Race in Translation Robert Stam, Ella Shohat, 2012-05-28 While the term culture wars often designates the heated arguments in the English speaking world spiraling around race the canon and affirmative action in fact these discussions have raged in diverse sites and languages Race in Translation charts the transatlantic traffic of the debates within and between three zones the U S France and Brazil Stam and Shohat trace the literal and figurative translation of these multidirectional intellectual debates seen most recently in the emergence of postcolonial studies in France and whiteness studies in Brazil The authors also interrogate an ironic convergence whereby rightist politicians like Sarkozy and Cameron join hands with some leftist intellectuals like Benn Michaels and Bourdieu in condemning multiculturalism and identity politics At once a report from various fronts in the culture wars a mapping of the germane literatures and an argument about methods of reading the cross border movement of ideas the book constitutes a major contribution to our understanding of the

Diasporic and the Transnational **Race and Ethnicity** Kathleen Odell Korgen, Maxine P. Atkinson, 2024-12-11 *Race and Ethnicity Sociology in Action* is an innovative text that combines comprehensive coverage of race and ethnicity content with active learning exercises seamlessly integrated into the chapters. The book is written by a team of experienced instructors who use active learning techniques in their own classrooms. These contributors expertly weave together content material, active learning exercises, discussion questions, real world examples of sociologists in action, and information on careers that use sociology. The Second Edition includes updated data figures and examples as well as new information on many topics including interracial relationships, immigrant groups, diversity among Asian Americans, racial discrimination in housing, and building coalitions for racial justice.

Self-educator for a Rising Race Joseph R. Gay, 1913 **Bulwer's Novels: The pilgrims of the Rhine. The coming race** Edward Bulwer Lytton, Baron Lytton, 1892 *Science, Sexuality, and Race in the United States and Australia, 1780-1940* Gregory D. Smithers, 2017-07 *Science Sexuality and Race in the United States and Australia 1780 1940* Revised Edition is a sociohistorical tour de force that examines the entwined formation of racial theory and sexual constructs within settler colonialism in the United States and Australia from the Age of Revolution to the Great Depression. Gregory D. Smithers historicizes the dissemination and application of scientific and social scientific ideas within the process of nation building in two countries with large Indigenous populations and shows how intellectual constructs of race and sexuality were mobilized to subdue Aboriginal peoples. Building on the comparative settler colonial and imperial histories that appeared after the book's original publication, this completely revised edition includes two new chapters. In this singular contribution to the study of transnational and comparative settler colonialism, Smithers expands on recent scholarship to illuminate both the subject of the scientific study of race and sexuality and the national and interrelated histories of the United States and Australia.

The New Voice in Race Adjustments Arcadius McSwain Trawick, 1914 *A Solution of the Race Problem in the South* Enoch Spencer Simmons, 1898 **American Umpire** Elizabeth Cobbs Hoffman, 2013-03-04 Commentators call the United States an empire, occasionally a benign empire, sometimes an empire in denial, often a destructive empire. In *American Umpire*, Elizabeth Cobbs Hoffman asserts instead that America has performed the role of umpire since 1776, compelling adherence to rules that gradually earned broad approval and violating them as well.

Sovereign Acts Katherine A. Zien, 2017-09-08 Winner of the 2018 Gordon K. and Sybil Farrell Lewis Book Prize from the Caribbean Studies Association, Winner of the 2017 Annual Book Prize from the Canadian Association of Latin American and Caribbean Studies, CALACS. *Sovereign Acts* explores how artists, activists, and audiences performed and interpreted sovereignty struggles in the Panama Canal Zone from the Canal Zone's inception in 1903 to its dissolution in 1999. In popular entertainments and patriotic pageants, opera, concerts, and national theatre, white U.S. citizens, West Indian laborers, and Panamanian artists and activists used performance as a way to assert their right to the Canal Zone and challenge the Zone's sovereignty, laying claim to the Zone's physical space and imagined terrain. By demonstrating the place of performance in the

The General Stud Book Containing Pedigrees of English Race Horses, &c. &c. from the Earliest Accounts to the Year 1831, Inclusive ,1885 *Race Relations at the Margins* Jeff Forret,2006-07-01 Covering a broad geographic scope from Virginia to South Carolina between 1820 and 1860 Jeff Forret scrutinizes relations among rural poor whites and slaves a subject previously unexplored and certainly under reported Forret s findings challenge historians long held assumption that mutual violence and animosity characterized the two groups interactions he reveals that while poor whites and slaves sometimes experienced bouts of hostility often they worked or played in harmony and camaraderie *Race Relations at the Margins* is remarkable for its focus on lower class whites and their dealings with slaves outside the purview of the master Race and class Forret demonstrates intersected in unique ways for those at the margins of southern society challenging the belief that race created a social cohesion among whites regardless of economic status As Forret makes apparent colonial era flexibility in race relations never entirely disappeared despite the institutionalization of slavery and the growing rigidity of color lines His book offers a complex and nuanced picture of the shadowy world of slave poor white interactions demanding a refined understanding and new appreciation of the range of interracial associations in the Old South

Weaving a Family Barbara Katz Rothman,2005 A man a woman and their biological children all of the same race the mythical nuclear family has been the bedrock of American cultural religious social and economic life since the Revolutionary War and even with all the changes we have absorbed in the last sixty years it essentially remains so Current trends in adoption however have begun to shift the dominant paradigm of the family in ways never before imagined Professional estimates show that in the United States today seven million families have been formed by adoption and 700 000 of them are interracial These still growing numbers have begun to radically change the face of the traditional American family Barbara Katz Rothman a noted sociologist who has explored motherhood in four previous books and has more recently explored the social implications of the human genome project now turns her eye toward race and family Weaving together the sociological the historical and the personal Barbara Katz Rothman looks at the contemporary American family through the lens of race race through the lens of adoption and all family race and adoption within the context of the changing meanings of motherhood She asks urgent and provocative questions about children as commodities about trophy children about the impact of genetics and about how these adopted children will find their racial ethnic or cultural identities Drawing on her own experience as the white mother of a black child on historical research on white people raising black children from slavery to contemporary times and pulling together work on race adoption and consumption Rothman offers us new insights for understanding the way that race and family are shaped in America today This book is compelling reading not only for those interested in family and society but for anyone grappling with the myriad issues that surround raising a child of a different race

Bayor,2004 With more than 240 primary sources this introduction to a complex topic is a resource for student research *Reconstructions* Thomas J. Brown,2006-11-09 The pivotal era of Reconstruction has inspired an outstanding historical literature In the half century after W E B DuBois published Black Reconstruction in America 1935 a host of thoughtful and energetic authors helped to dismantle racist stereotypes about the aftermath of emancipation and Union victory in the Civil War The resolution of long running interpretive debates shifted the issues at stake in Reconstruction scholarship but the topic has remained a vital venue for original exploration of the American past In Reconstructions New Perspectives on the Postbellum United States eight rising historians survey the latest generation of work and point to promising directions for future research They show that the field is opening out to address a wider range of adjustments to the experiences and effects of Civil War Increased interest in cultural history now enriches understandings traditionally centered on social and political history Attention to gender has joined a focus on labor as a powerful strategy for analyzing negotiations over private and public authority The contributors suggest that Reconstruction historiography might further thrive by strengthening connections to such subjects as western history legal history and diplomatic history and by redefining the chronological boundaries of the postwar period The essays provide more than a variety of attractive vantage points for fresh examination of a major phase of American history By identifying the most exciting recent approaches to a theme previously studied so ably the collection illuminates the creative process in scholarly historical literature Faulkner and Mystery Annette Trefzer,Ann J. Abadie,2014-04-29 Contributions by Hosam Aboul Ela Susan V Donaldson Richard Godden Michael Gorra Lisa Hinrichsen Donald M Kartiganer Sarah Mahurin Sean McCann Noel Polk Esther S nchez Pardo Annette Trefzer Rachel Watson and Philip Weinstein Faulkner and Mystery presents a wide spectrum of compelling arguments about the role and function of mystery in William Faulkner s fiction Twelve new essays approach the question of what can be known and what remains a secret in the narratives of the Nobel laureate Scholars debate whether or not Faulkner s work attempts to solve mysteries or celebrate the enigmas of life and the elusiveness of truth Scholars scrutinize Faulkner s use of the contemporary crime and detection genre as well as novels that deepen a plot rather than solve it Several essays are dedicated to exploring the narrative strategies and ideological functions of Faulkner s take on the detective story the classic whodunit Among Faulkner s novels most interested in the format of detection is Intruder in the

Dust which assumes a central role in this essay collection Other contributors explore the thickening mysteries of racial and sexual identity particularly the enigmatic nature of his female and African American characters Questions of insight cognition and judgment in Faulkner s work are also at the center of essays that explore his storytelling techniques plot development and the inscrutability of language itself *The Planetary Turn* Amy J. Elias, Christian Moraru, 2015-04-30 A groundbreaking essay collection that pursues the rise of geoculture as an essential framework for arts criticism The Planetary Turn shows how the planet as a territory a sociopolitical arena a natural space of interaction for all earthly life and an artistic theme is increasingly the conceptual and political dimension in which twenty first century writers and artists picture themselves and their work In an introduction that comprehensively defines the planetary model of art culture and cultural aesthetic interpretation the editors explain how the living planet is emerging as distinct from older concepts of globalization cosmopolitanism and environmentalism and is becoming a new ground for exciting work in contemporary literature visual and media arts and social humanities Written by internationally recognized scholars the twelve essays that follow illustrate the unfolding of a new vision of potential planetary community that retools earlier models based on the nation state or political blocs and reimagines cultural political aesthetic and ethical relationships for the post Cold War era
