Learning for Meaning's Sake Stephanie Mackler, 2009-01-01 Universities and the societies they serve suffer from a crisis of meaning We have fanatically developed our ability to produce

knowledge leaving our ability to craft meaning by the wayside University graduates often have an abundance of knowledge but lack the wisdom to use it meaningfully Meanwhile people inside and outside academia are searching for meaning but are imprisoned in a lexicon of clichés and sound bites that stunts their quest In response Learning for Meaning's Sake begins with the assertion that higher education in the 21st century should renounce its obsession with job training and knowledge production and should instead turn toward questions of meaning Drawing upon a diverse range of philosophical thought Learning for Meaning's Sake offers the vision and philosophical foundation for a new type of higher learning one that is devoted to the existential questions at the core of human existence *Official Gazette of the United States Patent Office*
