**Making Monsters** Richard Ofshe, Ethan Watters, 1996-01-01 In the last decade reports of incest have exploded into the national consciousness Magazines talk shows and mass market paperbacks have taken on the subject as many Americans primarily women have come forward with graphic memories of childhood abuse Making Monsters examines the methods of therapists who treat patients for depression by working to draw out memories or with the use of hypnosis to encourage fantasies of childhood abuse the patients are told they have repressed Since this therapy may leave the patient more depressed and alienated than before questions are appropriately raised here about the ethics and efficacy of such treatment In the last decade reports of incest have exploded into the national consciousness Magazines talk shows and mass market paperbacks have taken on the subject as many Americans primarily women have come forward with graphic memories of childhood abuse Making Monsters examines the methods of therapists who treat patients for depression by working to draw out memories or with the use of hypnosis to encourage fantasies of childhood abuse the patients are told they have repressed Since this therapy may leave the patient more depressed and alienated than before questions are appropriately raised here about the ethics and efficacy of such treatment

**Making Monsters** Richard Ofshe, Ethan Watters, 1994-06-01 Lately reports of incest have exploded as many people primarily women have come forward with graphic stories of sexual psychological abuse Many of these stories have emerged from recovered memory therapy These recovered memories can be false fabricated in the highly charged atmosphere of therapy The authors not only take to task poorly trained therapists they also show how the mental health establishment has actually added to the confusion They trace the problem back to Sigmund Freud illuminate how why the debate about recovered memories will drive psychology in the future [A Feminist Clinician's Guide to the Memory Debate](#) Susan Contratto, M Janice Gutfreund, 2014-06-03 First published in 1997 A Feminist Clinician's Guide to the Memory Debate accomplishes four goals it publishes a range of chapters which are explicitly feminist to empower feminists activists practitioners scholars and advocates to be knowledgeable and do the most competent work possible it helps feminist friendly clinicians become alert as to how a feminist analysis can expand and contextualize their understanding of the recovered memory controversy it makes proactive statements of what constitutes ethical healing treatment for the profoundly deforming experience of child sexual abuse and it empowers the clinician to be effectively political outside the therapy setting A Feminist Clinician's Guide to the Memory Debate is an invaluable collection of articles that explores nearly every aspect of the controversy over recovered memories that has shaken public life the courts feminist psychotherapy contemporary psychoanalysis and cognitive science *Trauma* Selma Leydesdorff, 2017-09-29 Traumatic experiences and their consequences are often the core of life stories told by survivors of violence In Trauma Life Stories of Survivors leading academics explore the relationship between the experiences of terror and helplessness that have caused trauma the ways in which survivors remember and the representation of these memories in the language and form of their

life stories International case studies include the migration of Ethiopian Jews to Israel the life stories of Guatemalan war widows violence in South Africa persecution of political prisoners in South Africa and the former Czechoslovakia lynching in the Mississippi Delta resistance in Zimbabwe s liberation war sexual abuse and the ongoing Irish troubles The volume reveals the complexity of remembering and forgetting traumatic experiences and shows that survivors are likely to express themselves in stories containing elements that are imaginary fragmented and loaded with symbolism Trauma Life Stories of Survivors is a groundbreaking work of relevance across the social sciences This new perspective on trauma will be of particular importance to researchers in psychology history women s studies anthropology sociology and cultural studies

**Rewriting the Soul** Ian Hacking,1998-08-03 Twenty five years ago one could list by name the tiny number of multiple personalities recorded in the history of Western medicine but today hundreds of people receive treatment for dissociative disorders in every sizable town in North America Clinicians backed by a grassroots movement of patients and therapists find child sexual abuse to be the primary cause of the illness while critics accuse the MPD community of fostering false memories of childhood trauma Here the distinguished philosopher Ian Hacking uses the MPD epidemic and its links with the contemporary concept of child abuse to scrutinize today s moral and political climate especially our power struggles about memory and our efforts to cope with psychological injuries What is it like to suffer from multiple personality Most diagnosed patients are women why does gender matter How does defining an illness affect the behavior of those who suffer from it And more generally how do systems of knowledge about kinds of people interact with the people who are known about Answering these and similar questions Hacking explores the development of the modern multiple personality movement He then turns to a fascinating series of historical vignettes about an earlier wave of multiples people who were diagnosed as new ways of thinking about memory emerged particularly in France toward the end of the nineteenth century Fervently occupied with the study of hypnotism hysteria sleepwalking and fugue scientists of this period aimed to take the soul away from the religious sphere What better way to do this than to make memory a surrogate for the soul and then subject it to empirical investigation Made possible by these nineteenth century developments the current outbreak of dissociative disorders is embedded in new political settings Rewriting the Soul concludes with a powerful analysis linking historical and contemporary material in a fresh contribution to the archaeology of knowledge As Foucault once identified a politics that centers on the body and another that classifies and organizes the human population Hacking has now provided a masterful description of the politics of memory the scientizing of the soul and the wounds it can receive

**Unspeakable** Lynn Sacco,2009-08-17 First place Large Nonprofit Publishers Illustrated Covers 2010 Washington Book PublishersNamed one of the Top Five Books of 2009 by Anne Grant The Providence Journal This history of father daughter

incest in the United States explains how cultural mores and political needs distorted attitudes toward and medical knowledge of patriarchal sexual abuse at a time when the nation was committed to the familial power of white fathers and the idealized white family. For much of the nineteenth century father daughter incest was understood to take place among all classes and legal and extralegal attempts to deal with it tended to be swift and severe. But public understanding changed markedly during the Progressive Era when accusations of incest began to be directed exclusively toward immigrants, blacks and the lower socioeconomic classes. Focusing on early twentieth century reform movements and that era's epidemic of child gonorrhea, Lynn Sacco argues that middle and upper class white males too molested female children in their households even as official records of their acts declined dramatically. Sacco draws on a wealth of sources including professional journals, medical and court records and private and public accounts to explain how racial politics and professional self interest among doctors, social workers and professionals in allied fields drove claims and evidence of incest among middle and upper class white families into the shadows. The new feminism of the 1970s she finds brought allegations of father daughter incest back into the light, creating new societal tensions. Against several different historical backdrops, public accusations of incest against genteel men in the nineteenth century, the epidemic of gonorrhea among young girls in the early twentieth century and adult women's incest narratives in the mid to late twentieth century, Sacco demonstrates that attitude shifts about patriarchal sexual abuse were influenced by a variety of individuals and groups seeking to protect their own interests.

**Unsafe Home** Limor Ezioni, 2020-09-30. In *Unsafe Home: Child Harming within the Family*, Limor Ezioni focuses on the three major types of child harming within the family: abuse, incest and filicide, and provides an in depth exploration of each type, historically, legally and comparatively. In the first part, focusing on abuse executed on children, Ezioni addresses both physical and emotional abuse, discussing what constitutes child abuse, how it should be punished and whether any damage caused to a child is prosecutable by law. In the second part of the book, Ezioni examines childhood incest, focusing on adult survivors and the multitude of legal problems they face while attempting to pursue justice through the legal system and questioning whether the current legal and criminal provisions provide sufficient protection for survivors. In the final section of the book, Ezioni examines the filicide phenomenon and how the judicial system in western countries deals with the painful reality that reflects the society in which it occurs: filicide is often carried out by parents who are unable to function as a parent in circumstances dictated by the place and time in which they live. Scholars of legal studies, family studies, criminology and sociology will find this book particularly useful.

**Popular Myths about Memory**, Brian H. Bornstein, 2017-07-03. Misconceptions about memory phenomena often go hand in hand with popular misrepresentations of its function in media. In *Popular Myths about Memory*, Brian H. Bornstein examines how the representation of memory in novels, movies and television shows often clashes with scientific research. Bornstein discusses the consequences of these myths on the popular understanding of memory and its functions. Depictions of amnesia, eyewitness accounts and superior memory are just a few of

the processes explored and debunked This book is recommended for scholars interested in psychology media and film studies literary studies and communication studies *Beyond Common Sense* Eugene Borgida, Susan T. Fiske, 2008-04-30 *Beyond Common Sense* addresses the many important and controversial issues that arise from the use of psychological and social science in the courtroom Each chapter identifies areas of scientific agreement and disagreement and discusses how psychological science advances our understanding of human behavior beyond common sense Features original chapters written by some of the leading experts in the field of psychology and law including Elizabeth Loftus Saul Kassin Faye Crosby Alice Eagly Gary Wells Louise Fitzgerald Craig Anderson and Phoebe Ellsworth The 14 issues addressed include eyewitness identification gender stereotypes repressed memories Affirmative Action and the death penalty Commentaries written by leading social science and law scholars discuss key legal and scientific themes that emerge from the science chapters and illustrate how psychological science is or can be used in the courts **Troubling Confessions** Peter Brooks, 2000-05-22 Literature has often understood the problematic nature of confession better than the law as Brooks demonstrates in perceptive readings of legal cases set against works by Rousseau Dostoevsky Joyce and Camus among others **BOOK JACKET**

**Sex Panic and the Punitive State** Roger N. Lancaster, 2011-03-15 One evening while watching the news Roger N Lancaster was startled by a report that a friend a gay male school teacher had been arrested for a sexually based crime The resulting hysteria threatened to ruin the life of an innocent man In this passionate and provocative book Lancaster blends astute analysis robust polemic ethnography and personal narrative to delve into the complicated relationship between sexuality and punishment in our society Drawing on classical social science critical legal studies and queer theory he tracks the rise of a modern suburban culture of fear and develops new insights into the punitive logic that has put down deep roots in everyday American life **After the Flying Saucers Came** Greg (Professor of History and Bioethics Eghigian, Professor of History and Bioethics Pennsylvania State University), Professor of History and Bioethics Greg Eghigian, 2024-06-03 *After the Flying Saucers Came* is a comprehensive account of the stories the people and the strange events that went into making the fascination with UFOs and aliens a worldwide phenomenon among believers skeptics and the simply curious It traces how an odd sighting of flying saucers by an American pilot in 1947 inspired governments the media scientists writers and the general public to consider the possibility that extraterrestrials were visiting earth Self Expressions Owen J. everything allowed Flanagan's collection of essays takes on these questions and more. He continues the old philosophical project of reconciling a scientific view of ourselves with a view of ourselves as agents of free will and meaning makers. But to this project he brings the latest insights of neuroscience, cognitive science, and psychiatry, exploring topics such as whether the conscious mind can be explained scientifically, whether dreams are self-expressive or just noise, the moral socialization of children, and the nature of psychological phenomena such as multiple personality disorder and false memory syndrome. What emerges from these explorations is a liberating vision which can make sense of the self, agency, character transformation, and the value and worth of human life. Flanagan concludes that nothing about a scientific view of persons must lead to nihilism.

*Self Expressions : Mind, Morals, and the Meaning of Life* Owen Flanagan, Professor of Philosophy, Duke University, 1995-12-28

Human beings have the unique ability to consciously reflect on the nature of the self. But reflection has its costs. We can ask what the self is, but as David Hume pointed out, the self once reflected upon may be nowhere to be found. The favored view is that we are material beings living in the material world. But if so, a host of destabilizing questions surface. If persons are just a sophisticated sort of animal, then what sense is there to the idea that we are free agents who control our own destinies? What makes the life of any animal, even one as sophisticated as *Homo sapiens*, worth anything? What place is there in a material world for God? And if there is no place for a God, then what hold can morality possibly have on us? Why isn't everything allowed? Flanagan's collection of essays takes on these questions and more. He continues the old philosophical project of reconciling a scientific view of ourselves with a view of ourselves as agents of free will and meaning makers. But to this project he brings the latest insights of neuroscience, cognitive science, and psychiatry, exploring topics such as whether the conscious mind can be explained scientifically, whether dreams are self-expressive or just noise, the moral socialization of children, and the nature of psychological phenomena such as multiple personality disorder and false memory syndrome. What emerges from these explorations is a liberating vision which can make sense of the self, agency, character transformation, and the value and worth of human life. Flanagan concludes that nothing about a scientific view of persons must lead to nihilism.

*Hystories* Elaine Showalter, 1997. Filled with fascinating new perspectives on a culture saturated with syndromes of every sort, *Hystories* skillfully surveys the condition of hysteria, its causes, cures, famous patients, and doctors in the 20th century, to show that hysterics are always with us, a kind of collective coping mechanism for changing times. States of Denial Stanley Cohen, 2013-08-29. Blocking out, turning a blind eye, shutting off, not wanting to know, wearing blinkers, seeing what we want to see: these are all expressions of denial. Alcoholics who refuse to recognize their condition, people who brush aside suspicions of their partner's infidelity, the wife who doesn't notice that her husband is abusing their daughter, are supposedly in denial. Governments deny their responsibility for atrocities and plan them to achieve maximum deniability. Truth Commissions try to overcome the suppression and denial of past horrors. Bystander nations deny their responsibility to intervene. Do these phenomena have anything in common? When we deny, are we aware of what we are doing, or is this an unconscious defence?
