International Cooperation in the Early Twentieth Century Daniel Gorman, 2017-09-21 The early 20th century world experienced a growth in international cooperation Yet the dominant historical view of the period has long been one of national military and social divisions rather than connections International Cooperation in the Early Twentieth Century revises this historical consensus by providing a more focused and detailed analysis of the many ways in which people interacted with each other across borders in the early decades of the 20th century It devotes particular attention to private and non governmental actors Daniel Gorman focuses on international cooperation international social movements various forms of cultural internationalism imperial and anti imperial internationalism and the

growth of cosmopolitan ideas The book incorporates a non Western focus alongside the transatlantic core of early 20th century internationalism It interweaves analyses of international anti colonial networks ideas emanating from non Western sites of influence such as Japan China and Turkey the emergence of networks of international indigenous peoples in resistance to a state centric international system and diaspora and transnational ethno cultural religious identity networks

The Medicalization of Marijuana Michelle Newhart, William Dolphin, 2018-09-03 Winner of the Donald W Light Award for the Applied or Public Practice of Medical Sociology Medical marijuana laws have spread across the U S to all but a handful of states Yet eighty years of social stigma and federal prohibition creates dilemmas for patients who participate in state programs The Medicalization of Marijuana takes the first comprehensive look at how patients negotiate incomplete medicalization and what their experiences reveal about our relationship with this controversial plant as it is incorporated into biomedicine Is cannabis used similarly to other medicines Drawing on interviews with midlife patients in Colorado a state at the forefront of medical cannabis implementation this book explores the practical decisions individuals confront about medical use including whether cannabis will work for them the risks of registering in a state program and how to handle questions of supply dosage and routines of use Individual stories capture how patients redefine and reclaim cannabis use as legitimate individually and collectively and grapple with an inherently political identity These experiences help illustrate how stigma prejudice and social change operate By positioning cannabis use within sociological models of medical behavior Newhart and Dolphin provide a wide reaching theoretically informed analysis of the issue that expands established concepts and provides new insight on medical cannabis and how state programs work
