Unveiling Islam Ergun Mehmet Caner, Emir Fethi Caner, Two former Sunni Muslims now Christian theology professors explain the beliefs customs ethics and practices of Islam *A Fresh Look at Islam in a Multi-Faith World* Matthew Wilkinson, 2014-10-30 WINNER Cheryl Frank Memorial Prize International Association of Critical Realism A Fresh Look at Islam in a Multi Faith World provides a comprehensively theorised and practical approach to thinking systematically and deeply about Islam and Muslims in a multi faith world It makes the case for a contemporary educational philosophy to help young Muslims surmount the challenges of post modernity and to transcend the hiatuses and obstacles that they face in their interaction and relationships with non Muslims and visa versa It argues that the philosophy of critical realism in its original dialectical and metaReal moments so fittingly underlabours Bhaskar 1975 for the contemporary interpretation clarification and conceptual deepening of Islamic doctrine practice and education as to suggest a distinctive branch of critical realist philosophy specifically suited for this purpose This approach is called Islamic Critical Realism The book proceeds to explain how this Islamic Critical Realist approach can serve the interpretation of the consensual elements of Islamic doctrine such as the six elements of Islamic belief and the five pillars of Islamic practice so that these essential features of the Muslim way of life can help Muslim young people to contribute positively to life in multi faith liberal democracies in a globalising world Finally the book shows how this Islamic Critical Realist approach can be brought to bear in humanities classrooms by history religious education and citizenship teachers to help Muslim young people engage informatively and transformatively with themselves and others in multi faith contexts Islam: A Brief Look at Faith and History (Revised Edition) Hafiz Ikhlas Ansari, 2017-02-26 Paperback Islam has influenced and continues to influence many cultures around the globe It is shaping history cultures and civilizations Sadly most of us only receive a two dimensional look at Islam a view that is often distorted by the brevity of the media sound bites or by opinionated agendas Our intention with this book is to present Islam its teachings and the history of those who follow it It is not a comprehensive study nor should it be seen as definitive Rather it should be used as a stimulus for further detailed study We hope and pray that this effort becomes a source of promoting much needed harmony peace tolerance and coexistence in the human family This can be done through school education systems interfaith sessions mosque open houses educational seminars and individual readership This new Revised Edition has larger text clearer graphics and many new additions to the previous text *What About Same Sex Marriage and Another Look at Religion* Willie J. Duncan Sr. D.D. D.Re. Ph.D, 2015-09-02 In light of the new wave of Pseudo religion Ideology it is necessary to give a concrete response to it Same Sex marriages have been put forth as a new civil rights issue Which it must be determined whether it is Civil or Right Should credence be given to Homosexuality to be recognize by religion or government as a new moral or immoral privilege Only Species have the rights to exist When this lifestyle cannot produce off springs it does not exist The concept is pseudo philosophy or pseudo religious It must be governed by the same

law and principles of other species Homosexuals should be restricted to the species of the human family Homo Sapiens Male and Female This then will destroy the idea of it Untangling Terrorism from Religion: A Deeper Look into the Roots of Violent Extremism Sarwat Parvez,2025-06-08 Terrorism has long haunted modern societies capturing the attention of governments media outlets and the public alike In the rush to explain the inexplicable many turn to religion as the root cause But this simplistic and often biased interpretation overlooks the true complexity behind acts of terror Terrorism is not born from faith alone it is deeply entangled with political social and psychological conditions No single religion has a monopoly on violence and framing terrorism as inherently religious only hinders our understanding and our ability to respond effectively

Soul Searching Christian Smith, Melina Lundquist Denton, 2009-04-13 In innumerable discussions and activities dedicated to better understanding and helping teenagers one aspect of teenage life is curiously overlooked Very few such efforts pay serious attention to the role of religion and spirituality in the lives of American adolescents But many teenagers are very involved in religion Surveys reveal that 35% attend religious services weekly and another 15% attend at least monthly 60% say that religious faith is important in their lives 40% report that they pray daily 25% say that they have been born again Teenagers feel good about the congregations they belong to Some say that faith provides them with guidance and resources for knowing how to live well What is going on in the religious and spiritual lives of American teenagers What do they actually believe What religious practices do they engage in Do they expect to remain loyal to the faith of their parents Or are they abandoning traditional religious institutions in search of a new more authentic spirituality This book attempts to answer these and related questions as definitively as possible It reports the findings of The National Study of Youth and Religion the largest and most detailed such study ever undertaken The NYSR conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed The results show that religion and spirituality are indeed very significant in the lives of many American teenagers Among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought They refute the conventional wisdom that teens are spiritual but not religious And they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes This eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because

teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of American religion as a whole

Searching for Heaven in the Real World Kathryn Ann Kraft,2013-02-24 Searching for Heaven in the Real World A Sociological Discussion of Conversion in the Arab World While adjusting to a new identity is akin to adjusting to a new set of skin even more difficult is realising that this new skin may not be as comfortable or as pleasant as the old one In Searching for Heaven in the Real World Kathryn Kraft explores the breadth of psychological and societal issues faced by Arab Muslims after making a decision to adopt a faith in Christ or Christianity investigating some of the most surprising and significant challenges new believers face Arab Muslims arrive at a point of new faith with great expectations With such high hopes for what they will experience in their new identity they are bound to encounter a reality that is different They need to invest a great deal of emotional energy in addressing their expectations and what they actually encounter Even so those who stay the course of faith usually hold on to their dreams believing that heaven is not only for the afterlife but it is for the real world as well
