Once Upon a Time Lord Ivan Phillips, 2020-02-20 Every story ever told really happened The Doctor Hell Bent 2015 Stories are fundamentally what Doctor Who is all about In Once Upon a Time Lord Ivan Phillips explores a wide range of perspectives on these stories and presents a lively and richly varied analysis of the accumulated tales that constitute this popular modern mythology Concerned equally with classic and new Who Phillips looks at how aspects of the Time Lord s story have been developed on television and beyond tracing lines of connection and divergence across various media He discusses Doctor Who as a mythology that has drawn on its own past in often complex ways at the same time reworking elements from many other sources whether literary cinematic televisual or historical Once Upon A Time Lord offers an original take on this singular hero s journey reading the unsettled enigma of the Doctor in relation to the characters narratives and locations that he has encountered across more than half a century

The Werewolf in the Ancient World Daniel Ogden, 2021-01-07 In a moonlit graveyard somewhere in southern Italy a soldier removes his clothes in readiness to transform himself into a wolf He depends upon the clothes to recover his human shape and so he magically turns them to stone but his secret is revealed when back in human form he is seen to carry a wound identical to that recently dealt to a marauding wolf In Arcadia a man named Damarchus accidentally tastes the flesh of a human sacrifice and is transformed into a wolf for nine years At Temesa Polites is stoned to death for raping a local girl only to return to terrorize the people of the city in the form of a demon in a wolfskin Tales of the werewolf are by now well established as a rich sub strand of the popular horror genre less widely known is just how far back in time their provenance lies These are just some of the werewolf tales that survive from the Graeco Roman world and this is the first book in any language to be devoted to their study It shows how in antiquity werewolves thrived in a story world shared by witches ghosts demons and soul flyers and argues for the primary role of story telling as opposed to rites of passage in the ancient world s general conceptualization of the werewolf It also seeks to demonstrate how the comparison of equally intriguing medieval tales can be used to fill in gaps in our knowledge of werewolf stories in the ancient world thereby shedding new light on the origins of the modern phenomenon All ancient texts bearing upon the subject have been integrated into the discussion in new English translations so that the book provides not only an accessible overview for a broad readership of all levels of familiarity with ancient languages but also a comprehensive sourcebook for the ancient werewolf for the purposes of research and study
