Emanuel Swedenborg, 1853 *The Teachings of Emanuel Swedenborg: Vol III* Emanuel Swedenborg, 2016-10-20

Swedenborg experienced dreams and visions in which he was appointed by the Lord to write a heavenly doctrine to reform Christianity He claimed that the Lord had opened his eyes so that he could freely visit heaven and hell and talk with angels demons and other spirits His best known book is *Heaven and Hell* The destruction of the world is not meant by the day of the last judgment Those who have not known the spiritual sense of the Word have understood that everything in the visible world will be destroyed in the day of the Last Judgment for it is said that heaven and earth are then to perish and that God will create a New Heaven and a New Earth Here are all three of his Last Judgment books *Last Judgment* *Last Judgment*

Woman's Work in America Various Authors, 1856-01-01 A comprehensive view of the attainments made by American women in this century and especially during the last fifteen years cannot but be of great importance and value The cruel kindness of the old doctrine that women should be worked for and should not work that their influence should be felt but not recognized that they should hear and see but neither appear nor speak all this belongs now to the record of things which once measurably true have become fabulous The theory that women should not be workers is a corruption of the old aristocratic system Slaves and servants whether male or female always worked Women of rank in the old world were not necessarily idle The eastern monarch who refused an army to a queen sent her a golden distaff The extremes of despotism and of luxury undermining society and state can alone have introduced the theory that it becomes the highly born and bred to be idle With this unnatural paralysis of woman's active nature came ennui the bane of the so called privileged classes From ennui spring morbid passions fostered by fantastic imaginations A respect for labor lies at the very foundation of a true democracy The changes which our country has seen in this respect and the great uprising of industries among women are then not important to women alone but of momentous import to society at large The new activities sap the foundation of vicious and degraded life From the factory to the palace the quickening impulse is felt and the social level rises To the larger intellectual outlook is added the growing sympathy of women with each other which does more than anything else to make united action possible among them A growing good will and esteem of women toward women makes itself happily felt and will do even more and more to refine away what is harsh and unjust in social and class distinctions and to render all alike heirs of truth servants of justice The initiative is now largely taken by women in departments in which they were formerly if admitted at all entirely and often unwillingly under the dictation of men Philanthropists of both sexes indeed work harmoniously together but in their joint undertakings the women now have their say and instead of waiting to be told what men would have them think feel obliged to think for themselves The result is not discord but a fuller and freer harmony of action and intention In industrial undertakings they still have far to go but women will enter more and more into them and with happy results The professions indeed supply the keystone to the arch of woman's liberty Not the intellectual training alone which fits for them but the practical technical knowledge which must accompany their exercise puts women in a position of sure defense against fraud and imposition In the volume now given to the public the progress of women in all of these departments is presented by persons who have made each of them a special study and who have done good and helpful work in them with moreover the outlook ahead which is the important element in all labor and service The world even the American world is not yet wholly converted to the doctrine of the new womanhood Men and women who prize the ease of the status quo and the imaginary importance conferred by exemption from the necessities which prompt to active exertion often

show great ignorance of all that this book is intended to teach They will aver men and women of them that women have never shown any but secondary capacities and qualities Women who take this ground often secretly flatter themselves that what they thus say of other women does not apply to themselves A speaker representing this class lately asked at a legislative hearing in Massachusetts why women did not enter the professions why they did not become healers of the sick ministers lawyers One might ask how he could escape knowing that in all of these fields so lately opened to them women are doing laborious work and with excellent results A book like the present will furnish chapter and verse to substantiate what is claimed for the attainments of women It will not indeed put an end to foolish depreciative argument based upon erroneous suppositions but it will furnish evidence to confute calumny to convince the doubtful Dramas of Calderon, Tragic, Comic, and Legendary.
