Third Series** Library of Congress. Copyright Office, 1977 **Afro-American Poetry and Drama, 1760-1975** William P. French, Geneviève Fabre, 1979 *The Lever of Riches* Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the

causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential Poetry by American Women, 1900-1975 Joan Reardon, Kristine A. Thorsen, 1979-03-28 No descriptive material is available for this title *Heroism in the New Black Poetry* D.H. Melhem, 2021-12-14 D H Melhem s clear introductions and frank interviews provide insight into the contemporary social and political consciousness of six acclaimed poets Amiri Baraka Gwendolyn Brooks Jayne Cortez Haki R Madhubuti Dudley Randall and Sonia Sanchez Since the 1960s the poet hero has characterized a significant segment of Black American poetry The six poets interviewed here have participated in and shaped the vanguard of this movement Their poetry reflects the critical alternatives of African American life separatism and integration feminism and sexual identity religion and spirituality humanism and Marxism nationalism and internationalism They unite in their commitment to Black solidarity and advancement **Gender and the Poetics of Excess** Karen Jackson Ford, 1997-12 A study of how excess has proved to be the intended norm in the work of major women poets **Zero at the Bone** Christian Wiman, 2023-12-05 Christian Wiman braids poetry memoir and criticism to create an inspired career defining work Few contemporary writers ask the questions about faith morality and God that Christian Wiman does and even fewer perhaps none do so with his urgency and eloquence Wiman an award winning poet and the author of *My Bright Abyss* lays the motion of his mind on the page in this genre defying work an indivisible blend of poetry criticism theology and searing memoir As Marilynne Robinson wrote Wiman s poetry and his scholarship have a purifying urgency that is rare in this world It enables him to say new things in timeless language so that the reader s surprise and assent are one and the same *Zero at the Bone* begins with Wiman s preoccupation with despair and through fifty brief pieces he unravels its seductive appeal The book is studded with the poetry and prose of writers who inhabit Wiman s thoughts and the voices of Wallace Stevens Lucille Clifton Emily Dickinson and others join his own At its heart and Wiman s however are his family his young children who ask their own invaluable questions like Why are

you a poet I mean why his wife and those he grew up with in West Texas Wiman is the rare thinker who takes on the mantle of our greatest mystics and does so with an honest profound and contemporary sensibility Zero at the Bone is a revelation
