Love Morals The Feminists

Lesley A. Hall

Love Morals The Feminists:

Love, Morals and the Feminists Constance Rover,1970 *Sex, Politics and Society*,2014-05-22 A pioneering study which has become an established classic in its field *Sex Politics and Society* provides a lucid and comprehensive analysis of the transformations of British sexual life from 1800 to the present These changes are firmly located in the wider context of social change from industrialization and the experience of Empire through the establishment of the welfare state to the rise of new social movements such as feminism and gay liberation and new forms of social conservatism Now fully revised and updated and with a new chapter bringing the story right up to date this new edition considers the transformation of the sexual world through globalization and the internet the changing impact of the AIDS pandemic over the last thirty years the influence of new currents in social and cultural theory on the study of sexuality the gradual depoliticization and mainstreaming of sexuality within historical study Combining rich empirical detail with innovative theoretical insights *Sex Politics and Society* remains at the cutting edge of the subject and this third edition will inspire and provoke a whole new generation of readers in history sociology social policy and the study of sexuality *Women Founders of the Social Sciences* Lynn McDonald,2013-12-01 Ground breaking and original this book debunks the myth that empirical social science has been dominated by its male founders and methodologists The author re analyses the critical role British French and American women played in creating the field from the 16th through the early 20th centuries Included are Mary Astell Mary Wollstonecraft Harriet Martineau Beatrice Webb Catharine Macauley Florence Nightingale Madame de Sta l and Jane Addams **Married, Middlebrow, and Militant** Teresa Mangum,1998 Examines the life and work of this daring nineteenth century author and women s rights advocate **Women and the Women's Movement in Britain since 1914** Martin Pugh,2015-04-22 This new edition of an established text brings the history of the women s movement in Britain right up to the present day Updated and expanded the third edition features a new final chapter focusing on the parliamentary breakthrough of 1997 and the likely impact of women in the upcoming general election Another major addition is the study of the effects of the Thatcher era on a generation of women from a greater distance The book has been thoroughly revised throughout to analyse the themes and developments of the new millennium including women s employment women and liberal society and women in public life *A Reader in Moral Philosophy* Daniel R. DeNicola,2022-02-23 This lively anthology provides classic and contemporary defenses and critiques of the central ethical theories along with readings on a selection of moral issues such as freedom of expression immigration and the treatment of non human animals Generous excerpts of canonical texts are included alongside contemporary works all carefully selected and thoughtfully edited for student use Readings on the ethical theories are organized intuitively by implicit source of value god human nature culture reason consent character emotion care particulars and intuitions The interconnections among readings amplify teaching possibilities and create a vigorous conversation about morality **Suffrage Days** Sandra Holton,2002-11 This is an account

of the British Suffrage movement from its inception until its victory in 1918 It is based around the experiences of seven women whose participation in the British Suffrage movement is little known

The Women's Suffrage Movement

Elizabeth Crawford,2003-09-02 This widely acclaimed book has been described by History Today as a landmark in the study of the women s movement It is the only comprehensive reference work to bring together in one volume the wealth of information available on the women s movement Drawing on national and local archival sources the book contains over 400 biographical entries and more than 800 entries on societies in England Scotland and Wales Easily accessible and rigorously cross referenced this invaluable resource covers not only the political developments of the campaign but provides insight into its cultural context listing novels plays and films

The Women's Movements in the United States and Britain from the 1790s to the 1920s Christine Bolt,2014-09-25 This book presents a study of the development of the feminist movement in Britain and America during the 19th century Acknowledging the similar social conditions in both countries during that period the author suggests that a real sense of distinctiveness did exist between British and American feminists American feminists were inspired by their own perception of the superiority of their social circumstances for example whereas British feminists found their cause complicated by traditional considerations of class Christine Bolt aims to show that the story of the American and British women s movement is one of national distinctiveness within an international cause This book should be of interest to students and teachers of American and British political history and women s studies

Outspoken Women

Lesley A. Hall,2014-05-01 Studying a broader period than its contemporaries this comprehensive study reveals a neglected tradition of British women s writing from the Victorian era to the sexual revolution of the 1960s Outspoken Women brings together the many and varied non fictional writings of British women on sexual attitudes and behaviour beginning nearly a hundred years prior to the second wave of feminism Commentators cover a broad range of perspectives and include Darwinists sexologists and campaigners against the spread of VD as well as women writing about their own lives and experiences Covering all aspects of the debate from marriage female desire and pleasure to lesbianism prostitution STDs and sexual ignorance Lesley A Hall studies how the works of this era didn t just criticise male defined mores and the dark side of sex but how they increasingly promoted the possibility of a brighter view and an informed understanding of the sexual life Hall s remarkable anthology is an engaging examination of this fascinating subject and it provides students and scholars with an invaluable source of primary material

Infidel feminism Laura Schwarz,2017-10-03 Infidel feminism is the first in depth study of a distinctive brand of women s rights that emerged out of the Victorian Secularist movement It looks at the lives and work of a number of female activists whose renunciation of religion shaped their struggle for emancipation Anti religious or secular ideas were fundamental to the development of feminist thought but have until now been almost entirely passed over in the historiography of the Victorian and Edwardian women s movement In uncovering an important tradition of Freethinking feminism this book reveals an ongoing radical and free love current connecting Owenite feminism with the

more respectable post 1850 women's movement and the New Women of the early twentieth century This book will be invaluable to both scholars and students of social and cultural history and feminist thought and to interdisciplinary studies of religion and secularisation as well as those interested in the history of women's movements more broadly *Contagion and the State in Europe, 1830-1930* Peter Baldwin, 1999-08-19 This book is a groundbreaking study of the historical reasons for the divergence in public health policies adopted in Britain France Germany and Sweden and the spectrum of responses to the threat of contagious diseases such as cholera smallpox and syphilis In particular the book examines the link between politics and prevention Did the varying political regimes influence the styles of precaution adopted Or was it as Peter Baldwin argues a matter of more basic differences between nations above all their geographic placement in the epidemiological trajectory of contagion that helped shape their responses and their basic assumptions about the respective claims of the sick and of society and fundamental political decisions for and against different styles of statutory intervention Thus the book seeks to use medical history to illuminate broader questions of the development of statutory intervention and the comparative and divergent evolution of the modern state in Europe *Good Enough Mothering?* Elizabeth Bortolaia Silva, 2013-01-11

Currently lone mothers and their children make up almost 20 per cent of families with dependent children in the UK a threefold increase since 1970 Yet while they are often cited by politicians as both a symptom and cause of social breakdown relatively little is known of the causes consequences and conditions of lone motherhood in Britain and throughout Europe *Good Enough Mothering* provides accounts of historical patterns of mothering and ideologies of the family with cross national comparisons of policies and experience of lone motherhood in developed and developing countries Countries include Britain US Norway South Africa Kenya Thailand India Brazil and the Caribbean This engaging edited collection will appeal to students of social policy women's studies and social work

Women of Ideas Dale Spender, 2024-11-20 Originally published in 1982 with characteristic energy humour and learning Dale Spender traces three hundred years of women's ideas She uncovers not only the ways and words of women but the methods of men While men control knowledge she argues they are in a position to take women's ideas If they like them they use them if they don't they lose them Every fifty years women are required to reinvent the wheel for every generation of women is initiated into a world in which women's traditions have been denied and buried Providing convincing evidence that women's absence from the record as creative intellectual beings is not women's fault but men's Dale Spender claims at least 150 women from the past and suggests how such erasure can be avoided in the future Given that men take what they want from women's ideas Dale Spender advocates that women withdraw their labour that they go on a knowledge strike for if women cannot control the knowledge they produce at least they can ensure that it cannot be used as evidence against them Exposing the inadequacies of much modern male scholarship the author provides the readers with the opportunity to share in her own discoveries excitement and mistakes in the process of researching and writing this book The result is that *Women of Ideas And What Men Have Done to*

There is an ambitious and provocative book which will be used as a reference for many years to come and which is also from beginning to end a stimulating read **The Girl's Own** Claudia Nelson, Lynne Vallone, 2010-06-01 The eleven contributors to *The Girl's Own* explore British and American Victorian representations of the adolescent girl by drawing on such contemporary sources as conduct books housekeeping manuals periodicals biographies photographs paintings and educational treatises The institutions practices and literatures discussed reveal the ways in which the Girl expressed her independence as well as the ways in which she was presented and controlled As the contributors note nineteenth century visions of girlhood were extremely ambiguous The adolescent girl was a fascinating and troubling figure to Victorian commentators especially in debates surrounding female sexuality and behavior *The Girl's Own* combines literary and cultural history in its discussion of both British and American texts and practices Among the topics addressed are the nineteenth century attempt to link morality and diet the making of heroines in biographies for girls Lewis Carroll's and John Millais's iconographies of girlhood in respectively their photographs and paintings genre fiction for and by girls and the effort to reincorporate teenage unwed mothers into the domestic life of Victorian America *In Their Time* Marlene LeGates, 2001 First Published in 2001 Routledge is an imprint of Taylor Francis an informa company *Prostitution, Women and Misuse of the Law* Helen J. Self, 2004-08-02 This is an examination from a feminist historian's standpoint of the background to the present system of regulating prostitution in Britain which is generally admitted to be not only unjust and discriminatory but ineffective even in achieving its stated aims Concentrating on the 1950s and especially on the Wolfenden Report and the 1959 Street Offences Act it is a thorough exposure of the sexual double standard and general misogynist assumptions underlying legislation relating to prostitution In addition to the detailed analysis of the 1950s legislation and the background to it there is an exposition of the subsequent workings of the Act and of attempts to amend or repeal it Women and the Vote Jad Adams, 2014 The first genuinely global history of how women won the vote written by a man A book with controversial conclusions *The Feminists* Richard J. Evans, 2013 Originally published in 1977 this book brings together what is known about liberal feminist and socialist movements for the emancipation of women all over the world in the nineteenth and early twentieth centuries It deals not only with Britain and the United States but also with Australia New Zealand France Germany Russia Austria Hungary and the Scandinavian countries The chapters trace the origins development and eventual collapse of these movements in relation to the changing social formations and political structures of Europe America and Australasia in the era of bourgeois liberalism The first part of the book discusses the origins of feminist movements and advances a model or ideal type description of their development The second part then takes a number of case studies of individual feminist movements to illustrate the main varieties of organised feminism and the differences from country to country The third part looks at socialist women's movements and includes a study of the Socialist Women's International A final part touches on the reason for the eclipse of women's emancipation movements in the half

century following the end of the First World War before a general conclusion pulls together some of the arguments advanced in earlier chapters and attempts a comparison between these feminist movements of 1840 1920 and the Women s Liberation Movement British Politics, Society and the State since the Late Nineteenth Century M. Smith,1990-08-22 This stimulating new text reflects on the extraordinary political stability in Britain compared with much of continental Europe over the last hundred years It also provides a historical perspective on current political issues especially on the attempts of the present administration to reduce the state s involvement in welfare and in the funding of other public services In examining these areas the author argues that they have been shaped by the conflict between individualistic and collectivist ideas and until recently have been dominated by the latter

Love Morals The Feminists Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has are more apparent than ever.
