McBride,2013-09-13 Existentialist Ontology and Human ConsciousnessThe majority of the distinguished scholarly articles in this volume focus on Sartre s early philosophical work which dealt first with imagination and the emotions then with the critique of Husserl s notion of a transcendental ego and finally with systematic ontology presented in his best known book Being and Nothingness In addition since his preoccupation with ontological questions and especially with the meanings of ego self and consciousness endured throughout his career other essays discuss these themes in light of later developments both in Sartre s own thought and in the phenomenological hermeneutic and analytic traditions      **Seeing All Things Whole** Thomas John Hastings,2015-02-06 Kagawa Toyohiko was one of the best known evangelists and social reformers of the twentieth century Founder of several religious educational social welfare medical financial labor and agricultural cooperatives he was nominated twice for the Nobel Prize in Literature 1947 and 1948 and four times for the Nobel Peace Prize 1954 1955 1956 and 1960 Appealing to the masses who had little knowledge of Christianity Kagawa believed that a positive interpretation of nature was a key missiological issue in Japan He reasoned that a faith which is rooted in the downward movement of Christ s incarnation must support the scientific quest and meditate on the purpose or upward movement implicit in scientific findings Through an anti reductionist methodological pluralism that strives to sees all things whole this scientific mystic employed a wide range of Japanese and Western cultural resources to assert a complementary role for science and religion in modern society      Spiritual Gardening Caroline A. Baez,2017-03-15 What do we all seek We seek happiness Many believe that happiness eludes them and this is the cause of much suffering What if you were to discover

that the key to happiness resides within you where it has always been What if you've been seeking in the opposite direction for a key that has always been in your possession a key that will release you from a prison of shadows and suffering allowing you to finally bask in the light of inner wisdom and freedom The solution lies in returning to the root of oneself by rediscovering the inner wisdom that abides in each of us Our society our culture and the frenzied world in which we live confront us with daily stimuli and external signals of who we are or should be of what we should prioritize or value and of what our aspirations and successes should model or resemble Hypnotized by a world of illusions we live a reality of half truth an ephemeral world of impermanent pleasures that disintegrate like the ethereal beauty of delicate snowflakes cascading onto the sea Guiding our focus inwardly to our silent inner space we reconnect with the inner master residing in the blooming garden of our True Self Embarking on this intimate journey and cultivating this inner path daily we find refuge in our expansive inner space where we discover the gateway to freedom from suffering and the light of true happiness The intention of this work is to guide readers to their own inner journey to intimate reflection and to daily cultivation of all that they desire will blossom in their own lives thereby denominating this book and this practice Spiritual Gardening
