Loos Adolf:

Ornament and Crime Adolf Loos, 2019-05-30 Revolutionary essays on design aesthetics and materialism from one of the great masters of modern architecture Adolf Loos the great Viennese pioneer of modern architecture was a hater of the fake the fussy and the lavishly decorated and a lover of stripped down clean simplicity He was also a writer of effervescent caustic wit as shown in this selection of essays on all aspects of design and aesthetics from cities to glassware furniture to footwear architectural training to why the lack of ornament is a sign of intellectual power Translated by Shaun Whiteside With an epilogue by Joseph Masheck *Adolf Loos* Roberto Schezen, Adolf Loos, Joseph Rosa, 1996 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed He is emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth Loos's masterful astylistic architecture is captured in this volume by the esteemed photographer Roberto Schezen in over one hundred exceptional photographs Starting with the refurbishment of his own apartment in 1903 twenty of Loos's most significant buildings are beautifully displayed Villa Karma the Kärntner Bar the Goldman his commentary on architecture's position between art and function plus subtle recollections of both the classic and the vernacular All these ploys were to subvert typical architectural expectations Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions From the Hardcover edition *Adolf Loos* Panayotis Tournikiotis, 1994 Viennese architect Adolf Loos was one of the most important pioneers of the European Modern Movement Born in 1870 he was an early opponent of the decorative trends of Art Nouveau believing instead that architecture devoid of ornament represented pure and lucid thought His rationalist design theories were put into practice in the Kärntner Bar Vienna 1907 Steiner House Vienna 1920 and Villa Müller Prague 1930 Surprisingly there is no other monograph on Loos in English currently available Adolf Loos joins Adalberto Libera and Albert Kahn in Princeton Architectural Press's historical monographs series and presents this great modernist's complete works through numerous illustrations **Adolf Loos** Alessandra Coppa, 2013 Isolated from the architectural climate of his day and at odds with the principles of the Vienna Secession Austrian born Adolf Loos with his Neo Rationalist constructions and the reform of architectural language which opposed the ornament in favour of pure utility laid the very foundations for the Modern Movement And yet for Loos the architect's trade was none other than a revival of the skills of both the craftsman and the mason supported by a profound sensitivity for chromatic and spatial aspects in the belief that the rooms in a house stimulated states of mind in the person who inhabited them This was Loos theory of Raumstimmungen which he developed in his writings It is hardly surprising that his most famous project which remained an unrealised icon repropose the image of an immense black granite Doric column presented in 1922 for the competition for the Chicago Tribune newspaper headquarters By transforming a column into a habitable building Loos project broke away

from the form of the skyscraper of modern American history and suggested the idea of architecture inspired by Antiquity A new Antiquity that would make way for an unstoppable tendency from the curved line to geometry from form to function and all based on the awareness that the true modern style must represent the end of all styles and the rebellion against ornament i e houses wearing a wig and bloomers **Fashioning Vienna** Janet Stewart,2013-06-17 First full length study of Loos s texts available in English Based on original research and makes extensive use of primary sources Offers a genuinely interdisciplinary approach **Adolf Loos** Joseph Masheck,2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos masterful astylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck s Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect Adolf Loos, Theory and Works Benedetto Gravagnuolo,1982 Adolf Loos Panayotis Tournikiotis,2002 Originally published in French 1991 Editions Macula Paris profiles the Viennese architect who was one of the most important pioneers of the European Modern Movement Born in 1870 Loos was an early opponent of the decorative trend of Art Nouveau believing instead that architecture devoid of ornament represented pure and lucid thought His rationalist design theories were put into practice in the Karntner Bar Vienna 1907 Steiner House Vienna 1920 and Villa Muller Prague 1930 Annotation copyright by Book News Inc Portland OR Adolf Loos Claire Loos,2011 Lively snapshot vignettes featuring Adolf Loos between 1929 1933 reveal the personality that helped shape modern architecture in Vienna and Czechoslovakia Adolf Loos Ralf Bock,Adolf Loos,2007 In this volume Ralf Bock reveals for the first time the sensuality of Loos interior designs demonstrating that Loos was not an architect of the white modern movement but rather fought against it as he saw the work of purism move in the opposite direction of what he had envisioned He believed in culture comfort intimacy and privacy He advocated the evolution of tradition and utility and not revolution and the permanent invention of formal design Adolf Loos August Sarnitz,2016 With his passion for smooth surfaces fine lines and spatial plans Adolf Loos was a prophet of 20th century architecture This essential introduction explores his rejection of ornamental forms and his radical pursuit of stark bold and beautiful design **Adolf Loos** ,2018 Adolf Loos Roberto Schezen,Kenneth Frampton,Joseph

Rosa, 2009-06-16 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed. He is emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth. Loos's masterful astyle architecture is captured in this volume by the esteemed photographer Roberto Schezen in over one hundred exceptional photographs. Starting with the refurbishment of his own apartment in 1903, twenty of Loos's most significant buildings are beautifully displayed. Villa Karma, the Kärntner Bar, the Goldman, his commentary on architecture's position between art and function, plus subtle recollections of both the classic and the vernacular. All these ploys were to subvert typical architectural expectations. Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions. Adolf Loos Benedetto Gravagnuolo, 1982 Studie over de Tsjechische architect 1870-1933 en zijn werk Adolf Loos Ludwig Münz, 1964 **The Visual Dictionary of Interior Architecture and Design** Michael Coates, Graeme Brooker, Sally Stone, 2009-01-29 A guide to the many and varied terms used frequently within interior architecture and design *Materials and Meaning in Architecture* Nathaniel Coleman, 2020-02-20 Interweaving architecture philosophy and cultural history *Materials and Meaning in Architecture* develops a rich and multi-dimensional exploration of materials and materiality in an age when architectural practice seems otherwise preoccupied with image and visual representation. Arguing that architecture is primarily experienced by the whole body rather than chiefly with the eyes, this broad-ranging study shows how the most engaging built works are as tactile as they are sensuous, communicating directly with the bodily senses, especially touch. It explores the theme of material imagination and the power of establishing place identity in an architect's work, to consider the enduring expressive possibilities of material use in architecture. The book's chapters can be dipped into each individual chapter, providing close readings of built works by selected modern masters: Scarpa, Zumthor, Williams, and Tsien; insights into key texts and theories: Ruskin, Loos, Bachelard; or short cultural histories of materials: wood, brick, concrete, steel, and glass. And yet taken together, the chapters build to a powerful book-length argument about how meaning accrues to materials through time and about the need to reinsert the bodily experience of materiality into architectural design. It is thus also in part a manifesto arguing for architecture to act as a bulwark against the tide of an increasingly depersonalised built environment. With insights for a wide range of readers, ranging from students through to researchers and professional designers, *Materials and Meaning in Architecture* will cause theorists to rethink their assumptions and designers to see new potential for their projects. **Adolf Loos** Kurt Lustenberger, Adolf Loos, 1994 *Adolf Loos* Rainald Franz, Columbia University, Gegenwartskunst Österreichisches Museum für Angewandte Kunst, 2012 Adolf Loos Wilma Youngert Bradbeer, 1961
