Love And Other Near Death Experiences:

Love and Other Near-Death Experiences Mil Millington, 2006-02-14 Hello My name is Robert and I haven't been dead for sixty three days now If he hadn't bought those crummy towels Rob would be six feet under But his poor shopping sense accidentally set off a convoluted chain of events that meant he lived when all those others died in the pub explosion Okay maybe it wasn't the ugly towels that saved his life Perhaps it was some other random action some other small movement that was the utterly trivial yet vitally important factor And that's the real problem Now with his wedding fast approaching Rob suddenly finds himself paralyzed with indecision about Every Little Thing He just can't be sure which seemingly innocuous choice will mean the difference between life and death Should he wash the fork or the knife first Should he step out of the shower with his left leg or his right leg Red sweater or blue One thing is certain His fiancée Jo is at her wits end To save his relationship and his sanity Rob embarks on a quest to find out why he's still breathing When he meets up with others who have had similar lifesaving near misses he figures the answer must be close But fate may just catch them yet for Rob's search to understand why he's still alive might well turn out to be the very thing that kills them all Filled with the barbed and sparkling dialogue that made *Things My Girlfriend and I Have Argued About* a cult hit Mil Millington's *Love and Other Near Death Experiences* is a hilarious existential romantic comedy about second guesses and second chances **Not Quite Dead** Mil Millington, 2006 Rob Garland is getting married in two months Oddly however this is the least of his problems More vexing than the seating arrangements the choice of wedding stationery more even that the savagely obscene expense of everything is the fact that Rob should be dead and he knows it Faced with an ultimatum from his girlfriend to either sort himself out or call the wedding and the whole relationship off he sets about trying to come to terms with how it is that somehow he's still inexplicably breathing After pouring his heart out to the listeners on his late night radio jazz show he soon finds himself teamed up with others who really ought not to be alive but who for random meaningless and frankly stupid reasons unaccountably are And that's when things become yet more worrying because it turns out that their search to understand why they've each remained oddly alive might very well end up killing them all Love death religious beliefs existential angst *Love and Other Near Death Experiences* is a jackknifing comedy about those things which should be no laughing matter **First Dates & Other Near-Death Experiences** Fran Preston, Swipe right spiral left From the paralysing panic of what to wear to the emotional landmines of small talk Fran Preston has been through the first date wringer and lived to overshare about it *First Dates* *Other Near Death Experiences* is a warm hilarious and painfully honest guide to surviving the weird wonderful and wildly unpredictable world of modern dating Packed with cautionary tales unfiltered advice and just enough hopeful realism to keep you going this isn't a guide to finding the one it's a guide to staying sane while you look Whether you're freshly single perpetually swiping or just trying to navigate the minefield of romantic small talk without breaking into a stress rash Fran's here to help you laugh through the cringe Perfect for anyone who's ever left a date via the

This book will give readers inspiration and upliftment, insight and understanding, healing and transformation, love and connection *Near-Death Experience in Indigenous Religions* Gregory Shushan, 2018-07-03 Near-death experiences are known around the world and throughout human history. They are sometimes reported by individuals who have revived from a period of clinical death or near death, and they typically feature sensations of leaving the body, entering and emerging from darkness, meeting deceased friends and relatives, encountering beings of light, judgment of one's earthly life, feelings of oneness, and reaching barriers only to return to the body. Those who have NDEs almost invariably understand them as having profound spiritual or religious significance. In this book, Gregory Shushan explores the relationship between NDEs, shamanism, and beliefs about the afterlife in traditional indigenous societies in Africa, North America, and Oceania. Drawing on historical accounts of the earliest encounters with explorers, missionaries, and ethnologists, this study addresses questions such as: Do ideas about the afterlife commonly originate in NDEs? What role does culture play in how people experience and interpret NDEs? How can we account for cross-cultural similarities and differences between afterlife beliefs? Though NDEs are universal, Shushan shows that how

they are actually experienced and interpreted varies by region and culture In North America they were commonly valorized and attempts were made to replicate them through shamanic rituals In Africa however they were largely considered aberrational events with links to possession or sorcery In Oceania Micronesia corresponded more to the African model while Australia had a greater focus on afterlife journey shamanism and Polynesia and Melanesia showed an almost casual acceptance of the phenomenon as reflected in numerous myths legends and historical accounts This study examines the continuum of similarities and differences between NDEs shamanism and afterlife beliefs in dozens of cultures throughout these regions In the process it makes a valuable contribution to our knowledge about the origins of afterlife beliefs around the world and the significance of related experiences in human history

Near Death Experiences and Sacred Scripture Douglas Charles Hodgson, 2024-08-30 Near Death Experiences and Sacred Scripture The Parallel Messaging examines striking similarities and parallels between messaging found in accounts of those who have written about their near death experiences and in accounts contained in the sacred scriptures of the world's great religions This symmetrical and mutually reinforcing messaging is timeless in nature and is arguably more relevant today than in any previous period in human history as humanity continues to face existential threats to its survival In an era of rampant materialism and consumerism armed conflict environmental degradation species extinction global warming as well as an obsessive preoccupation with self rather than others and a devaluation of the life's sanctity It's timely to spark a revived interest in and knowledge of God and the afterlife and in seeking answers to life's larger religious spiritual philosophical and metaphysical questions This book will provide assurance and solace to those who are terminally ill or fear the death of their physical body for those who are suffering a difficult bereavement and for those who feel lost and confused about the meaning and purpose of life and what lies ahead of them

God So Loved the World Robert Spitzer, 2016-03-10 In this volume the brilliant Fr Spitzer probes in detail the major question that if an intelligent Creator God manifest in logical proofs scientific evidence and near death experiences who is the source of our desire for the sacred and the transcendental desires for truth love goodness and beauty would want to reveal himself to us personally and ultimately He then shows this is reasonable not only in light of our interior experience of a transcendent Reality but also that a completely intelligent Reality is completely positive implying its possession of a completely positive virtue namely love defined as agape This leads to the question whether God might be unconditionally loving and if he is whether he would want to make a personal appearance to us in a perfect act of empathy face to face After examining the rational evidence for this he reviews all world religions to see if there is one that reveals such a God an unconditionally loving God who would want to be with us in perfect empathy This leads us to the extraordinary claim of Jesus Christ who taught that God is Abba the unconditionally loving Father Jesus claims go further saying that He is also unconditional love and that his mission is to give us that love through an act of complete self sacrifice He also claims to be the exclusive Son of the Father sent by God to save the world and the one who possesses divine power and authority The rest of the book does an in depth examination of the evidence for Jesus unconditional love of sinners his teachings his miracles and his rising from the dead As well as the evidence for Jesus gift of the Holy Spirit that enabled his disciples to perform miracles in his name and evidence for the presence of the Holy Spirit today If this strong evidence convinces us to believe that Jesus is our ultimate meaning and destiny and desire His saving presence in our lives that evidence should galvanize the Holy Spirit within us to show that Jesus is Lord and Savior the way the truth and the life And our faith in him will transform everything we think about our nature dignity and destiny and how we live endure suffering contend with evil and treat our neighbor

The Science of Near-Death Experiences John C. Hagan, 2017-01-30 What happens to consciousness during the act of dying The most compelling answers come from people who almost die and later recall events that occurred while lifesaving resuscitation emergency care or surgery was performed These events are now called near death experiences NDEs As medical and surgical skills improve innovative procedures can bring back patients who have traveled farther on the path to death than at any other time in history Physicians and healthcare professionals must learn how to appropriately treat patients who report an NDE It is estimated that more than 10 million people in the United States have experienced an NDE
