Making African Diaspora Americas 1441 19:

The Making of the African Diaspora in the Americas, 1441-1900 Vincent Bakpetu Thompson, 1987 This work examines the core period of the African diaspora in the Americas The author confronts myths surrounding the ethos of this diaspora which were induced by the mercantilist preoccupations of Western Europe The entire period is portrayed as a battle between two conflicting and opposite strategies that of the slavocracy and that of the enslaved Africans culminating in the conversion of the French colony of St Domingue into the revolutionary state of Haiti The author suggests that Haiti because of its position in the midst of hostile slave societies provided inspiration for the antislavery crusade in both its particularistic and its international aspects The epilogue provides a glimpse into the author's second book on the divergent perceptions in the early evolution of leadership in the African diaspora in the Americas Amazon.com viewed Oct 26 2022 [The African Diaspora](#) Patrick Manning, 2009-05-19 Patrick Manning refuses to divide the African diaspora into the experiences of separate regions and nations Instead he follows the multiple routes that brought Africans and people of African descent into contact with one another and with Europe Asia and the Americas In weaving these stories together Manning shows how the waters of the Atlantic Ocean the Mediterranean Sea and the Indian Ocean fueled dynamic interactions among black communities and cultures and how these patterns resembled those of a number of connected diasporas concurrently taking shape across the globe Manning begins in 1400 and traces five central themes the connections that enabled Africans to mutually identify and hold together as a global community discourses on race changes in economic circumstance the character of family life and the evolution of popular culture His approach reveals links among seemingly disparate worlds In the mid nineteenth century for example slavery came under attack in North America South America southern Africa West Africa the Ottoman Empire and India with former slaves rising to positions of political prominence Yet at the beginning of the twentieth century the near elimination of slavery brought new forms of discrimination that removed almost all blacks from government for half a century Manning underscores the profound influence that the African diaspora had on world history demonstrating the inextricable link between black migration and the rise of modernity especially in regards to the processes of industrialization and urbanization A remarkably inclusive and far reaching work The African Diaspora proves that the advent of modernity cannot be imaginatively or comprehensively engaged without taking the African peoples and the African continent as a whole into account [Slavery and its Legacy in Ghana and the Diaspora](#) Rebecca Shumway, Trevor R. Getz, 2017-10-19 Ghana for all its notable strides toward more egalitarian political and social systems in the past 60 years remains a nation plagued with inequalities stemming from its long history of slavery and slave trading The work assembled in this collection explores the history of slavery in Ghana and its legacy for both Ghana and the descendants of people sold as slaves from the Gold Coast in the era of the transatlantic slave trade The volume is structured to reflect four overlapping areas of investigation the changing nature of slavery in Ghana including the ways in which enslaved people have been

integrated into or excluded from kinship systems social institutions politics and the workforce over time the long standing connections forged between Ghana and the Americas and Europe through the transatlantic trading system and the forced migration of enslaved people the development of indigenous and transnational anti slavery ideologies and the legacy of slavery and its ongoing reverberations in Ghanaian and diasporic society Bringing together key scholars from Ghana Europe and the USA who introduce new sources frames and methodologies including heritage gender critical race and culture studies and drawing on archival documents and oral histories *Slavery and Its Legacy in Ghana and the Diaspora* will be of great interest to scholars and students of comparative slavery abolition and West African history **Edward W. book's combination of caution and original sometimes daring insights David Brion Davis author of *In the Image of God: Religion, Moral Values, and Our Heritage of Slavery* For decades American historians have been urging one another to place our culture in comparative or transnational perspective Thomas Bender's unique volume includes not only essays theorizing such efforts and essays exemplifying such work at its most successful and its most provocative it also provides more skeptical assessments questioning whether American historians can meet the challenge of overcoming our longstanding national preoccupations *Rethinking American History in a Global Age* is an indispensable book that will shape the work of a rising generation of historians whose horizons will extend beyond our own shores James T. Kloppenberg author of *The Virtues of Liberalism*

Unyielding Spirits Maureen G. Elgersman, 2014-01-21 This comparative study uncovers the differences and similarities in the experiences of Black women enslaved in colonial Canada and Jamaica and demonstrates how differences in the exploitation of women's productive and reproductive labor caused slavery to falter in Canada and excel in the Caribbean The research suggests that while the majority of Black women enslaved in early Canada were domestics the majority of Jamaican women were field laborers often performing some of the most labor intensive work on the sugar plantations While the efforts of the planter class to increase the number of children born to Jamaican women were not completely successful reproduction seems to have been less of a concern in Canada where many Black women were often sold or freed because there was no use for them The Canadian slave context seems to have allowed a broader range of material comfort as well Despite obvious labor differences Black women in Canada and Jamaica rejected their chattel status and condition and resisted slavery similarly This study is unique in its desire and ability to place Black Canadian slave women at the center of research and then contextualize it with a Caribbean model

Ethnic Studies Research Timothy P. Fong,2008-05-02 Study of ethnic groups and race relations have always existed in the academy primarily in the areas of sociology and anthropology However grassroots movements for ethnic studies programs and departments came about with very different agendas for the study of these groups It is surprising then that relatively few books devoted to these methods exist to document and promote this innovation among succeeding generations of graduate students as well as current academics and professional practitioners Ethnic Studies Research synthesizes and benchmarks ethnic studies methodologies as interdisciplinary modes of inquiry providing state of the art summary chapters

The Abolition of Slavery in Brazil David Baronov, 2000-06-30 The persistence of a raced based division of labor has been a compelling reality in all former slave societies in the Americas One can trace this to nineteenth century abolition movements across the Americas which did not lead to and were not intended to result in a transition from race based slave labor to race neutral wage labor for former slaves Rather the abolition of slavery led to the emergence of multi racial societies wherein capital labor relations were characterized by new forms of extra market coercion that were explicitly linked to racial categories Post slavery Brazilian society is a classic example of this pattern Working within the context of the origin of the wage labor category in classical political economy Baronov begins by questioning the central role of wage labor within capitalist production through an examination of key works by Smith Ricardo and Marx as well as the historical conditions informing their analyses The study then turns to the specific case of Brazil between 1850 1888 comparing the abolition of slavery in three Brazilian regions the northeast sugar region the Paraiba Valley and Western Sao Paulo Through this analysis Baronov provides a critique of the dominant interpretation of abolition as a transition from slave labor to wage labor and suggests an alternative interpretation that places a greater emphasis on the role of non wage labor forms and extra market factors in the shaping of the post slavery social order

Nations Abroad Charles King, 2018-02-19 This book discusses trans border ethnic populations in the former Soviet Union in a broader conceptual context highlighting the importance of diaspora issues both for post Sovietologists and for scholars of comparative politics and international relations in general
