household in London in the late 1560s and ends with Aphra Behn who was employed as a spy in Amsterdam by Charles II. Here are examples of the work of twelve women writers allowing the reader to sample the diverse and lively output of all classes and opinions from artistocrats such as Mary Wroth, Anne Clifford and Margaret Cavendish to women of obscure background caught up in the religious ferment of the mid-seventeenth century like Hester Biddle, Pricilla Cotton and Mary Cole. The collection includes three plays and a generous selection of poetry, letters, diary, prose fiction, religious polemic, prophecy and scientific speculation offering the reader the possibility of tracing patterns through the works collected and some sense of historical shifts and changes. All the extracts are edited afresh from original sources and the anthology includes comprehensive notes both explanatory and textual.

Writing, Gender and State in Early Modern England

Megan Matchinske, 1998-05-28. The period from the Reformation to the English Civil War saw an evolving understanding of social identity in England. This book uses four illuminating case studies to chart a discursive shift from mid-sixteenth-century notions of an individually generated spiritually motivated sense of identity to Civil War perceptions of the self as inscribed by the state and inflected according to gender, a site of civil and sexual invigilation and control. Each centres on the work of an early modern woman writer in the act of self-definition and authorization in relation to external powers such as the Church and the monarchy. Megan Matchinske's study illustrates the evolving relationships between public and private selves and the increasing role of gender in determining different identities for men and women. The conjunction of gender and statehood in Matchinske's analysis represents an original contribution to the study of early modern identity.

Seventeenth-Century Mother's Advice Books M. Urban, 2006-02-04. Advice books published by women were a popular genre in Seventeenth and early Eighteenth-century England and they were moral manuals with strong religious overtones. Here Urban highlights a notable exception, *Age Rectified* which counsels women to acquire a disposition of mind in old age which allows them to be accepted by younger generations.

Fault Lines and Controversies in the Study of Seventeenth-century English Literature Claude J. Summers, Ted-Larry Pebworth, 2002. Written by various experts in the field, this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth-century English literature. The turn into the twenty-first century is an appropriate time to take stock of the state of the field and as part of that stocktaking the need arises to assess both where literary study of the early modern period has been and where it might desirably go. Hence many of the essays in this collection look both backward and forward. They chart the changes in the field over the past half-century while also looking forward to more change in the future.

Women's Writing in English

Patricia Demers, 2005-01-01. This wide-ranging examination of the genres of early modern women's writing embraces translation in the fields of theological discourse, romance and classical tragedy, original meditations and prayers, letters and diaries, poetry, closet drama, advice manuals and prophecies and polemics.

Claiming the Pen Catherine

Kerrison, 2015-05-05. In 1711 the imperious Virginia patriarch William Byrd II spitefully refused his wife Lucy's plea for a

book a century later Lady Jean Skipwith placed an order that sent the Virginia bookseller Joseph Swan scurrying to please. These vignettes bracket a century of change in white southern women's lives. *Claiming the Pen* offers the first intellectual history of early southern women. It situates their reading and writing within the literary culture of the wider Anglo Atlantic world, thus far understood to be a masculine province even as they inhabited the limited provincial social circles of the plantation South. Catherine Kerrison uncovers a new realm of female education in which conduct of life advice, both the dry pedantry of sermons and the risqué plots of novels, formed the core reading program. Women she finds learned to think and write by reading prescriptive literature, not Greek and Latin classics in impromptu home classrooms rather than colleges and universities and from kin and friends rather than schoolmates and professors. Kerrison also reveals that southern women, in their willingness to take up the pen and so claim new rights seized upon their racial superiority to offset their gender inferiority. In depriving slaves of education, southern women claimed literacy as a privilege of their whiteness and perpetuated and strengthened the repressive institutions of slavery.

Women Writers and Public Debate in 17th-Century Britain C. Gray, 2007-07-23 This book reveals women writers' key role in constituting seventeenth-century public culture and in doing so offers a new reading of that culture as begun in intimate circles of private dialogue and extended along transnational networks of public debate.

Being Feminist, Being Christian A. Jule, B. Pedersen, 2006-06-10 Can a person be Christian and Feminist at the same time? In these extended essays, authors explore the various intersections of feminism, feminist theory and practice, and Christian tradition as it is lived out in the lives of Christian academics.

Selected Philosophical and Scientific Writings Emilie Du Châtelet, 2009-09-15 Though most historians remember her as the mistress of Voltaire, Emilie Du Châtelet (1706-49) was an accomplished writer in her own right who published multiple editions of her scientific writings during her lifetime as well as a translation of Newton's *Principia Mathematica* that is still the standard edition of that work in French. Had she been a man, her reputation as a member of the eighteenth-century French intellectual elite would have been assured. In the 1970s, feminist historians of science began the slow work of recovering Du Châtelet's writings and her contributions to history and philosophy. For this edition, Judith P. Zinsler has selected key sections from Du Châtelet's published and unpublished works as well as related correspondence, part of her little-known critique of the Old and New Testaments, and a treatise on happiness that is a refreshingly uncensored piece of autobiography, making all of them available for the first time in English. The resulting volume will recover Châtelet's place in the pantheon of French letters and culture.
