

The Biggest Energy Companies in the World

RANKED BY

Revenue per Second

Methodology: we analyzed the 300 biggest energy companies in the world to find the ones that earned the most revenue per second in 2021. The figures were found using their trailing 12 months (TTM) revenue, which includes the past 12 consecutive months of a company's performance data and does not necessarily coincide with the fiscal year ending period; the data was collected in January 2022. The TTM revenue was divided by the number of seconds in 2021 (31,536,000) to find the revenue that was earned every second.
