2017-02-28 The three long distance walks described in this book the Suffolk Coast Path the Stour and Orwell Walk and the Sandlings Walk link together to provide a comprehensive and varied circuit of the entire Suffolk Heritage Coast The Suffolk Coast Path stretches along the coast between Lowestoft and Landguard Fort close to Felixstowe in the south a total distance of 60 miles 97km depending on whether beach walking or inland options are followed The Stour and Orwell Walk continues where the Suffolk Coast Path ends starting at Landguard Point threading for 40 mile 64km around the estuaries of the Stour and Orwell rivers to finish at Cattawade close to the Essex border The Sandlings Walk 59 miles 94.5km explores the heathland region that lies immediately inland from the Suffolk coast With the exception of the first stage between Ipswich and Woodbridge the route of the Sandlings Walk lies entirely within the confines of the Suffolk Coast Heaths AONB With a unique landscape of cliffs marshes dunes and shingle beaches and rare plants and birdlife galore there is much to attract anyone seeking interesting day walks or longer multi day itineraries
