Jameson Brewer,Cleveland Hayes,2025-03-10 Food Stories Navigating the Academy with Cultural Lessons from the Kitchen is the first volume in the series Culinary Canvas A Series on Integrating the Arts and Food into Higher Education The purpose of the series is to explore the innovative integration of arts and food into higher education Each volume aims to inspire a paradigm shift in academia advocating for a more holistic creative and inclusive approach to learning teaching researching serving and existing in the academy In the present volume Food Stories makes the case that food and the culture surrounding food is a closely held and powerful reality that shapes who we are as individuals as members of varied communities and invariably informs who we are as educators and researchers This book gives space for the authors to explore not only the impact that food and culture have had and continue to have on them as individuals how that culture and experiences impact them as members of the academy in teaching research and service but also in providing some guidance to graduate students and junior faculty In effect chapters explore navigating academic work teaching research and service through the lens of food and the transferable lessons that can be gleaned from our grandmothers mothers fathers and our own kitchens It is often the case that higher education fosters both imposter syndrome and a workaholic disposition that can be detrimental to teaching and research What this book does then is to not only explore the ways in which what may seem as non academic work such as cooking a meal can have on our work life balance but also how to incorporate the very lessons of food into who we are as educators how we teach and how we can approach the work we do more broadly Through carefully curated chapters this text presents a wide array of perspectives across food and cultural regions as well as imparting insights from the academy from authors spanning the spectrum of the career It is an important book full of valuable lessons for graduate students faculty and teachers who wish to use its content in their classrooms Perfect for courses such as Cultural Studies Culturally Responsive Pedagogy **Chef Paul Prudhomme's Louisiana Kitchen** Paul Prudhomme,2012-03-13 Here for the first time the famous food of Louisiana is presented in a cookbook written by a great creative chef who is himself world famous The extraordinary Cajun and Creole cooking of South Louisiana has roots going back over two hundred years and today it is the one really vital

Inventing New Orleans S. Frederick Starr,2009-09-28 Lafcadio Hearn 1850 1904 prowled the streets of New Orleans from 1877 to 1888 before moving on to a new life and global fame as a chronicler of Japan Hearn s influence on our perceptions of New Orleans however has unjustly remained unknown In ten years of serving as a correspondent and selling his writing in such periodicals as the New Orleans Daily Item Times Democrat Harper s Weekly and Scribner s Magazine he crystallized the way Americans view New Orleans and its south Louisiana environs Hearn was prolific producing colorful and vivid sketches vignettes news articles essays translations of French and Spanish literature book reviews short stories and woodblock prints He haunted the French Quarter to cover such events as the death of Marie Laveau His descriptions of the seamy side of New Orleans tainted with voodoo debauchery and mystery made a lasting impression on the nation Denizens of the Crescent City and devotees who flock there for escapades and pleasures will recognize these original tales of corruption of decay and benign frivolity and of endless partying With his writing Hearn virtually invented the national image of New Orleans as a kind of alternative reality to the United States as a whole S Frederick Starr a leading authority on New Orleans and Louisiana culture edits the volume adding an introduction that

places Hearn in a social historical and literary context Hearn was sensitive to the unique cultural milieu of New Orleans and Louisiana During the decade that he spent in New Orleans Hearn collected songs for the well known New York music critic Henry Edward Krehbiel and extensively studied Creole French making valuable and lasting contributions to ethnomusicology and linguistics Hearn s writings on Japan are famous and have long been available But *Inventing New Orleans* Writings of Lafcadio Hearn brings together a selection of Hearn s nonfiction on New Orleans and Louisiana creating a previously unavailable sampling In these pieces Hearn an Anglo Greek immigrant who came to America by way of Ireland is alternately playful lyrical and morbid This gathering also features ten newly discovered sketches Using his broad stylistic palette Hearn conjures up a lost New Orleans which later writers such as William Faulkner and Tennessee Williams used to evoke the city as both reality and symbol
