Looking At Landscapes Through Artists Eyes:

Puget Sound Through an Artist's Eye Tony Angell, 2009 Artist and naturalist Tony Angell has used Puget Sound's natural diversity as his palette for nearly 50 years. He describes the methods he uses in his art and his observations and encounters with the species that make up the complex communities of the Sound's rivers, tidal flats, islands, and beaches: the flight of a young peregrine, an otter playfully herding a small red rockfish, the grasp of a curious octopus. Tony Angell is an illustrator, sculptor, and author of *RAVENS CROWS MAGPIES AND JAYS* and *OWLS*. He served for thirty years as Washington State Director of Environmental Education. Milani, 2009 A detailed guide to the aesthetic experience of landscapes. Sweden Through the Artist's Eye Carl Gustaf Laurin, 1911 Bee Reaved Dodie Bellamy, 2021-10-19 A new collection of essays from Dodie Bellamy on disenfranchisement, vulgarity, American working class life, aesthetic values, and profound embarrassment. So Much Information: When does one expand? Cut back? Stop researching? When is enough enough? Like Colette's aging courtesan Lea in the *Chri* books, I straddle two centuries that are drifting further and further apart. Dodie Bellamy's *Hoarding as Ecriture*: This new collection of essays, selected by Dodie Bellamy after the death of Kevin Killian, her companion and husband of thirty-three years, circles around loss and abandonment. Large and small, Bellamy's highly focused selection comprises pieces written over three decades in which the themes consistent within her work emerge with new force and clarity: disenfranchisement, vulgarity, American working class life, aesthetic values, profound embarrassment. Bellamy writes with shocking and often hilarious candor about the experience of turning her literary archive over to the Beinecke Rare Book Manuscript Library at Yale and about being targeted by an enraged online anti-capitalist stalker. Just as she did in her previous essay collection *When The Sick Rule The World*, Bellamy examines aspects of contemporary life with deep intelligence, intimacy, ambivalence, and calm.

Rockefeller, Carnegie, and Canada Jeffrey Brison, 2005-12-01 In the first half of the twentieth century, the Rockefeller Foundation and the Carnegie Corporation helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as the University of Toronto, McGill University, the National Gallery, the Humanities Research

Council of Canada and the Canadian Social Science Research Council Jeffrey Brison documents how American philanthropy facilitated the transformation from a private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated patronage a system in which the major patron was the federal state His study calls into question our essentialistic notions of contrasting national identities and the now mythologized juxtaposition of an American culture fueled by the free market with a Canadian one sustained by state support *George Washington's Eye* Joseph Manca,2012-09-01 Explore the beauty and history of Mount Vernon and the inquisitive independent mind of its famous architect and landscape designer Winner of the John Brinkerhoff Jackson Book Prize of the Foundation for Landscape Architecture On the banks of the Potomac River Mount Vernon stands with its iconic portico boasting breathtaking views and with a landscape to rival the great gardens of Europe as a monument to George Washington s artistic and creative efforts More than one million people visit Mount Vernon each year drawn to the stature and beauty of Washington s family estate Art historian Joseph Manca systematically examines Mount Vernon its stylistic moral and historical dimensions offering a complete picture of this national treasure and the man behind its enduring design Manca brings to light a Washington deeply influenced by his wide travels in colonial America with a broader architectural knowledge than previously suspected and with a philosophy that informed his aesthetic sensibility Washington believed that design choices and personal character mesh to form an ethic of virtue and fulfillment and that art is inextricably linked with moral and social concerns Manca examines how these ideas shaped the material culture of Mount Vernon Based on careful study of Washington s personal diaries and correspondence and on the lively accounts of visitors to his estate this richly illustrated book introduces a George Washington unfamiliar to many readers an avid art collector amateur architect and leading landscape designer of his time
